

TRYING TO HURRY CHERRY HEARINGS

The Necessary Thirty Days Public Notice Will Cause Some Delay

United States Senator Chas. I. McNary yesterday wired from Washington to J. G. Hogg, secretary of the Salem Cherry Growers association, as follows: "The tariff commission is now preparing instructions for the collection of the needed cherry data, and will have the material ready for submission when the agents of the commission reach San Francisco about April 7th. The personnel of the board will consist of a cherry expert, a farm crop expert and two cost accountants. "The greatest delay will be occasioned by the law which requires a public hearing after 30 days public notice. Following the public hearings, report will be made to the president. I have impressed upon the board the urgency of as early action as possible, and I think the board is in sympathy with me therefor."

DESERT LAND BOARD TO TAKE NO ACTION

Application for Extension of Time Made by North Canal Company

The desert land board will take no action relative to the application of the North Canal company for an extension of time in which to complete its contract involving the reclamation of 20,000 acres of land in the North canal unit until the courts have passed on water rights on the Deschutes river as adjudicated by the state engineer. This was decided by the desert land board at a meeting held here yesterday.

The application for extension of time in which to complete the contract was filed in May, 1923, but action was delayed from time to time. A few months ago Oswald West, attorney for the North canal company, appeared before the desert land board and requested that some action be taken. A meeting of the desert land board was held here last week which was attended by Mr. West, on behalf of the North Canal company, and officials of the Arnold Irrigation company. The Arnold Irrigation company is opposing the application of the North Canal company on the grounds that such action might jeopardize its water rights. The North Canal unit is located in Deschutes county and is one of the important irrigation projects in Central Oregon.

Rhea Luper, state engineer, said that the decree of the circuit court for Deschutes county, which has the water rights adjudication under consideration, probably would be released within the next six months.

Typhoid Epidemic Spreads More Rapidly at Montreal

MONTREAL, Que., March 28.—(AP).—The typhoid epidemic spread with renewed vigor here today, 71 cases being reported as compared to 47 new cases over the week-end. The total of cases to night had reached 1275 with a total of 41 deaths since the epidemic began.

Thousands flocked to the free clinics opened today for inoculation. The Canadian Red Cross announced that it would open an additional emergency hospital tomorrow occupying the top floor of the telephone building with a capacity of 50 cases. Additional wards will be added if necessary.

Bennett Wins Divorce Here for Second Time

Ten weeks following a second marriage with his first wife a second divorce suit was instituted, and all because his first and second wife returned to her affinity for the second time.

Those are the facts as presented by C. T. Bennett in his suit against Jessie M. Bennett, now thought to be with her lover in San Francisco. The plaintiff is left in Marion county with five minor children ranging from 14 to four years. The first divorce came on a charge of desertion in June, 1925, but the arrangements failed to prove successful and Bennett went

Beethoven Centennial Program Pleases Many

Brilliant Lecture, Delightful Sonata, Romance for Two Violins, Violin Solo, Vocal Selection and Two Piano Numbers Delight

BY AUDRED BUNCH

A brilliant lecture, a sonata miraculously played, an enchanting romance for two violins afforded the first half of the program sponsored last night at Waller Hall by the MacDowell club to commemorate the Beethoven Centennial in Salem, Oregon. The second half of a memorable program included a beautiful violin solo, a superb voice number, and a brilliant two-piano performance.

Mrs. Phil Newmyer, president of the Salem MacDowell club, extended greetings to the Beethoven Society of Willamette University in the name of the great composer all had gathered to honor.

Miss Eugenia Savage, who opened the program with two movements from Beethoven's "Sonata Pathetique," amazed the audience with the complete mastery she has of her instrument. Miss Savage, who is a senior in the Willamette University School of Music, is a student of Miss Frances Virginia Melton. The young artist pupil played with the security of a mature performer. Her graduation recital on June 6 promises to be an event of much significance.

The violin duet, "Romance in C Major," played by two of the most talented violinists Salem has produced—Helen Selig O'Neill and Miss Iva Clare Love—was full of haunting rhythm, and gemmed with melody.

When the MacDowell club chose Miss Frances Virginia Melton to give the centennial lecture on Beethoven they assured the associate membership a talk at once supremely sympathetic and authoritative.

Miss Melton introduced Ludwig Beethoven as a "musical giant," a personality without a peer as far as the sonata and orchestral compositions are concerned, Bach, Wagner, Debussy, each in a separate niche, are cited with him. Michael Angelo and Shakespeare are comparable luminaries in the firmament of the immortals.

Miss Melton limited herself to a study of the genius of the composer and to a consideration of the inestimable wealth of the legacy he left to the world. Forsaken in love, misunderstood in his music, he experienced a "soundless, lofty loneliness," always weaving into his art the exaltation of his life, and the torment of it.

Three loves dominated the life of the man: Love of women, love of nature, and love of country. "Dear, old tempestuous Beethoven," the lecturer cried out feelingly, "how could he expect any woman to bear with his eccentricities?" He was a lover of many women, and many women loved him, and yet the sheer dignity of his spirit left a life in which there was "no dishonorable amour."

In the opinion of Miss Melton, no one can hear the nature music of Beethoven without a greater understanding of the world that houses us. She quickly summarized the movements of the "Appassionata," with its minor melody of gloom, and its major element of hope, "claspings, grappling, struggling, and moving on;" the second movement that is a prayer, the greatest prayer a musician ever prayed; and the third movement that is victory.

Miss Melton gave the audience some golden moments when she sat at the piano and played a few bars of that immortal cry to God—that was all the spirituality of Beethoven intact.

Miss Melton spoke feelingly of the great Congress of Vienna at which Beethoven, his hearing gone, and the audience unaware of his plight, conducted the great Eroica Symphony—with his back to royalty, and his dejection telling more than words that at last his hearing was gone.

"Music has changed the history of the world," Miss Melton declared, and played a few bars from the national anthem to prove her point.

"We must learn how to listen," the speaker said, realizing how few there are who hear the essentials in a musical masterpiece—its exact relation to life.

Beethoven, who lived a tempestuous life, whose compositions were fraught with the message of

SMUGGLING TREATY WITH MEXICO ENDS

Border Patrols Reinforced as Result—Seek to Keep Out Contraband

WASHINGTON, March 28.—The anti-smuggling treaty with Mexico in effect one year, was terminated tonight, in accordance with the state department's notification last week to the Mexican government.

Its termination removes a barrier to unreported shipments of arms and other munitions into Mexico, and in some quarters the prediction has been made that it might be followed by the raising of the embargo on arms shipments, although the state department has denied that any consideration has been given to such a step recently.

AURORA TO HAVE A PICKLE FACTORY

Contracts for Growing the Cucumbers Are Now Being Signed by Farmers

An enthusiastic meeting at the band hall in Aurora on Monday evening, March 21st, was held for the purpose of taking up the matter of a pickle factory there, and the decision was to go ahead with the proposition.

Mr. Stafford, who has for the past few years operated plants at Gresham and Monitor, and who understands the business in all its details, discussed the subject from all points, including the raising of the cucumbers, construction of the plant, incorporation and marketing. Before the close of the meeting sufficient subscriptions had been received to assure the erection of the plant within the next few weeks. Three special sites have been picked to choose from. The successful operation of this business means not only a sizeable payroll but a practically new industry for the farmers of that

section, with plenty of work during the season for every member of the family. Contracts are now available for signature by farmers desiring to raise cucumbers for pickles, and may be had at any of the stores or the banks of Aurora. Mr. Stafford expects to become a resident of Aurora, and the plans call for a large factory at that point; to put up pickles in all styles, including the fancy packs that call for small onions, and the dill pickles that are in demand with the fancy trade.

I. W. W. Never Citizen, Federal Court Ruling

SAN FRANCISCO, March 28.—(AP).—REVERSING the northern federal court, the United States circuit court of appeals held today that James Rowan, a former citizen of Great Britain, naturalized in 1907 still retained his citizenship.

Becoming a member of the I. W. W. in 1912, Rowan was one of the instigators of the strike in the northwest that tied up the lumber industry during the war. He was tried in 1918, in Chicago on a charge of espionage.

Cancellation of Rowan's citizenship was sought by the government from the state of Washington. It was asserted that in 1907, when he was admitted, his oath of allegiance was dishonest.

The United States circuit court of appeals held that whatever Rowan did between 1907 and 1912 did not favor of disloyalty in speech or actions.

MARY ELLEN BREWER WILL MADE KNOWN

Brewer Building Left in Trust With Income Divided Into Thirds

Provisions which will leave the Brewer building at Court and Liberty streets in trust for several years, naming Dr. Charles H. and George M. Brewer as beneficiaries, and J. H. Brewer as a third sharer in the income of the building were disclosed in the reading of the Mary Ellen Brewer will in county court this week.

Strict considerations necessitating the care of the building are involved, including matters of encumbrance and repairs. If such fail to be carried out, the property reverts to the hands of various charities, as may be directed by the city council of Salem.

The value of the building is estimated to be between \$40,000 and \$50,000. Other properties will be disposed of at once, according to the will, providing for personal legacies of small amounts.

Dr. Charles H. Brewer, Mrs. Amy Webb and Mrs. Nettie Meyers are named as joint executors of the estate. Besides small legacies and residuary legatees, all furniture and heirlooms were ordered to be distributed by the executors among relatives and friends as they saw fit.

Governor Patterson Signs Papers for Extradition Dan Van Buren, under arrest at Hillsboro, will be returned to Martins, Cal., where he is wanted on a charge of forgery. Papers authorizing Van Buren's extradition were signed yesterday by Governor Patterson. J. M. Joseph, an officer from California, obtained the extradition papers.
