### Phone and Delivery

There is no one thing that saves the time and energy of the busy housekeeper as much as the combination of telephone and delivery. Just to be able to step up to the phone to order your supply of food and know that it will be delivered at a certain time and just as good as if you had selected it yourself is a worthwhile service. Then by concentrating all your purchases at one store on a monthly charge account gives you the exact amount of your food bill for the month.

### Apricots for Canning

We are reliably informed that there will be no apricot crop in The Dalles section and our canning apricots must be from California this year. They are now in and we advise that you place your order at once.
