

## KIMBALL SCHOOL APPEALS TO SALEM

And the People of This City Are in a Mood to Respond Liberally

The following letter to the people is to be mailed tomorrow, looking to the week beginning on the 16th as the time for renewing and securing new pledges for the better support of Kimball School of Theology—and it is predicted that the solicitors will find that the people of this city are in a mood to respond liberally.

To Salem Friends,  
Kimball School of Theology. Many evidences of good will have greeted us since coming to Salem last September at this School of Theology. This year is proving a success to the student body, and the faculty was never more encouraged than now. The new president is delighted with the personnel of the school group. We have not known a more consecrated, intelligent and resourceful company of people. Mrs. Cause and myself count it a privilege to serve this worthy institution, and to live in Salem.

I am satisfied that a great future awaits this institution here at Salem. A very attractive institution can be built up reflecting credit upon our supporting friends. This mother community of the Pacific northwest is the proper locality, and every year must attest the wisdom of its founding.

Salem friends should see the property of a better support. Many more contributors should arise to show that Salem does want the school, and is pleased to have it remain here. There must be a more generous financial response than heretofore.

There are many phases of industrial and social life in Salem, greatly benefited by this school. We are assuming that the cooperative impulse of the forward looking people of the capital city wants to share in the support of the school.

The city press has been generous in its commendations and our printed matter has been generously distributed. We are wanting you to know the entire story of our endeavors. Next week we are assigned to the personal solicitation of our friends in Salem. You not consider this an opportunity to assist in the strengthening of the financial program? It is suggested something big worth while, five hundred contributing friends giving \$10 the year, a hundred friends giving \$25, and twenty-five giving \$100 a year, would enable us to do a commendable piece of work. Can we not count on you as a supporting friend?

No doubt there are many who have not been solicited heretofore who would count it a privilege to contribute. Some may be too busy to see a representative or your application may not be convenient to make. It would be delightful to receive your check or pledge without an interview. However any member of our staff would see any who may express such a desire.

Yours for the success of this Salem institution,  
J. M. CANSE.

## FRUIT GROWERS HOLD MEETING AND ORGANIZE

(Continued from page 1.)  
Discussions for picking during the coming season and to distribute cards to all growers throughout the district. Representatives of the Woodburn Berry Growers association were present and endorsed prices named.  
Within a few weeks another meeting of all berry and fruit growers will be held at the Salem Chamber of Commerce when efforts will be made to interest all fruit and berry growers in the counties.

## Two Holes In One

T. Tanaka, a Japanese golfer, is believed to have created a world's record by holing his tee shot twice in one shot on the fifth and sixteenth holes of the "Langara" golf course at Vancouver, British Columbia.

## VICKSBURG BECOMES HAVEN OF THOUSANDS

Thousands of flood refugees have been brought to Vicksburg, Miss., which, because it lies far above the normal stage of the Mississippi and also because it has a stout sea wall, has proved to be an excellent concentration for Red Cross activities. Here are some exclusive photos of Vicksburg scenes: (1) Towboat, "Sprague," reputed to be the most powerful towboat in the world and which has handled nearly 70 river barges in one tow, is shown here with oil tank barges, which were pressed into service to carry thousands of persons to safety. The "Sprague" made her record towing coal barges from the Ohio river, but—this is an interesting sidelight of the change in river traffic—she now handles oil from out of southern fields. Photo 2 shows an old woman being helped down a gangplank; (3) Red Cross workers registering refugees on the waterfront at a railway station; note the ambulances.

## LINCOLN'S MOTHER PAID SIGNAL HONOR

### National Shrine to Be Erected to Woman Who Reared Emancipator

LINCOLN CITY, Ind., May 7.—(AP)—Mother's Day, officially set for tomorrow, was commemorated here today to one of the nation's greatest mothers—Nancy Hanks Lincoln.  
Gathered at the grave of the mother of the emancipator today the executive committee of the Indiana Lincoln Union pledged itself to the task of building a national shrine in honor of the mother who against all the hindrances of a rude, pioneer life, molded the character of Abraham Lincoln.

An aviator, zooming low over the grave and cabin site dropped this message:

"To Nancy Hanks Lincoln:  
"The men and women of today are here beside your grave. Among the guarding trees, to make their vow, your name shall never die. And to their praise, we add our tribute, from the sky.  
"We are the artificers of the past, whose handicraft has gained the praise of men. With stone and clay, with brush and pen, we wrought, to leave expressions of the truth we found. But you, you dared to take a living child, a plastic infant mind, to mold into a soul of love, an instrument divine. Your genius used an art that ours was mean beside. To you then, master artist, we send our word of praise. Through devious paths that masked the way you led with kindly hand, a child into the light of truth, and made an honest man."  
Addressing the spirit of Nancy Hanks Lincoln, in the name of the mothers of Indiana, Mrs. Anne Studebaker Carlisle of South Bend, president of the union, laid a wreath upon the grave.  
"Here at your altar on this peaceful knoll, mother of Lincoln, we pause today to meditate upon the thought that from this humble environment your influence, through your immortal son, has radiated around the world—a challenge to motherhood," said Mrs. Carlisle.

## Bradley to Be Sentenced Monday in Justice Court

After admitting that he has not driven a car any great length of time and that he was neglectful in not securing a drivers license, Richard Bradley, 18, a Newberg high school student, was convicted in justice court yesterday morning on a charge of operating a motor vehicle without a license.  
Bradley was arrested Friday night following an accident in which four automobiles were damaged when he tried to pass a Dodge car driven by Miss G. McDaniels of Klamath Falls. Sentence will be given Monday by Judge Brazier Small.

## PORTLAND WINS SWIMMING MEET

Portland won the district swimming meet held here last night under auspices of the YMCA, taking first place in both the senior and the junior events. Salem placed second in the senior events, but third in the junior performances. Only three towns participated, Astoria failing to arrive in time. The winner will contest in the northwest meet at Everett the latter part of this month.  
Fourteen men from Portland, eight from Salem, and seven from Eugene were entered. Dolby, Salem, took first in the senior 220 yard race, and Wallace Hug second in the 220 yard event for juniors.

## Knows Her Radio

Father (severely)—"Now you understand what I have just said, young lady."  
Small Daughter (unimpressed)—"Will you please broadcast it again, daddy? I haven't quite got your wavelength."  
Columbia River—Sibley-Mill mill will cut 100,000 feet a day with 70 men.

## NEW HIGH LEVELS REACHED BY FLOOD

Crest Now South of Vicksburg; Precautions Urged by Weather Bureau

NEW ORLEANS, May 7.—(AP)—Driven riotously before the flood crest, the waters of the Mississippi had reached new high levels tonight over a long stretch north of New Orleans from Donaldsonville to Angola.

Record stages also were reported at places along the Old river, which empties into the Mississippi north of Baton Rouge, and which is receiving flood waters from the Red, Ouachita, Texas and Black rivers as well as from the great crevasse and back water lake spreading in northeastern Louisiana.

In announcing this situation on the two rivers, the weather bureau reiterates its warning that every precaution should be taken to guard against the stages above New Orleans with the approach of the crest, which now is south of Vicksburg, approximately half way between Memphis and New Orleans.

After an inspection of the levees along the present greatest danger point—the eighty mile front on the Old river and Bayou Des Glaises to the south—Governor Simpson declared at Baton Rouge that in his opinion these embankments were strong enough to hold the anticipated highest flood stage and thus save central Louisiana.

Major W. H. Holcombe, chief army engineer for the Fourth district, who is traveling down the river with Secretary Hoover and his party, stated at Natchez that the west bank defenses on the lower Mississippi which are yet to bear increased burdens from the flood were being well maintained. He added that the east bank defenses were not so satisfactory at some places.

Conditions here at New Orleans were considered satisfactory, the river having fallen one-tenth of a foot during the past twenty-four hours as a result of the increasing torrent flowing through the artificial crevasse made at Caernarvon, 15 miles to the south.

A somewhat improved situation in northeastern Louisiana just below the Arkansas line was reported, the backwaters apparently having reached their crest at Mof Rouge, Bonita and Oak Grove.

## Andres' Alienation Suit Filed in Circuit Court

W. E. Andres, Aurora merchant, values his wife's affections at \$10,000 as shown in a suit filed against Vern Haynes in circuit court yesterday.  
Andres accuses Haynes with alienating his wife towards her home duties, taking her to Portland and various other places in his automobile.  
Virgil H. Massey of Woodburn represents the plaintiff in the case. They announce their intentions of carrying the fight through to an immediate settlement.

## WAITING ON NARROW LEDGE FOR RESCUE BOAT

Snapshot of refugees huddled on a high point of the Stop's Landing Levee, Mississippi—through which the flooded Mississippi cut a great gap, flooding Greenville and a dozen other towns. These particular refugees, lined up on the narrow ledge with the waters rearing around them and their homes lost to sight, are from Shaw, Miss., and are awaiting rescue steamers from Vicksburg, Miss., itself menaced by the flood.

## OPEN HOUSE HELD BY STANDARD STORE

Complete Alteration in Building Has Made Attractive Quarters

Open house was held yesterday afternoon and evening at the Standard Furniture company, a new firm located at 467 Court street. Many people took advantage of the opportunity to inspect furniture, rugs, and draperies which were on display. A number of attendants were on hand to direct persons through the store.  
Alterations in the store have been made since it was last occupied. The old incline which extended down to the center of the lower floor has been removed, and a short stairway at the rear substituted. The interior has been painted white.  
A new stock of attractive draperies was on display under direction of Homer Leisy, who is in charge of that department. Mr. Leisy was formerly at Stiff's furniture store where he built up a reputation as an authority on draperies.  
Mills orchestra, of four pieces, furnished music during the afternoon and evening.  
L. O. Liedstrom and L. O. Smith, both formerly of Stiff's furniture store, are proprietors of the new concern.

Port Orford—Plan under way for power plant on Sixes River and for big-milling and lumbering operations here.
