

### ORDINANCES PASSED BY CITY'S COUNCIL

Grade Established on East Nob Hill; Assessments Are Segregated

The following ordinance bills were given third reading and final passage at the city council meeting last night:

No. 2477, establishing the grade on East Nob Hill from Jerris to Hoyt.

No. 2478, segregating assessment on property owned by Reuben T. Boise and W. L. Boise on South street from Maple to Cottage.

No. 2479, segregating assessment on property on Cottage street.

No. 2482, assessing cost of improvements on Broadway from No. 1st to Madison.

No. 2483, assessing cost of improvements on Hood from Fourth to Broadway.

No. 2487, segregating assessment on property belonging to J. L. and A. D. McKinney on Hood street between Broadway and Capitol.

No. 2468, segregating assessment on property belonging to S. R. Bond on E street from Broadway to Fifth.

No. 2469, segregating assessment on property belonging to J. L. and A. D. McKinney on Church street from Market to South.

No. 2470, assessing cost of improvements on South Fourteenth street from Lee to Wilbur.

No. 2471, assessing cost of improvements on Cross street from Church to Twelfth street.

No. 2472, assessing cost of improvements on Leslie from Twelfth to Thirteenth.

No. 2473, assessing cost of improvements on Thirteenth street from Leslie to Mission.

No. 2475, accepting dedication of a part of Seventeenth street by the Southern Pacific for street purposes.

No. 2476, assessing cost of improvements on Leslie street from Summer to Twelfth street.

### OLINGER AND SIMERAL REELECTED TO BOARD

legal voters of district No. 24, the annual meeting of the district last night was a quiet and quickly finished formality.

Called for the purpose of hearing the reports of the board and the district clerk, the group elected Dr. H. H. Olinger chairman, and W. H. Burkhardt secretary, and proceeded to business.

That the total taxable property in the district is valued at \$16,143,052, with an estimated valuation of \$530,000 on school buildings and grounds, and an additional \$45,000 in equipment, was shown by the annual report of the district clerk, Mr. Burkhardt. The district has a bonded indebtedness of \$430,000, and other debts raising the total to \$477,400.

Persons of school age—over four and under 20—number 2987 males and 3083 females, a total of 6060. There have been 164 teachers teaching in 11 school buildings in the district, during the year.

Some of the items listed under receipts in the report included: Cash on hand, \$10,455.13; notes at Salem banks, \$256,500; district tax, \$204,193.43; high school tuition, \$32,359.63; county school fund, \$65,550.31; state school fund, \$8,762.31; elementary school fund, \$30,927.97; and sale of bonds, \$130,000. Total receipts were \$739,862.76.

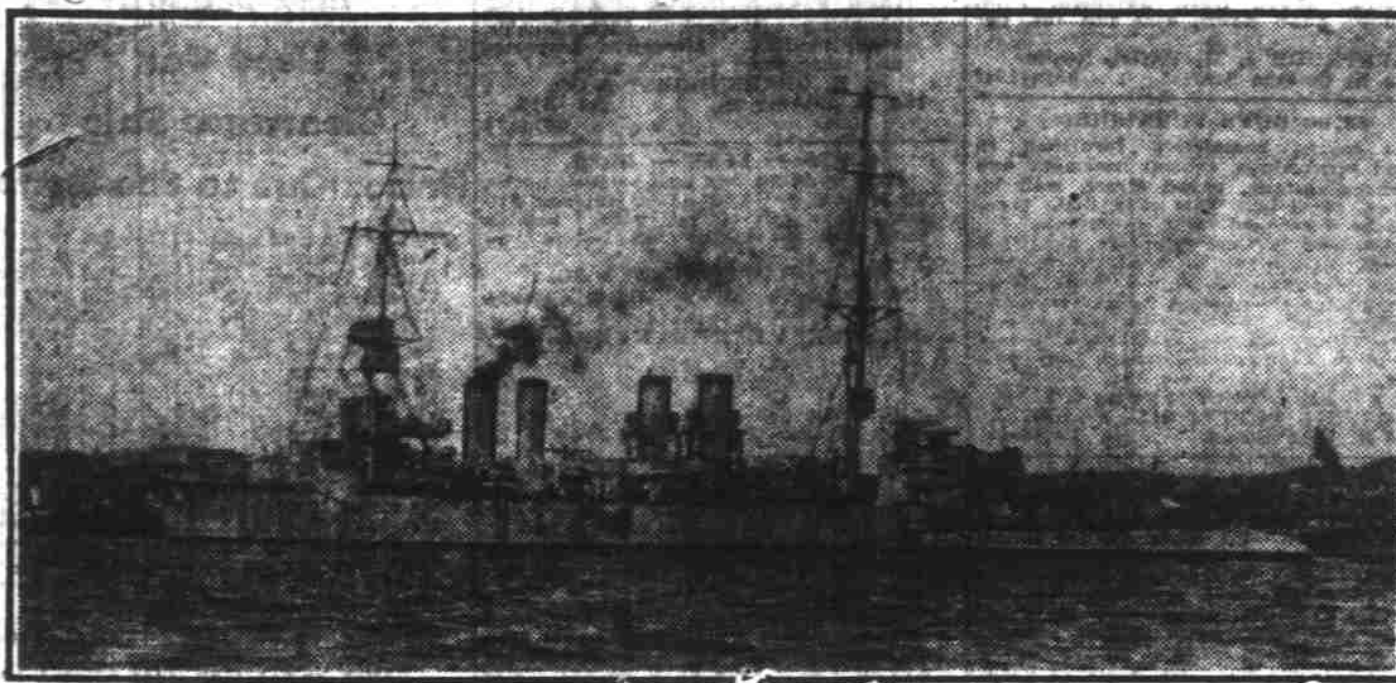

Disbursements included: Salaries, \$246,428.45; repairs, \$3,000.

### Never Too Late

Daniel C. Snider, old soldier, resident of the National Home for Disabled Volunteer Soldiers, found at 75 it's "never too late to begin." To pass away his time, he began carving at a white ivory billiard ball. Today the "trinket" is valued at \$1000. Snider's picture is above; below, a photo of the carving.

### THE SHIP THAT BRINGS LINDBERGH BACK HOME

The United States navy's fast cruiser "Memphis," which President Coolidge placed at the disposal of Charles A. Lindbergh, trans-Atlantic aviator, to bring him from Cherbourg, France, to Washington, stopping at Southampton, England, to pick up the carefully crated "Spirit of St. Louis."

612.15; insurance, \$1,344.73; principal and interest on warrants, \$272,935.07; redemption of bonds, \$42,000; interest on bonds, \$17,024.27; bond account, \$86,442.59; furniture and fixtures, \$2,922.09. A total of \$692,026.94 in disbursements, leaving a cash balance of \$47,835.82.

The complete report for the year ending the third Monday in June, 1927, is filed with the county superintendent, Mary Fulker-son.

### ORDER TO PAY GIVEN

Bank Superintendent Will Turn \$580 to Mrs. Witherrite

An order to pay from the funds of the insolvent Oregon State bank of Jefferson the sum of \$580 to Minnie B. Witherrite was given the superintendent of banks yesterday by the circuit court.

The sum is said wrongfully and unlawfully to have been received by the bank from Mrs. Witherrite.

A state examiner took charge of the bank's affairs last March when it was found unable to meet liabilities, and had failed to make good its reserve.

### 319 GRADE PUPILS IN SUMMER SCHOOL

Session Opens Monday at Park and Grant Buildings; Interest Shown

The summer school for grade children opened yesterday with an initial enrollment of 319 pupils. In the Park and Grant grade school buildings. There are 59 student teachers from the Oregon Normal School teaching in the summer school, under the supervision of 10 critic teachers, who are chosen from among the best teachers in the state.

Reports from both schools indicate that the children enrolled are thoroughly interested and delighted with the work given them yesterday.

Critic teachers at Grant school include Naomi Hagensen, Monmouth normal, first grade; Katherine Sims, Silverton, second grade; Florence Beardsley, Monmouth normal, third and fourth grades; Susie Bonner, Monmouth normal, fifth and sixth grades, and Julia Spooner, Portland, seventh and eighth grades.

At Park school are the following critic teachers: Mrs. J. A. Duncan, Salem, who is recognized as one of the best teachers in the state, first grade; Miss Sadie Schmitt, Marshfield, second grade; Mrs. Bess Scog, Portland, third and fourth grades; Grace Bridges, Portland, fifth and sixth grades; and Miss Richardson, Silverton, seventh and eighth grades.

Margaret J. Cosper of Salem is in charge of the summer school work.

### WILL ROGERS IMPROVING

LOS ANGELES, June 20—(AP)—Will Rogers was declared to be improving rapidly today at the California Lutheran hospital where he underwent a major operation last week.

### Profit by Others' Experiences

IN our many year's specialization in the treatment of Piles and other Rectal and Colon ailments, we have collected a vast amount of data of the utmost benefit to anyone so afflicted. Much of this valuable information, together with advice, suggestions and the personally signed records of scores of former patients, is contained in a 100-page book, which we will send FREE to anyone requesting it. Described is the famous non-surgical method of treatment used exclusively in the Coast cities of Portland, Seattle and San Francisco also our WRITTEN ASSURANCE of the money-back guarantee or REFUND. Write for this book today.

### RAY AND ROY REACH PORTLAND PRISON

Twins Under Heavy Guard Reach Destination After Tiresome Trip

PORTLAND, June 20.—(AP)—Ray and Roy DeAutremont, 27-year-old twins, were in jail here tonight where they will be held until they are taken to Jacksonville, Or., to be placed on trial for murder.

Fugitives for four years and the objects of a world-wide search, the young men are held in connection with the train holdup and quadruple murder in the Siskiyou tunnel in southern Oregon Oct. 11, 1923.

Hugh, a younger brother, is on trial for his life in Jacksonville for the same crime.

As they neared Portland late today under heavy guard the twins were taken from the train on the outskirts of the city and brought to the jail in automobiles.

Besides the train guard, a squad of deputies from the sheriff's office here guarded the prisoners on the run through the city.

Every precaution was taken to guard against the possibility of an escape.

Roy was the more ready to talk of the two, but a little pressure now and then from Ray's elbow or knee would cut him off in the middle of his discourse.

Riddiford and Long were closeted with Ray and Roy and then newspapermen were invited in to talk with the pair. Sheriff Jennings and Riddiford made only one request, and that was that no question be asked relative to the crime with which the two are charged.

Both boys declared they had had the best of treatment on the trip, confessed to excellent appetites, and said they slept soundly each night.

Ray was asked about his wife, and how he happened to meet her.

"Well," he said, after a pause, "we were working in the woods near Hanging Rock, down in southwest Ohio, and Jim Sprouse, who had a farm nearby, was cruising timber. One day it rained and we went into his house. That was the first time I met Hazel. I want you to know that she was and is a good girl."

"Had you boys ever thought about coming back?" the two manacled prisoners were asked.

"Yes, we talked it over a lot of times but I didn't want to leave Hazel," Ray answered, "so we figured we would work for a few months longer and get enough money for us to make the trip, bringing my wife with us."

"I was down at Hanging Rock, which is near Ironton, about a month ago," Roy said, "and saw one of the new posters on the wall of the postoffice. I asked the postmistress if there was any mail for me, and then drove right to Steubenville. That's when we discussed coming back."

The poster which Roy saw at Hanging Rock unnerved both of them, they admitted, although Ray said the only thing that really "got" him was leaving his wife and child.

"The last thing I said to my wife as she kissed me goodbye was, 'Take good care of Jackie, for some day he may have to take care of you.'"

"I named the baby," Roy interrupted once during the interview, "named him Jackie, and he was the best looking baby you ever saw."

"We will be glad to see Hugh—mighty glad—but we wish it were not under the present circumstances."

Both Ray and Roy spoke of their parents and declared they are also very anxious to see them.

The two were handcuffed together and always under guard. The trip has been a wearing one for them as well as for the six officers who had been on guard.

Klamath Falls—Millions of grasshoppers menace crops and range grass.

### FARMER RELIEF PLANS OUTLINED

ASKS ONLY ADVANTAGE ALREADY HAD BY INDUSTRY

Solution Is Guarantee of Market for Surplus, Senator Declares

Farm relief as proposed by Senator Charles L. McNary does not mean a subsidy, nor any other aid to which the farmer is not rightfully entitled, the senator told members of the Salem chamber of commerce at Monday's luncheon.

The effort which Senator McNary has been making is aimed at equalizing the advantages which legislation has already given the railroads and laborers in general, he said. The legislation in support of the railroads has operated to handicap the farmer, but the latter is not asking that it be removed, or that any beneficial legislation given any class be withdrawn; he is asking that similar legislation be passed to place agriculture on a proper footing.

There are three ways that this might be done, McNary said:

1. To cut production down to equal consumption in the United States. This is impossible, for seven million farmers scattered all over the nation could not be brought to agree; and furthermore, limiting acreage alone would not fix the production, which would vary with weather conditions. Another objection is that other nations do not produce enough to feed their millions, and a surplus is needed here.

2. Lower the cost of production, either by lowering tariff—which would disrupt other business—or by importing cheap foreign labor, which would demoralize labor conditions here.

3. Place the farmer on the same plane as other producers by guaranteeing a fair price for his surplus product; the government to market this surplus as it is able in the countries where it is needed.

If the latter method is not adopted, America cannot escape the evil of class distinction at its worst, the senator concluded.

Agriculture is this nation's biggest business, with 80 billion dollars invested and 35,000,000 people living on the land. Senator McNary said in his introduction; yet the farms obtain only 10 per cent of the national income, and the return on the farmer's investment is only 1 1/2 per cent.

### VESSEL STILL ASHORE

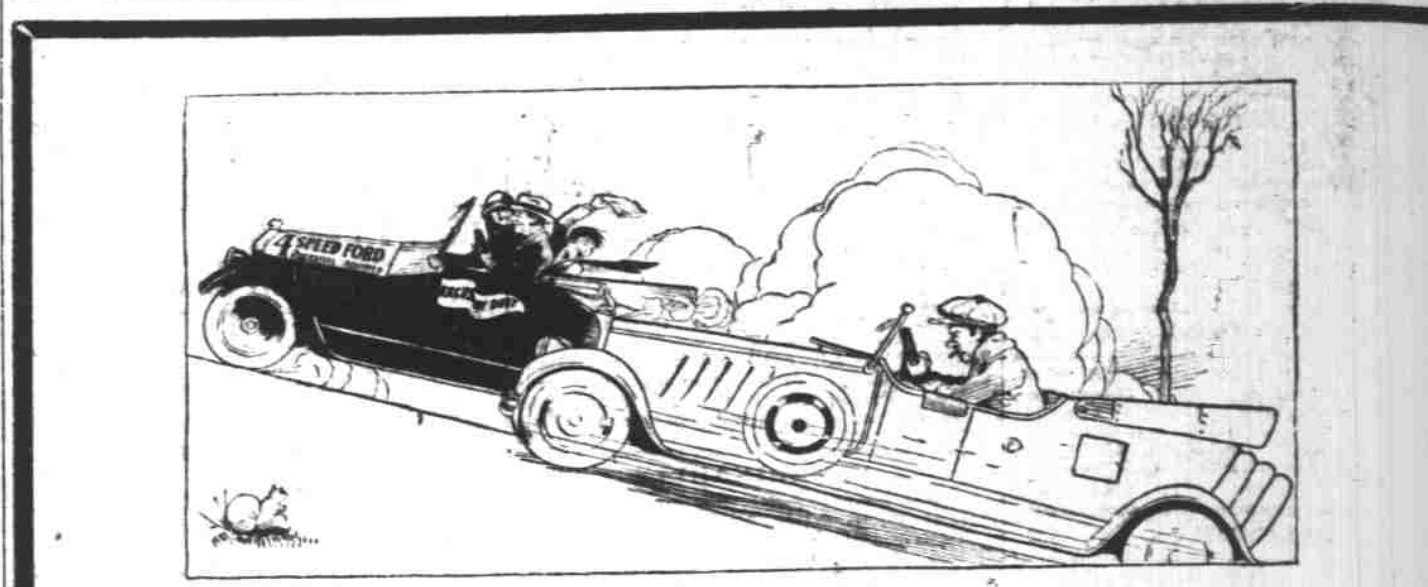

SEATTLE, June 20.—(AP)—With her midship section unsupported and in danger of buckling, the motorship Challamba, which went ashore 20 miles from Prince Rupert, B. C., Saturday morning said today.

## 4 SPEED Ruckstell Axle

INSTALLED IN THE  
**Ford**  
YOU NOW OWN  
CONVENIENT MONTHLY TERMS  
Install a Ruckstell Axle—Go Anywhere!

Knowing that Ford owners like to penetrate the mountain sections that are off the main roads, and with a RUCKSTELL EQUIPPED CAR, which gives them four speeds, they cannot only negotiate steep grades with ease, but use the RUCKSTELL speeds for descending, instead of their brakes. Some of the most beautiful and picturesque places in the mountains are the hardest to reach. But, with a Ford, which is light in weight, and with the added speeds, one can reach these beauty spots with ease and comfort.

That many Ford owners might take advantage of this mountain scenery during the early Spring we have worked out a plan of installing the RUCKSTELL FOUR SPEED AXLE in Ford cars, which includes the car you now have.

# ELECTRO-KOLD Wins by Comparison

## ELECTRO-KOLD The Simplest Electric Refrigerator

Electro-Kold equipped home of Vincent Palmer, Los Angeles.

Have you noticed that careful purchasers of Refrigeration machinery nearly always select Electro Kold? They do and there are many reasons why. Electro Kold always satisfies those who really know what a refrigeration machine should be. For these reasons Electro Kold is being used in the majority of Pacific Coast apartment houses as well as in stores, restaurants, hotels and fine homes. During the past year this store installed nearly eighty Electro Kolds. In this number are included the Glendora, Sundberg, Olympia, Demogalla and Stratten apartments and many homes.

Electro Kold is a thoroughly tried and time-tested machine. Electro Kold refrigeration is the new method of food preservation. Food may be kept many times longer than under the older methods of refrigeration. For example milk may be kept over a week in the hottest weather. This makes for economy of quantity buying as well as convenience. The desserts freezing feature, etc., as well as salads and ice cubes may be frozen in large quantities. Yet Electro Kold Refrigeration is so much cheaper than ice refrigeration that in a few years you can actually save the cost of the machine. Three cents a day will run the ordinary home size.

### ELECTRO-KOLD Can Be Installed In Your Own Refrigerator

If you have a good refrigerator now we can install an Electro Kold machine in it, placing the compressor unit in the basement or any convenient place, or you may trade in your old refrigerator as part payment on an Electro Kold. Be sure to see Electro Kold at once. No more costly than ordinary refrigeration machines. Let us show you why it is better.
