

TEACHERS' COUNCIL PLANS YEAR'S WORK

R. W. Tavener Recently Elected President of Salem Organization

The council of the Salem Teachers' association met Tuesday evening at the call of the president of the organization, R. W. Tavener.

Mr. Tavener is organizing the work of the council for the coming year and keeping in the foreground the professional advancement of the teachers.

The officers of the Salem Teachers' association for the ensuing year are: R. W. Tavener, president; Clara V. Thompson, first vice president; Lela Johnson, second vice president; Elva Nieson, third vice president; H. W. Risse, financial secretary; Gladys Tipton, treasurer; Lillian Schroeder, press correspondent.

Representatives from the school buildings, who are elected by the teachers as members of the council, are as follows: Miss Taylor, senior high; Miss Inez Reitsnyder, Parish junior high; Miss Bertha Magnus, McKinley; Miss Sarah Grant, Englewood; Miss Mahle Murray, Highland; Miss Lola Millard, Richmond; Mrs. Van Orsdale, Grant; Mrs. Davenport, Lincoln; Miss Jessie Martin, Park.

The council elects three members at large each year. The members must have served on the

council previously. For the ensuing year these three will be: Miss Dorothy M. Taylor of Parish junior high, Miss May Hale of McKinley and E. A. Miller of Grant.

The purpose of the Salem Teachers' association is to promote among the teachers of Salem public schools a spirit of cooperation, unity of spirit, democracy of school affairs, higher professional standards, and to create in the community at large a deeper sense of the worth and dignity of the profession and of the interests it represents.

The council meets on the first Tuesday of each month and its duties are to direct the general policy of the association and in other ways act as the executive body of the S. T. A.

Mr. Tavener will announce the members of the various committees in the near future.

Salem Youth Elected to Office; High Vote

Herbert Socolofsky, who was elected vice president of the U. of O. student body, received the greatest number of votes cast for any office, 1390 His opponent, William Powell, received 341.

The record of Herbert Socolofsky, candidate for vice president, shows him to be on the Greater Oregon Committee Directorate, as chairman of Marion, Polk, and Yamhill counties; and a member of the Junior Week-end directorate as director of the canoe festival served on the Homecoming committee in 1926, and was a member of the high school council in 1927.

He has taken part in Oregon and Webfoot drives as a speaker. He won the Jewett prize for speaking in 1926 and in 1927 he again won the prize for excellence in debate and oratory. He is a member of the Webfoot staff, and is on the Y. M. C. A. His scholarship is good, according to records furnished.

Mr. Socolofsky is registered as a junior in business administration. He is a member of Beta Theta Pi, also a member of Pan Xenia, honorary international foreign trade fraternity.

Socolofsky was president of A. S. B. of Salem high, in 1922 and a member of the football team for two years, basketball one year, and track two years. He was first Master Councillor of the Salem Order of DeMolay. He is the son of Mr. and Mrs. D. D. Socolofsky and the twin brother of Harold D. Socolofsky of this city.

JANITOR CENSORED MAIL

PARIS.—A concierge—French equivalent for janitor—cannot censor a tenant's mail in Paris, a court held in reprimanding a concierge who failed to deliver a "mash note" to a pretty feminine tenant.

HOTEL SURVEY OF CITY OFFERED BUSINESS MEN

(Continued from page 1.)

Should such a committee be appointed and enter into a contract with the Hockenbury system, that firm would evolve a complete working plan showing the revenue which would be derived from every department, and the cost of operation.

Prospect Pleases Judging from what he has heard of Salem through interested people, a hotel of 90 to 110 rooms, erected at a cost of \$2100 to \$2300 per room would pay out, Mr. Barr stated. Appropriate furnishings would cost in the neighborhood of \$600 per room additional.

If such a hotel were operated at 60 per cent of capacity, it would pay, he believed, provided all the fundamentals of good management were observed.

Mr. Hauser who also addressed the meeting stated that tourists are beginning to fight shy of the hotels in large centers due to traffic congestion. Many people are afraid to buck heavy traffic, he said, and are glad to patronize a hotel in a smaller city which can furnish accommodations equal to those available in the large cities.

Hauser admitted that his firm was interested in assuming operation of new hotels throughout the northwest, but would make no definite proposal until Hockenbury had made a thorough investigation and a request was made for him to take over management.

Survey Planned The meeting was called as a result of interest in the local hotel situation on the part of the Port-

Acid Stomach

"Phillips Milk of Magnesia" Better than Soda

Hereafter, instead of soda take a little "Phillips Milk of Magnesia" in water any time for indigestion or sour, acid, gassy stomach, and relief will come instantly.

For fifty years genuine "Phillips Milk of Magnesia" has been prescribed by physicians because it overcomes three times as much acid in the stomach as a saturated solution of bicarbonate of soda, leaving the stomach sweet and free from all gases. It neutralizes acid fermentations in the bowels and gently urges the souring waste from the system without purging. Besides, it is more pleasant to take than soda. Insist upon "Phillips." Twenty-five cent and fifty cent bottles, any drug store. "Milk of Magnesia" has been the U. S. Registered Trade Mark of The Charles H. Phillips Chemical Co. and its predecessor Charles H. Phillips since 1875.—Adv.

land corporation which operates a string of hotels including the Hethman and Malcomah hotels in Portland, and several others throughout the northwest. Hal D. Patton acted as chairman of the meeting, introducing the speakers.

While careful to state that the people he represented were not promoters, and never went into a city to discuss the hotel situation, unless invited to do so by some body of responsible business men, Mr. Barr pointed out the strategic location of Salem for a good hotel.

The Hockenbury system which Mr. Barr represents, is a corporation formed to counsel and advise on community hotel projects. Its central office is located in Harrisburg, Penn.

The proposal as outlined by Mr. Barr last night was to enter into a contract with a hotel committee consisting of representative

business men to conduct a survey to determine what size and type of hotel will best suit the interests of the community and pay out on the investment.

The survey would be conducted at the expense of the corporation, and the findings reported to the committee. Should the proposal carry, and the advice of the Hockenbury system on specifications for the hotel be accepted, then that firm would guarantee to raise by popular subscription at least 60 per cent of the amount to be invested. Should the drive be successful, Hockenbury would receive 5 per cent of the total amount of stock sold as its commission.

Chain Plan Favored The city hotel committee would obtain the architect, let contracts preferably on a competitive basis, and select its own hotel operator.

Chain operation was recommended by Mr. Barr because it has proved most successful. It would make possible expert supervision by experienced hotel men. A local manager would be employed, who, if unsatisfactory, to the stockholders could be removed at any time.

The chain systems usually require voting control of the stock.

After all operating expenses and 7 per cent on preferred stock deducted, net profits are divided between the chain and local stockholders.

ENGINEER COURSE ADED

Graduate School and Experiment Station Started at OAC

CORVALLIS, May 5.—(AP.)—An experiment station and graduate school of engineering was to be established by the regents of Oregon Agricultural college, thus placing the engineering department of this college on a par with that of any land grant institution in the country.

Dean G. A. Covell, who has been on the Oregon Agricultural college faculty for 38 years and dean of the school of engineering since its establishment in 1908, was made director of the experiment station and dean of graduate work in engineering. H. S. Rogers, professor of hydraulics and irrigation, was promoted to succeed Dean Covell as dean of the undergraduate engineering school.

Myrtle Point—Work begins on big new Perkins corner block.

NEW INCORPORATIONS
