Sundays Results Salem 4, St. Johns 3 (10 innings.)

Mt. Scott 13, Nicolai 9. Camas 4, W. O. W. 2. Montavilla 7, Woodstock 3.

"Slide, brains, slide!" That was the cry that might have burst forth from the crowded stands at Oxford park Sunday afternoon, if things had only happened slowly enough for the wise crackers to get in a heavy one

It was the tenth inning, with the Senators and St. Johns tied 3 to 3, and "Old King Cole" was still burning them over the plate with a vim, so that it looked very much like still more innings.

Then it was that old Leo Brains, alias Edwards, came to bat. It wasn't his turn, but he pinch hit-for that matter, did it twice. First he sent in Clinton, whose hinges are getting rusty on ground balls but whose battin' eye is still true; and Clinton rapped out as pretty a two bagger as anybody could ask.

Mr. Cole, who is reputed to have fallen down heretofore when the going got tough; belied his reputation by forcing Burke to ground out, holding Clinton at second. But Bill Steers and Goleman, who had been garnering two baggers all afternoon, were next. in order. So Porter Yett, St. Johns manager, instructed Coleto walk both of them; and it looked like good strategy, for Ridings and Fleury, the next two. had not been doing much at bat, and there was a chance for a force at the plate and a double play.

But this was where Brains came to bat again, and all he had to do was whisper a few words to Ridings. That youth laid down a bunt and Clinton was across the ahead of Nicolai to win, 13 to 9. plate and the fans on their way home before St. Johns knew what it was all about.

Edwards, by the way, had disruns that the Senators had gathered one at a time. In the second inning he stepped into a fast one for a three base hit in center field, scoring Ridings; and in the seventh he tied the score with a homer over the left field fence. And in the eighth, he had leaped high in the air and knocked down a wild pitched that would have meant another run for St. Johns. Edwards won that ball game four times.

It was the prettiest ball game that local fans have seen this season, and those who were therethe biggest crowd so far this year -will be hard to keep away from now on.

Barham and Cole were both working good and allowing few they permitted more than one were the fourth and sixth for Cole and the fourth for Barham. Salem's run, other than those for which Edwards was responsible, came in the sixth, when Steers G. W. Day, tires, tubes and ac-

Stephens and Walgren all singled. and two runs counted. None of them was earned, as Stephens and Simon had gone out before McCalloch crossed the plate.

The other run came in the eighth, when OBrien was safe on a fielder's choice, advanced on Stephens' single, and scored when Barham threw wild to first. The box score:

PORTLAND, April 25,-(AP) While St. Johns was meeting its first defeat of the season yesterday at Salem, Montavilla was administering a 17-to-3 trouncing to Woodstock, jumping into first place in the City league standings.

Right from the start the Villians had little trouble solving the slants of the Woodstock twirlers and it was not long before they had a lead, a lead which increased as the game wanned. Engele and the Misener brothers were the hitting stars.

With a 6-to-6 tie prevailing in the fourth inning, Mt. Scott stepped out in the fifth and went Heim, relieving Schroeder, got credit for the win, pitching nice ball to do so.

How many miles? How many hours? How far does the automobile travel in how many hours? Add the figures to get the miles and count the circles to get the hours. No trick or chance involved. Only patience and accuracy required in the solution of this problem. If you can do simple addition, you can figure out the amount of miles traveled by this automobile, and how many hours, correctly. Circle spots consist of a period with a circle around it. Combined they are counted as one each; that is, count each period with its encompassing circle as one hour. Simply add them up to get the solution.

There are no marks, lines or characters in the automobile except figures and circle spets. The figures range from 2 to 3 each standing alone. There are no groups of figures such as "21" or "42."
