Sponsoring **BLACK** of Obvious Chic The combination Black and White, being new and very, very smart in both frocks and wraps, is but one of the reasons for your adopting it—though a very important reason, indeed. But deep down in every woman's heart is the desire to appear beautiful, stunning, though sometimes it seems of less importance than the essential detail, smartness. Here in black and white no one need sacrifice beauty for chic. For, could there be a color scheme more becoming to every woman, more flattering? See it in our newest Junetime models.
