SCHOOL BOARD VOTE DRAWS BIG ATTENTION

mittee, in the work of which he has been a leader. He is at present active in the Lions' program of improvement at the municipal auto camp.

Dr. Henry Morris, optometrist, has recently been prominent as the chairman of the Red Cross committee which successfully handled the campaign for Mississippi flood relief. He has served on the Salem chamber of commerce board of directors, and is a past-president of the local Kiwanis club.

Leads Guidance Work

As a Kiwanian, Dr. Morris is chairman of the agricultural relations committee and of the vocational guidance and placement committee, and his activities in connection with education have been principally in the latter capacity.

It was through the efforts of this committee that the opportunity room, now an established success, was introduced into the local school system.

Dr. Morris is also chairman of the Kiwanis vocational guidance and placement committee covering a large district in the northwest.

Dr. H. H. Olinger, dentist, has been a member of the school board here for seven years, first being appointed to succeed the late Chauncey P. Bishop when he moved away from Salem. He has twice been reelected, and for several years past has been chairman of the board.

Watches Finances

Coming onto the board at a time when the district's finances were in particularly poor shape, Dr. Olinger's attention has been devoted largely to this phase of administration, with the result that taxpayers attending the annual district meeting next Monday evening, will hear a very favorable report.

L. J. Simeral who is engineer for the Portland Electric Power company, here has been a member of the school board for five years and has directed his attention principally to the mechanical problems which faced the board, being thoroughly versed in the details of construction and equipment. Like Dr. Olinger, he also has kept a watchful eye on the public purse and his expert knowledge has saved the district large sums as well as insuring efficiency in the use of school equipment.

ing frequency, find themselves facing a similar problem.

Local Woman Leader

With the auxiliaries, the problem is less acute. The Woman's Relief corps, organized regularly in Oregon in 1882, with Mrs. Ida Babcock, 749 North Commercial street, as department president for the state, was the first auxiliary in the northwest, although other chapters and other auxiliaries soon followed. The membership of the auxiliaries is generally younger, and consequently faces a more prolonged future.

More Rooms Needed

Still more rooms are needed to house the 2500 persons who are expected, although many have already been listed. Persons having them may list their rooms by telephoning 400, and after 1 o'clock Sunday, 2673, when listings will be taken at registration headquarters in the First Methodist church.

A number of Salem citizens have placed their autos at the disposal of the Grand Army during the encampment, and others who wish to do so may call H. A. Cornoyer at 491.

C. B. Zeek, division commander of the Sons of Veterans for the state of Oregon, has arrived in Salem and has established headquarters at the Marion hotel. D. B Bowley, senior commander-in-chief of the S. of V., will arrive Sunday and will also maintain headquarters at the Marion, it was announced last night.

Salem Boy Scouts will assist the various committees in charge of encampment arrangements. The finance committee report that subscriptions have not been entirely completed. Dave Drager and Walter Stoltz have charge of subscriptions. Other committee members are: Chairman, Charles Fessenden; counsellor, J. J. Newmyer; secretary, Florence E. Shipp; treasurer, Hattie B. Lucky Forelock

KRUJA, Albania. — (AP)—Bobbed hair in Albania has curious variations. Among the Mohammedans the boy's head is cropped close, but a lock is left in front. Some people say this is to ward off the evil eye. Others maintain that it is to furnish a hold whereby to snatch the person into eternity.

Japan Will Not Question Strength of Naval Bases

GENEVA, June 17 — (AP) — Japan has no intention of raising the question of the internationalization of the Panama canal or a reduction in the strength of the naval bases at Hawaii and Singapore at the forthcoming naval conference, Admiral Kobayashi, one of Japan's chief naval delegates here, told the Associated Press tonight.

The admiral added that the Japanese representatives would confine their initiative to obtaining an agreement on warships not covered by the Washington treaty.

Admiral Kobayashi declined to say whether Japan would accept the 5-5-3 ratio for cruisers, destroyers and submarines. He did say, however, that Japan wants a total tonnage high enough to permit her to have a sufficient number of ships to defend her island empire and therefore gave more importance to a quantity of sizeable ships than to the question of their ratio.

The Japanese delegate said Japan had come to Geneva in a spirit of conciliation in an endeavor to reach a fair agreement.

POSSE RIDDLES NEGRO

PARIS, Tenn., June 17—(AP)—Joseph Upchurch, negro, who shot and killed Sheriff T. D. Caldwell this afternoon when the latter attempted to arrest him, was shot to death shortly afterward by a posse of about 50 men.

The cabin where the negro had been placed by a deputy sheriff, who had arrested him, was riddled with bullets by the posse.

NORTHWEST LEADS AS FILBERT AREA

Two Grades Decided Upon at Meeting Here; Smaller Ones to Be Culls

The northwest need never have any doubt about being recognized as the best filbert growing country in the United States, or even the world, declared George Dorris, Springfield filbert grower, at a meeting of the filbert growers and brokers held yesterday at the chamber of commerce auditorium.

The meeting was called by the Western Nut Growers' association primarily to discuss grading standards for filberts. After considerable discussion it was decided to market two sizes of the nuts, a large size which screened from 24 to 32, and a small size screening from 20 to 24. Those going through the 20 screen are to be considered as culls, and are not to be marketed. A standard cracking test of 70 per cent was also decided upon.

Decision as to a trade name for these various sizes was also made at the meeting. The round nuts, known as "Barcelonas" by the trade, will be called the "North Pacific," while the long filberts, known as "DuChilly," will be called "Long North Pacific." Thus there will be placed on the market northwest filberts of four kinds, the "North Pacific," "North Pacific Large," "Long North Pacific," and the "Long North Pacific Large," according to the decision of the growers.

After the decision had been made in regard to kinds to be marketed, discussion turned to the subject of a fair selling price. Filberts grown in the northwest, it was declared by growers and brokers alike, are superior to those raised in any other part of the world, and should demand prices according to their quality.

Because the group present at the meeting was not sufficiently representative of all the growers of the northwest, no decision was reached in regard to prices.

M. P. Adams, Salem filbert grower, and president of the Western Nut Growers' association, who presided at yesterday's meeting, was authorized, however, to call a meeting of a committee of 12 growers, representing all the filbert growing sections of the northwest. This committee is to assemble at Salem at 10 a. m. in the chamber of commerce on June 25, and is expected to set the opening selling price for filberts at that time.

C. E. Schuster, professor at the OAC, and secretary of the Western Nut Growers' association, acted as secretary of the meeting yesterday.

Others present who are prominent in the filbert industry included George Dorris of Springfield, oldest filbert grower in the state; A. A. Quarnberg of Vancouver, Wash., who is the dean of all filbert growers in the northwest, having been raising the nuts for over 35 years; W. H. Bentley, secretary-treasurer of the Northwest Walnut Growers' association; A. R. Schmurr of Portland, representative of Lieber-Johnson, buyers, and J. O. Holt, manager of the Eugene Fruit Growers' association.

About 30 were present at the meeting, which lasted from 10 a. m. to 4 p. m.

Senators Expend Oratory About President's Catch

WASHINGTON, June 17.—President Coolidge's reported accomplishment of catching trout with worm bait stirred senatorial circles today to the extent of comment from a republican, Borah of Idaho, and a democrat, Reed of Missouri.

Declaring he had never heard of worm fishing for trout, Mr. Borah said he believed the president caught catfish and thought they were trout, but if they were trout "they must have been imbeciles."

From Mr. Reed came this observation:

"Any trout that will lie at the bottom of a lake and bite a worm is a degenerate trout. As a matter of generosity and common fairness, however, I hope he used a whole worm."
