## SIRENS SHRIEK LOUDLY AS LINDBERGH ARRIVES

(Continued from page 1.)

## and Washington together.

Veteran shipping men and police said it was greater than the greetings to Admiral Dewey and General Pershing, which had been considered the most tumultuous welcomes heretofore.

Commander Richard E. Byrd, Polar flier who accompanied Lindbergh in his flight today from Washington, said that there was nothing in all history to compare with this welcome.

It was a joyful celebration from dawn to dusk, but it was marked by two incidents which might have proven serious but for "Lindbergh luck."

When the young aviator took the air in Washington in an army pursuit plane, after discovering that his trans-Atlantic "Spirit of St. Louis" was not in condition, the gasoline line ceased to function. This left only a small auxiliary tank with barely enough gasoline to make the run but Lindbergh never thought of turning back. He switched on the auxiliary supply. When he landed at Mitchell field he tank was almost dry.

## Almost Falls From Car

The other untoward incident happened just after he had landed at the Battery and started up to City Hall. The cheering crowd began to close in front of the car in which he was standing to wave to his admirers, and the chauffeur suddenly increased the speed. The flier was caught unaware and 10,000 hearts stood still as he was thrown backward and almost out of the car to the street. He was seized by the legs and pulled back to safety, to continue on his way, laughing and waving to the countless thousands.

Lindbergh left Washington, where he was taken directly from Europe on a warship, for his wel-

come, just 9 o'clock this morning. He flew "solo" as he flew on his great adventure overseas and behind him was a convoy of 21 similar planes.

At noon he dropped out of skies in his golden nose plane onto Mitchell field, close by the Roosevelt field runway from which he took off May 20 for France.

While the escorting squadron circled above the field, Lindbergh transferred, as a passenger this time, to an amphibian plane which carried him to a landing in the waters of New York bay at Quarantine. There the city tug Macom was waiting and he went aboard. His welcome beginning with a din of steamer whistles as he climbed the tug's sides.

On the way up the bay to the Battery some 500 craft moved ahead, their funnels laying down a smoke screen which almost hid the Macom from sight. Behind were almost as many more and all had their whistles tied down. Other craft all over the harbor took up the greeting and so with flags flying and fire boats spouting fountains of water in salute, Charles Lindbergh came back to New York.

## SHE WENT FROM BAD TO WORSE

Down to 98 Pounds—Finally Restored to Health by Lydia E. Pinkham's Vegetable Compound

Cleveland, Ohio.—"After having my first baby, I lost weight, no matter what I did. Then a doctor told me I would be better if I had another baby, which I did. But I got worse, was always sickly and went down to 98 pounds. My neighbor told me about Lydia E. Pinkham's Vegetable Compound, as it helped her very much, so I tried it. After taking four bottles, I weigh 116 pounds. It has just done wonders for me and I can do my housework now without one bit of trouble."—Mrs. M. Krasnowski, 10094 Nelson Ave., Cleveland, Ohio.

If some good fairy should appear, and offer to grant your heart's desire, what would you choose? Health? Happiness? Health is riches that gold cannot buy and surely health is cause enough for happiness. Lydia E. Pinkham's Vegetable Compound may be the good fairy who offers you better health.
