FIFTY QUEENS IN LOT

- Honey Wanted

Salem to Have Honey Bottling Plant and Largest Bee Keepers' Supply House in State of

Oregon

A half million honey bees will ern Pacific train this afternoon, besides 50 additional queens. The bees are coming by express, and district bee king. The bees are to be used for the pollination of the Orchard Heights road +the road that is the second turning off to the west from the Wallace read beyond the Polk county end of the steel highway bridge across the Willamette river. Mr. Mead has made a community contract. with the cherry growers of that district. He will supply them with a million bees for pollination

He did not have enough bees of his own to spare for the purpose, so he contracted for the half milmion additional bees with bee keepers at Cottonwood, California. The stranger bees coming today are California bees. There will be about 100 stands in all pastured in the cherry orchards of the district; the 100 stands to make up the million bees.

This Not Unusual This hiring out of bees for pollination purposes is not unusual in California. It is the regular thing for the orange orchards. And it is done also in the Hood River, North Yakima and Wenat. chee fruit districts. The same thing has been done to a limited extent in the Salem fruit district but' this contract is the larges; single one that has been made

hereabouts for this service. As is now generally known here, the pollen of cherry blossoms is not carried far by the winds; not more than an average of 20 feet. So it must be carried by insects, and the most effective carriers are the honey bees, which
