NAVY LIMITING AIMS TOLD BY U. S. ENVOYS

grams were brought to completion."

Most of the vessels to be scrapped under the American plan, it is pointed out, are now or soon will be obsolete.

Stops Competition

"This plan," the statement concludes, "stops competitive building, which is the chief object of this conference, averts scrapping new construction and permits moderate replacement and building programs within clearly defined limits.

"If a lower limit of total tonnage of cruiser, destroyer and submarine classes were agreed to, the scrapping programs would be correspondingly increased and possible building programs would be curtailed."

WASHINGTON, June 20—(AP)—Failure of agreement at the Geneva naval armament limitation conference would be followed immediately by a resumption of competitive building with the new congress immediately passing the bill for ten fast new 10,000 ton cruisers, Representative Britten of Illinois, ranking republican on the house naval committee, predicted today.

"The American proposal," he said, "is fair, frank, and one which will impress the world with our desire to limit naval expenditures and its rejection by Great Britain and Japan can only bring about a resumption of the race for naval supremacy, which, however costly, will be carried forward energetically by the United States."

STREET REPAIR NEED SEEN; PLAN ADVANCED

(Continued from page 1.)

curb gasoline pumps was opened by Alderman S. E. Purvine last night at the city council meeting, when a motion which he made was passed, instructing the city attorney to prepare an ordinance, seeking to restrict activities of the gas purveyors.

The ordinance to be drafted will limit curb gasoline pump owners to 7 feet of sidewalk space, or just enough to permit a car to back or head in.

The matter came up last night when councilmen, against the verbal protests of Alderman Purvine, voted permission to the Fitzgerald-Sherwin company to establish a curb pump in front of the new Nelson building on Liberty street, after having consistently opposed, previously, installation of any more pumps.

While parking space in the city is at a premium, Alderman Purvine pointed out, the service station men in the down town district are permitted to utilize space sufficient for parking six or seven cars to make profit for themselves by the sale of gasoline.

"The streets were never made for that purpose," he declared.

A movement was started some time ago for an ordinance removing all curb pumps from the sidewalks, but it faltered.

Since that time, however, councilmen have generally looked with disproval upon installation of new pumps. No special reasons for granting the request last night were given, and Alderman Purvine's motion to prepare an ordinance received a unanimous vote.

Don't Mean Him

A good Scottish minister, on his way to the kirk, met a little tousle-haired boy, who carried a fishing-rod and line, on the end of which was a bent pin. "Dinna ye ken," he said to the boy, "that this is the day of rest?" "Aye," said the lad, "but I'm no tired."

POOL HALL PERMIT APPEAL WITHDRAWN

Stoliker Understood to plan Bowling Alley; That May Be Opposed

The petition for permission to operate a pool hall at 347 High street was withdrawn from the city council last night by Virgil M. Stoliker in the face of the opposition which arose to having such a business so near the high school.

A letter, signed jointly by Superintendent George W. Hug and Principal J. C. Nelson of the high school, urging disapproval of the petition, was read.

It is understood that Mr. Stoliker now plans to apply for permission to conduct a bowling alley at the same address. This petition will also arouse the protest of high school authorities, it is believed.

A motion was passed giving Street Commissioner Low and the streets committee power to act in the contsruction of a new bridge across the stream near the ball park on 12th street.

Commissioner Low pointed out that a suitable bridge which would last about 15 years could be constructed for $500.

The present one is in a bad condition, although it is not dangerous to traffic.
