### EIGHT LOSE LIVES BY TRAFFIC ACCIDENTS

State Motor Vehicle Department's Annual Report Filed by Rafferty

Eight persons were killed and 2317 persons were injured as the result of motor vehicle accidents during the month of February, according to the report prepared yesterday by T. A. Rafferty, chief inspector for the state motor vehicle department.

Of the 2317 accidents reported during the month 1135 were due to carelessness on the part of drivers. There were 115 accidents due to failure of drivers to give proper signals, while 127 accidents were caused by speeding. Jay walking resulted in 17 accidents, while 36 accidents were due to improper parking.

There were 183 arrests due to the activities of the state traffic officers during the month. Sixty-seven of the defendants were charged with speeding, while 111 were accused of reckless driving. In 10 cases the drivers were charged with having no license plates.

The officers recovered stolen motor vehicles having a resale value of \$19,875. Delinquent fees collected aggregated \$5236.10. Fines imposed for violations of the motor vehicle regulations totalled \$2438.75, while fines imposed on persons other than motor vehicle violators aggregated \$945. Worthless checks were made good in the amount of \$2961.19.

The state traffic officers visited 2290 towns and cities and traveled a total of 53,165 miles.

### RADIO LAW ATTACKED

Suit Brought to Restrain Portland Ordinance

PORTLAND, March 17—(AP)—Paul M. Segal of Denver, general counsel for the American Radio Relay league, brought suit in the federal district court here today to restrain the enforcement of a radio interference ordinance recently adopted by the city of Portland. The suit is brought in the name of L. S. Wright, father of Richard H. Wright, 19 year old operator of an amateur radio station here. The city ordinance

seeks to minimize the interference with broadcasting by professional commercial stations during certain hours and restricts the operation of amateur stations.

The American Radio Relay league, an organization of amateurs numbering some 19,000 members, Segal said, has 15 similar actions pending in other cities.

The Portland ordinance is said by Segal to interfere with interstate commerce in that it curbs the activity of the amateur stations in their transmission and receipt of messages between stations in different states.

### DE AUTREMONT REFUSES TO TALK ABOUT ROBBERY

from the transport Thomas to Alcatraz island, prison of the United States army.

Despite a nervousness that prevented him from eating breakfast or luncheon, De Autremont answered his questioners calmly.

"Gentlemen," he said, "I will talk about anything except the crime you accuse me of. On that I must stand on my constitutional rights. My father has engaged an attorney for me at Eugene, Ore. There is nothing I can say until I have talked with him."

He declared he wanted to talk

of his family instead of the train holdup in which four trainmen were killed, and was visibly shocked when informed of the death of his younger brother, Lee, who was shot in a poolroom in Texas about three weeks ago.

After further questioning by government officials, De Autremont will be turned over to San Francisco police, who in turn will release him to Oregon officials for trial there on a murder charge.
