

ALL IN READINESS FOR RACING MEET

Everything is in readiness for the big auto race meet at the fair grounds track May 7. The gates will be open at noon and the first gun for the opening event is set for 3 o'clock.

The races start with a parade in which late model cars will be introduced. This will be followed by a mile against time for all cars. This will be for position in the various events, all cars being classed this year according to the speed made in the mile.

The mile will be followed by the motorcycle race in which nine of the northwest's best riders will participate. These men are Paul Remaley, Murti Kelly, Cody Evans, Yale Smith, Red Dahlberg, Hoyt Wren, Ray Tauscher, Bill Davis and Freeman Vanderhoof.

The motorcycle speed special will be followed by the most spectacular stunt ever tried on the Oregon state fairgrounds when Lieutenant Oakley G. Kelley in a 400 horsepower DeHaviland will race the fastest motorcycle and the fastest car. Kelley is one of America's foremost aviators, having gained international fame when he made the transcontinental flight from sunrise to sunset. His machine is the fastest on the Pacific coast.

Kelley's motorcycle opponent will be Ray Tauscher on a specially factory built Harley-Davidson. Efforts are being made to have Gus Duray on hand to pilot the big Stutz special for the auto end of this triangular race. This Stutz is the same car driven by Earl Cooper when he made his records at Tacoma and elsewhere.

Ten mile events for class A and B cars will precede the big sweepstakes event which is a free-for-all. This is the big money event of the day and is for 25 miles. The names of all drivers and their records will be published tomorrow.

Heckmann hit .386 last season. The Detroit team in the American league want him to report, but he stays with his whiskers and the House of David team.

PREPARE TRACK FOR RACE MEET

Officials of the Northwestern Auto Racing association report that the fairgrounds track will be in best possible shape by May 7. Promoters of the races to be held that day had pledged special work on the track and inspection shows that this is being carried out.

The rain has packed the track until it is level as possible. The track has been lightly harrowed and in the next two days it will be leveled and rolled. Should Saturday be clear the track will be pavement-smooth.

With this start on the track, sunny weather need not be feared as a sprinkler service sufficient to take care of this condition is assured.

Headquarters of the racing association are at the Terminal hotel. Inquiries and mail reservations received there indicate a record crowd for this fast event.

Edlow Spring Mattress

Made With the New Type Spring Construction

The Mattress That Never Grows Old

This improved type of inner-spring mattress solves the big objections to the spring mattress—price and excessive weight. It is made with the Edlow Spring Construction, a superior type of construction that is made of expensive piano wire and weighs less than five pounds. This means that though the mattress

has all the strength, the resilience and the stamina of heavier type spring mattresses, it weighs scarcely more than the ordinary mattress.

A test was made to determine the stamina of this mattress. An Edlow Spring Mattress was placed on the sidewalk and a plank run across it. All day long 500-lb. bales of cotton were trucked over the mattress and it was just as resilient and full as it was in the morning. An examination of the interior of the mattress showed that not even the slightest damage had been done to the springs.
