## God and You

A LENTEN MEDITATION

By the Rev. Charles Stelze

Is one God.  
 the Lord and Father of us all.  
 and through Him we are related one to another.  
 is one Brotherhood.  
 composed of the sons of God.  
 there is no klan, no clique, no cleavage.  
 is one Kingdom.  
 composed of all those who acknowledge God's Kingship, who  
 homage, obey His laws, and seek to extend His Kingdom

## PROPER PRISON SYSTEMS

(Portland Journal.)

Kelly Butte rock quarry, operated by prisoners from the  
 showed a profit last year of \$500 for the county. That  
 received for rock sold, over and above the cost of oper-

the prisoners were at work. They were not lying  
 the prison, contemplating a means of escape or  
 of the criminal trade. They were kept at hard  
 their minds and their bodies. And in  
 the cost of their keep.

on, the inmates are at work. They are  
 being kept solely at the expense of  
 helping pay their way and they are

the prisoners are at work. They  
 are idle. That makes for trouble  
 and after they are out. Work  
 boarding houses and it takes a  
 taxpayers and puts it upon those

and of Oregon have reasons to  
 being carried on at Kelly Butte  
 arrangement.

Journal of yesterday sounds  
 feels that way about it—  
 leads to the opposite. It leads  
 per centage possible. Men in

reformation do not want coddling.  
 as men worthy of their tasks. They  
 serve the opportunity to work, and to

support the prisons where they are  
 ze to help the innocent victims on  
 a nest egg against the day of their  
 ation in this. There can be no

are beyond the pale of reformation  
 work. Coddling will only make them

line is not unkindness. It is the opposite.

 systems of discipline known in any prison;  
 y on the march to battle.

ate penitentiary can be held to its present  
 long be self supporting; and with a daily  
 orker—

over, in time, to provide its own needed new  
 proved quarters.

poetry boom in the Salem district growing, and  
 room here for more eleven story skyscrapers.  
 industry links up with every other industry on  
 and all the industries in the city. It is a bond of  
 that binds all other members of the family of  
 in bonds that make for permanence and stability.  
 no better material thing happening in the Salem  
 than the rapid growth of our poultry industry; a  
 ant growth this year, according to good authority.

## A STILL BIGGER POULTRY BOOM

Salem district poultry boom is growing still bigger.  
 use in poultry products in this district for this year  
 ment, according to a well known authority in the  
 here is room for more rapid expansion; and  
 actual outstanding advantages. It is

poly husbandry at the Oregon  
 ed over the radio these state-

ates has such rapid progress  
 g production of the hen as on  
 ly in the northwest—  
 at laying strains in the world  
 ar doors."

est this year. The Pacific  
 shipped to eastern markets  
 and there was perhaps an  
 going east from Oregon last  
 a period of big things in this  
 take our achievements so far look

r years been saying this is the  
 world. It is. Though his voice  
 ne, as of one crying in the wilder-

now the very best authorities believe this, and are not  
 ashamed to say it.

People smiled a while back when the Slogan man talked  
 about Salem becoming a Petaluma—plus. They smile no  
 longer; the knowing ones—

In fact, they see a tremendous poultry boom coming. Our  
 baby chick men could not get enough suitable eggs last year  
 for their business, to supply their demands. The same condi-  
 tion holds this year. They want more and more.

The 200 egg hen was a myth a short while ago. Today we  
 have here in this district the 200 egg flock average, and the  
 300 egg individual; and going higher. Up to 337 now.

The first 300 egg hen in the world was produced in the  
 Salem district; at the Oregon Agricultural college.

The first flock of 13 hens in the world to produce 300 or  
 more eggs each in a year were bred at the Oregon asylum for  
 the insane, at Salem; pronounced by the then (1922) greatest  
 poultry authority living as the best 13 hens in all history.

The first 335 Leghorn hen in the world was bred and is  
 owned in the Salem district. The present world record hen,  
 with 351 eggs in a year to her credit, is a White Leghorn, at  
 Vancouver, B. C., where climatic conditions are very similar  
 to ours—

And long-distance strains are now being developed in this  
 district with greater success than is attending such efforts  
 elsewhere in all poultrydom.

That this is the best poultry district in the world is evident  
 from the above, and from the further fact that our breeders  
 have been repeatedly making world records in laying contests  
 against all comers, and it is not to be wondered at that these  
 facts have brought about a poultry boom in the Salem district.

We can compete in the big eastern markets with any of  
 our competitors. We are doing so now. We are actually  
 receiving for our first quality Oregon eggs 10 to 15 cents a  
 dozen higher prices than the prices paid for eggs from the  
 middle west. But we could compete if we received no higher  
 prices.

How is this?  
 Because we produce a hen that lays eggs for a longer  
 time, and that lays more eggs in the year, and we feed her  
 at less cost than she could be fed elsewhere in this country,  
 and weather conditions are such that we require less capital  
 investment per hen here, and less overhead cost—

So we can turn out eggs at a greater profit than any other  
 section of this country.

Thus our poultry boom is fully justified. It cannot become  
 too wild a boom. It will stand up in the most rigid and search-  
 ing investigation of the facts of our natural advantages.

Salem will become the greatest poultry center in the world,  
 if she will push the industry.

Poultry goes with fruit growing. It is an important part  
 of our five story farming; of intensified agriculture; of the  
 diversified cultivation of the soil. The poultry industry is  
 capable of making all other lines of production more solidly  
 prosperous. It is the duty of every one in any way interested  
 in this city and section to help speed up the poultry boom.  
 It is one of the biggest developments that is taking place  
 here.

Let the poultry industry here go even to the proportions  
 it has attained in Petaluma, around \$20,000,000 a year, and  
 we will be able to adopt the slogan of one of Florida's boom  
 cities:

"Salem is the home address of Prosperity."

## Bits For Breakfast

Keep on keeping on—

Keep the poultry industry grow-  
 ing at the present rate—

That is, keep it increasing 25  
 per cent a year, as it is doing this  
 year in the Salem district—

And, very soon, it will justify  
 several more skyscrapers in Sa-  
 lem, because it helps every other  
 industry on the farm, and every  
 industry in the city.

There is no three, four, five, six  
 or seven story farming scheme (or  
 upward) that can omit one of the  
 foundation floors of poultry. And  
 in both bush and tree fruit grow-  
 ing poultry fits in without ques-  
 tion.

A long, long time ago, a breed of  
 smart Alecks then infesting Salem  
 used to almost laugh their fool  
 heads off, poking fun at the editor  
 of the Statesman for insisting  
 that this was a good poultry coun-  
 try. It was too wet, they said,  
 among many other supposed draw-  
 backs.

But Lee Steiner, running the  
 asylum for the insane, was crazy  
 enough to believe this was really  
 a good poultry country—and he  
 soon produced the first 300 egg  
 pen of 13 hens in the world; the  
 best laying pen of that size the  
 history of poultrydom had record-  
 ed up to that time. And Dr.  
 Steiner has kept right on with one  
 of the best and largest flocks of  
 poultry on this coast.

Our section produced the first  
 300 egg hen in the world; the first  
 335 egg hen; the first 337 egg hen,  
 and now has the world record with  
 a 351 egg hen. Going to the 365  
 egg hen, with 366 for leap years.

We have the best poultry coun-  
 try in the world because we can  
 produce the most eggs here, at the  
 lowest cost. That is the test. No  
 may-be-so about that.

## SHRINE LEADER DEAD

ATLANTA, March 2.—(AP)

Ernest A. Cutts, prominent  
 Savannah cotton broker, and a  
 former Imperial potentate of the  
 Ancient and Arctie Order, Mys-  
 tic Shrine of North America, died  
 at the home of relatives here to-  
 day.

A. H. Moore, 233 N. High St.,  
 apartments and store where you  
 can get high quality furniture and  
 furnishings for every room in  
 your house. (\*)

## AMBITIOUS PLANS MADE FOR POULTRY BUSINESS

(Continued from page 1.)

Plans are attracted to this district  
 by our comparatively moderate  
 priced lands and our success in  
 growing green feeds for poultry  
 the year round.

Just now a poultry colonization  
 project for the Salem district is  
 being considered, and local agents  
 for the promoters of the enterprise  
 are busy seeking a desirable tract  
 at an attractive price, which it  
 successful will prove a wonderful  
 boost or impetus to the poultry in-  
 dustry of the central Willamette  
 valley.

Another very encouraging propo-  
 sition for the poultry interests of  
 the Salem district is the fact that  
 a prominent and successful poultry-  
 man, a member of the executive  
 board of the American Poultry  
 association and a poultryman en-  
 joying a national reputation, has  
 been in correspondence with the  
 writer for more than a year with  
 the object of establishing a great  
 poultry demonstration farm near  
 Salem similar to one he estab-  
 lished two years ago near Los  
 Angeles. It is his purpose to make  
 this central Willamette valley  
 poultry breeding and demonstra-  
 tion farm the distributing plant  
 for filling all northwest orders,  
 while his Los Angeles poultry  
 farm will take care of their south-  
 western business. This proposi-  
 tion bids fair to materialize the  
 coming season, or as soon as the  
 interested parties can look over  
 some proposed sites for their  
 farm and poultry plant.

Altogether the prospects for the  
 rapid growth and development of  
 the poultry industry in the Salem  
 district is most encouraging.

The Hamilton beach electric  
 cleaners and Monarch electric  
 ranges both recommended by Good  
 Housekeeping. Sold in Salem by  
 C. S. Hamilton Furniture Co. (\*)

## NINE STEAMERS MADE HELPLESS BY TEMPEST

(Continued from page 1.)

aboard, broke away from their tug  
 off the Virginia capes and were  
 reported adrift. The tug proceed-  
 ed to Norfolk, Va., but expected to  
 return and search for them.

PHILADELPHIA, March 2.—  
 (AP)—Alarming wireless reports  
 from three steamers caught in the  
 lantic coast were received late to-  
 northeast gale off the south At-  
 land by the maritime exchange.  
 One of them, the British steamer  
 King David, reported that she was

sinking and asked for immediate  
 assistance.

Three in Distress  
 The other ships in distress were  
 the Sulanierco, San Pedro for  
 Newark, N. J., and the Maracaibo,  
 Curacao for New York. The Sul-  
 anierco was off the Virginia coast,  
 but the position of the latter was  
 not given. The Sulanierco report-  
 ed that she was hoisted with her  
 lights out, while the Maracaibo  
 said she was "not under control."

NORFOLK, Va., March 2.—  
 (AP)—The coast guard cutter  
 Carrabasset tonight was dis-  
 patched from this port to aid the  
 steamer City of St. Louis, disabled  
 at sea. The vessel's position was  
 given as 20 miles off Hatteras and  
 about 160 miles from Norfolk. She  
 is believed to be only about 10  
 miles from dangerous shoals, with  
 the wind reported blowing in that  
 direction. The cutter cannot reach  
 her before early tomorrow morn-  
 ing.

PHILADELPHIA, March 2.—  
 (AP)—A wireless message picked  
 up by the Maritime exchange here  
 tonight from the steamship City  
 of St. Louis said the vessel's steer-  
 ing gear had been disabled in a  
 storm off the south Atlantic coast.  
 The message said a heavy gale was  
 blowing and high seas were run-  
 ning.

The City of St. Louis plies be-  
 tween New York and Savannah.

## GIDEON J. PARKER PASSESS TO BEYOND

Former Well Known Resident of Salem, of Distinguished Family

Word has reached S. F. Parker  
 of Gervais, Oregon, that his  
 brother Gideon J. Parker has  
 passed away at Los Angeles, Cali-  
 fornia, where his home has been  
 for some time. Gideon J. will be  
 remembered for many acts of  
 kindness, his capability in business  
 life, his genial, cordial ways, his  
 kindly manner, and his wonder-  
 ful voice in song. His voice has  
 gladdened many a heart with its  
 rich mellow tones in days gone  
 by. He was a home lover, and a  
 splendid, upright citizen. After  
 leaving Oregon, he occupied pos-  
 sions of trust for many years in  
 the state of Idaho. He was effi-  
 cient and popular in social and  
 business life. He married Genella  
 Leslie Jones, daughter of George  
 H. Jones of South Salem, well  
 known business man (deceased).  
 One sister, Frances Jones, is a  
 musician of much note in New  
 York City. Mrs. Genella Parker  
 attended Willamette university,  
 and was a teacher well liked; was  
 a versatile conversationalist, and  
 very popular in Salem circles.

On her last visit to Salem she  
 was pleased to note the good work  
 accomplished in the training of  
 the youth who attended the Sun-  
 day school and church services,  
 at the Leslie Methodist church,  
 named in honor of her kindman.  
 Mrs. Parker passed away not  
 many months after her visit here  
 in Salem. Mr. and Mrs. Parker  
 were active members of the Pres-  
 byterian church at both Lewiston  
 and Moscow, remaining loyal  
 Christians through life. Mr.  
 Parker was a staunch republican.  
 Two daughters blessed this home,  
 Leslie Mae (deceased) and  
 Beulah Cloninger of Los Angeles,  
 California.

Mr. Gideon Parker was the son  
 of Honorable Samuel Parker and  
 was born in Virginia. The sur-  
 viving brothers are Samuel F.  
 Parker of Gervais, Oregon, and  
 Pearce Y. Parker of Portland,  
 Oregon, the only two children left  
 of this distinguished Virginian  
 family. The deceased brothers  
 and sisters are as follows: Newton  
 O. Parker, Wm. R. Parker, Geo.  
 L. Parker, Mrs. Sarah Jackson,  
 wife of John Jackson, Mrs. Pris-  
 cella Whitman, wife of Perrin B.  
 Whitman (a nephew of Dr. Mar-  
 cuse Whitman), Mrs. Ama L. Cor-  
 nelius, wife of Green B. Cornelius,  
 Mrs. Susan Kale Ferrell, wife of  
 Capt. Geo. Ferrell, Mrs. Dollie  
 Bonham, wife of Carlos Bonham,  
 and Mrs. Elizabeth Burge, wife of  
 C. Burge.

Mr. Gideon Parker is survived  
 by his daughter Beulah Cloninger,  
 her husband Wm. Cloninger and  
 their two daughters of Los An-  
 geles, California.

Gresham—New factory opened

## DR. BROWN TELLS ABOUT DIPHTHERIA

Salem Health Demonstration Director Addresses Meeting Meeting in Portland

PORTLAND, March 2.—(AP)  
 America's death rate could be cut  
 50 per cent, the 8000 annual  
 deaths from diphtheria could be  
 prevented and the physical effi-  
 ciency of all citizens could be in-  
 creased more than can readily be  
 estimated, if present health knowl-  
 edge were made use of, Dr. Walter  
 Brown of Salem told delegates to  
 the annual convention of the Ore-  
 gon Tuberculosis association meet-  
 ing here today.

This available knowledge is not  
 used, Dr. Brown said to the 100  
 county association workers, pub-  
 lic health nurses and others as-  
 sembled in the story hour room of  
 the Central Library, because  
 health workers did not participate  
 enough in governmental affairs.

"Most of us have adopted a com-  
 munitic point of view about  
 health. We realize that we, if we  
 are wise, will thing in commu-  
 nity terms for the prevention of  
 communicable disease. We can no  
 longer live unto ourselves, not  
 even farmers."

Glimpsing a time when health  
 knowledge "will be translated into  
 health wisdom," Dr. Brown pre-  
 dicted that "when we really be-  
 lieve and feel health, it will hurt  
 us to do anything unhealthy."  
 This annual meeting opened to-  
 day with reports of delegates from  
 the 18 Oregon counties which or-  
 ganized tuberculosis association  
 affiliated with the state associa-  
 tion.

The Marion Automobile Co. The  
 Studebaker, the world's greatest  
 automobile value. Operating cost  
 small. Will last a lifetime, with  
 care. Standard coach \$1510. (\*)

## BELATED POULTRY ARTICLE PRINTED

Very Well Written, Submitted by an Aumsville School Contestant

Editor Statesman: Salem and  
 the surrounding country have all  
 the advantages for poultry rais-  
 ing that could be asked. The cli-  
 mate is ideal. Because of the  
 mild winters, chickens can easily  
 be forced to lay all the year round.  
 In the extreme winter climates so  
 much of the food energy is used  
 in keeping the chicken warm that  
 they cannot lay well. It is easy  
 to raise baby chicks, too. They  
 can be raised much earlier here  
 than in the more eastern states,  
 which have colder winters.

Salem always furnishes an ex-  
 cellent market for the eggs. The  
 broilers and friers, which are al-  
 ways in demand, also bring a good  
 price, and if milk-fed and forced  
 so as to be marketed early in the  
 season, net a high profit.

Most of the farms around Sa-  
 lem are small and diversified. As  
 only a small acreage is needed for  
 poultry raising, it works in quite  
 well with this type of farming.  
 Farmers raising berries or fruit,  
 or cows can, without great ad-  
 ditional work, care for several  
 hundred, or up to a thousand  
 chickens; thus bringing some in-  
 come all the year.

There are many different breeds  
 of chickens. They are generally  
 divided in the two classes: layers,  
 and the heavier breeds for broil-  
 ers and friers. Then there are the  
 fancy breeds raised for exhibition.  
 They are the best bred of the or-  
 dinary breeds. White Leghorns are  
 considered the best layers. Min-  
 orcas are also in the layer class.  
 They are noted for their large

## OUCH! BACKACHE! RUB LUMBAGO AWAY

When your back is sore and lame  
 or lumbago, sciatica or rheumatism  
 has you stiffened up,  
 don't suffer! Get a  
 35 cent bottle of  
 old, honest St.  
 Jacobs' Oil at any  
 drug store, pour a  
 little in your hand  
 and rub it right on  
 your aching back,  
 and the soreness  
 and lameness is gone.

In use for 65  
 years, this soothing,  
 penetrating oil takes  
 the pain right out,  
 and ends the mis-  
 ery. It is absolute-  
 ly harmless and doesn't burn the  
 skin.

eggs, and as the eggs are n-  
 graded according to size, the Min-  
 orcas are a good breed to raise.  
 There are a number of heavier  
 breeds, as the Rhode Island Reds,  
 Wyandots, Plymouth Rocks and  
 Orpingtons, and many others.

## Remarkable Increase

There has been a remarkable  
 increase in the chicken business in  
 the last few years. Many com-  
 mercial hatcheries have been  
 built, and are now carrying on a  
 prosperous business. They are  
 proving so successful that a great  
 many chicken raisers prefer to buy  
 their baby chicks instead of hatch-  
 ing them themselves. Chicks are  
 sent for many miles from these  
 hatcheries around Salem. Custom  
 hatching is another side to this  
 business. This is a very satis-  
 factory method for people wishing  
 to use their own eggs instead of  
 buying the baby chicks. They can  
 send their own eggs there to be  
 hatched, and are assured of get-  
 ting their own chickens.

As people are realizing more and  
 more that there is every oppor-  
 tunity around Salem for success,  
 they are fast coming to the front  
 in the business of poultry raising.

Walden Harding.

## FRENCH OFFER TO PAY DEBTS MADE PUBLIC

(Continued from page 1.)

cepted under the conditions set  
 out therein, follows:

"The French government will  
 pay to the government of the  
 United States on June 15, 1927,  
 the sum of \$10,000,000 on account  
 of the existing debt of the French  
 government to the United States  
 exclusive of the debt arising from  
 the purchase of surplus war ma-  
 terial.

Annulities Provided  
 "After a debt funding agree-  
 ment has been ratified by the con-  
 gress of the United States and the  
 French parliament it is under-  
 stood that the said sum of \$10,-  
 000,000 will be credited to the  
 annuities provided for in such  
 agreement.

Payments to Continue  
 "The French government will  
 continue to make payments on ac-  
 count of said war material pur-  
 chase debt in accordance with the  
 terms of the existing obligation of  
 France now held by the United  
 States.

"It is understood that the fore-  
 going would in no way prejudice  
 the ratifications of the debt fund-  
 ing agreement concluded on April  
 29, 1926."

## Parent-Teachers Meeting Scheduled at Silverton

SILVERTON, March 2.—(Special.)—The Silverton Parent-  
 Teacher association will hold its  
 regular meeting Thursday after-  
 noon at the high school auditor-  
 ium beginning at 3:10 o'clock. Dr.  
 Brunk of the county health bureau  
 will be present to speak on the  
 dental problems. Ways and means  
 of raising more funds to carry on  
 the work of the association will  
 be discussed.

Portland—Ten important log-  
 ging camps in Portland area re-  
 sume cutting.

**Guardian of the Family**  
 "MY father, who is past 75, shares our bottle of Syrup  
 Pepsin with his little great-granddaughter aged  
 three. And when I feel constipated, with headache and  
 biliousness, I also get my share of Syrup Pepsin. We would as  
 soon think of being without salt and sugar as not to have a  
 bottle of Dr. Caldwell's Syrup Pepsin in the house." (Name and  
 address will be furnished upon request.)

## Constipation Always a Danger

"Always something," says mother. "Biliousness, sour stomach,  
 headache, colds, fevers—you never know when or what." Syrup  
 Pepsin is mother's safeguard. Sweetens stomach, moves bowels;  
 children recover like magic. No wonder mothers everywhere  
 know and trust Dr. Caldwell's Syrup Pepsin. It is the guardian  
 of the family's health. Sweet, syrupy—children and old people  
 love it. Mild, yet thorough in action. Sudden colds, fevers,  
 headache—conditions responsible for nearly all disease—a dose  
 of Syrup Pepsin and all fear is gone. Once in the home every  
 mother says—"I keep it always on hand." Every
