### Correct Costs

To what expense do you charge your daily auto or street car trips to town shopping for foodstuffs? If your monthly expense account is properly itemized at the end of each month to your grocery list you would add the total cost of daily using your car or street car fare plus amount of your time, (or is your time worthless?). This amount in cold figures would add material to your grocery cost. In other words it would give you your CORRECT cost. Our cost for delivery to hundreds of families each month is so small per family that we make no extra charge, thereby saving you a VERY substantial amount. And our prices are no higher.

Phone daily, 1371 or 1372, your needs and we will place them in your home without extra charge
