Blessed are the pure in heart: for they shall see God. Blessed are the peacemakers: for they shall be called the children of God. Cranston bought out Breyman --- Mathew 5:8-9.

#### FORMER GOVERNOR PIERCE MISTAKEN

A Baker, Oregon Associated Press Dispatch of the 19th quotes former Governor Walter M. Pierce as saying in an years after Bowen & Cranston had address in which he declared against the income tax bill which will be before the voters at the special election June 28, when they erected their own buildand urged his hearers to vote against the measure: "I favor ing in 1874 at the corner of Court ar honest income tax bill that will raise revenue. This bill is cupied by the Director firm. F. not drawn to raise revenue. The maximum rate is too low. Furthermore I favor an income tax which provides that every Moores. Bowen & Cranston sold dollar so raised shall be taken off the property tax. This bill out to F. Lang about 1870, who does not do that. It provides for raising additional funds, not years. Between Levy's and Breyfor relieving tangible property. If it is defeated I believe the man stores was a drug store. The way will be cleared for enactment of an honest income tax."

Mr. Pearce is mistaken-

Or at least the writer of this article believes this is the Cranston was a graduate of Wil explanation of the above dispatch-

Not being willing to believe the former governor of Ore- institution the records fail to show gon would wilfully misrepresent such a vital matter, or would knowingly make a misleading statement—

And the statement that the proposed income tax will be T. B. Rickey once resided in the an added tax and will in no way serve to reduce general prop- house. As proof conclusive of the intent of the enactment in its cost him a re-election, as stated, morals be expected to be standardrelation to a redistribution of the tax burden, the attention He was not a candidate for re- ized? of the reader is called to Section 44 of the bill itself, where in 1874. explicit provision is made that the money raised in the YEAR 1928 ONLY shall not apply to a property tax reduction but shall be used to meet an existing state deficit. Under the terms of the section, it is expressly provided that after the year 1928 the proceeds shall be included within the six per State Well Organized by Counties cent limitation of the constitution, and consequently cannot, and will not, be used for any other purpose than for property tax reduction. The section does provide that the six per cent limitation be set aside for the year 1928 to an amount program, not in excess of \$2,000,000; and in the event that the income tax would raise more than that sum, then the surplusage the \$8,000 granted for the bienwould be used for property tax reduction EVEN IN 1928. The six per cent limitation is set aside by the income tax bill of schools, said in a talk to the only under the following conditions: That only \$2,000,000 Social Workers' association of in excess of the limitation be raised; and that it be for the Oregon here Wednesday. year 1928 only.

Statements that the income tax law will set aside the six fore is needed, if we are to show per cent limitation are in error. Statements that the income tax law will not reduce property tax after 1928 are in error.

Former Governor Pierce owes it to the people of the state trol in his own locality. Where of Oregon, who elevated him to the highest place in their gift, county organization is not already to make a public correction of his statements at Baker-

And he might go further and say, in all honesty, that the school officials to appoint a county passing of the present bill will establish in Oregon the prin- chairman who will work with the ciple of the income tax, in which he believes-

And if it shall be found that the maximum rate is too low it will be easy for some future legislature, or for the people themselves at the polls, to raise it.

### THAT ONE MUST PASS

There may be differences of opinion concerning some or all of the other proposed city measures-

But there certainly cannot be any such differences concerning the proposed \$40,000 bond issue for the incinerator. That is a necessity. We cannot get away from it. The

present city dump is unspeakable. Growing worse every day with the growth of the city. There is no other way out-No locality will have the city dump. No court would compel them to have it; and any proposition for its removal

would be fought tooth and nail. So let's make that unanimous,

There are evidences on every hand of the increasing good reputation of Salem as a solid, growing, enterprising city, with a great future. The Statesman of Sunday will have a splendid example of this spreading and enviable reputation. All Salem has to do in order to retain this her good name is to keep on keeping on; to keep encouraging the industries on the land, joined up with the industries in the city. For instance, our strawberry crop, to be harvested in the next few weeks, will bring about a million dollars in new money to Salem and the Salem district-and about half the sum will go to the growers and the other half to the pickers and canners and the other people of half a hundred or more occupations who will have to do with get preparing them for and getting them to the markets. And so on through the whole list of our tree and bush fruits. Thus we have a splendid partnership of prosperity.

Buy a Buddy poppy, or a dozen or a hundred, or a thousand. And celebrate Memorial day in a manner to show your appreciation of the true spirit of the day, set apart as a memorial to our heroic dead.

Editor Statesman: It is amusing and sometimes anmunity. The so-called history is generally very inaccurate. I read in your paper recently an interview of Mr. I. B.
