Income \$10,000 Annum; No Heirs, Present Sulu Ruler Probably Last

JOLO, Sulu, P. I .- (AP)-The power and influence of the Sultan of Sulu isn't what it used to be. And the present trend of things makes it probable that His Rayol Highness Hadji Muhammad Jamalul Kiram will be the last of the

Two factors seem to mitigate against there ever being a successor to Hadji, who is nearly 60 years old. The first is the gradually increasing Invasion of the white races which has reduced the sphere of his authority and influence. The second is that Hadji has no children.

Once the sultans had a vast domain. They ruled from Sinapore to Bohol, an area larger than Mexico. But other civilizations drifted in. Eventually the Mohammedan rulers became rulers only in religious and social matters. Now domination in these realms is dwindling.

At present the sultan's income is a little more than \$10,000 a year. He gets \$2,500 from the Mohammedans of Borneo and about \$2,500 more from the Philippine government. The remainder is made of of fees received from cases tried in religious courts and from the revenue of 2.500 acres of land ceded him by

Trans-Atlantic Radio Telephone Improved

LONDON - (AP) - Considerable improvement in the trans-Atlantic wireless telephone service is promised by the construction of a new radio station now being built by the British government at Cupar, Scotland.

Measurements and tests carried out in 1925 indicated that the north of the British Isles was the ideal situation for transmission and reception of telephonic conversation with the United States. completion. This station will supersede the present station at Wroughton, Wiltshire, which is

British radio experts consider that, although the present wireless telephone service to America is not secret in the full sense of the word, it is proving of such value that its introduction was fully justified. Complete secrecy, however, is considered desirable. and with the opening of the Cupar station, experiments to this end are to be carried out by the British post office engineering staff.
