The "Crest-O-Rest" Spring

A new bed spring—made to specification submitted by the Commercial Associates (a nation-wide buying organization)—the result of years of scientific research. It is a deep, double-deck spring unlike any other on the market. The coils are specially designed and tempered. The division construction between decks leaves the upper coils soft and responsive to touch, while the lower coils resist the heavier weight gently. The base of the spring is of very heavy angle steel running clear around, without riveted corners. A sturdy, comfortable and durable spring.
