Makes of Cars

Considerable time, trouble and expense has been devoted to ipvestigations and research work in more interesting to the mechanic the science of lubrication, particularly in reference to lubrication. of automobile engines and the types of oil best adapted to such use. Experts on the staffs of America's leading oil companies agree on one point. They call attention to the enormous aggregate of damage that is done to cylinders, pistons, piston rings and hearings by the continued use of oil contaminated with dust, dirt grit and metallic filings.

Referring to this important phase of automobile operation D. J. Sweeney, manager of the local branch of the Colyear Motor Sales company, distributors of standard motor parts up and down the Pacific coast, draws attention to the disinterested statements made by two oil companies.

Monroe S. Cheek

Here's a Six that's a marvel for smooth silent power

AMATCHLESS performer— this Peerless Six-90. Fifty sixty-seventy miles an hour with never a loss of its wonderful smoothness-never a suggestion of vibration from under the hood.

It's simply a question of high grade engineering-high quality construction.

The Six-90 motor is cushioned in rubber-live, resilient rubber that absorbs shocks - silences noise keeps vibration from travelling along the frame of the car.

Short enough to park easily-steer easily-turn easily. Yet roomy enough to let you stretch. Comfortable as your favorite fire-side chair.

You'll like the Six-90. Try it out. Phone the Peerless dealer. He'll send it to your door for you to drive. THE PEERLESS MOTOR CAR CORP. Cleveland, Ohio
