HEWITT TO HEAD SCHOOL OF LAW AT WILLAMETTE (Continued from page 1)
endowment fund to provide necessary reforms in conducting the institution, and his appointment now is by recommendation of the alumni committee.
Professor Hewitt graduated from Willamette in 1909, after which he studied at University of Southern California and then began practice of law. He entered educational work and finally was appointed to the O. A. C. faculty, where he has served for the past five years. He is married and has one son, a boy of 16.
It is believed that an endowment campaign to provide funds for the school will get under way some time this fall, under Professor Hewitt's direction. Dean Van Winkle last fall sent out letters to influential alumni throughout the northwest, and re-

端的 indicated favor for such a campaign.
The alumni committee, consisting in addition to Professor Hewitt, of Dean L. H. Van Winkle, Secretary Ray L. Smith, Roy F. Shields, and Merton R. DeLong, Portland attorneys, held a meeting about two weeks ago. A report of their work will be given at the next board of trustees meeting.
The members have succeeded in adding several new law books to the library for use of students.
Among the specific requirements for membership in the national association, which entitles a school to bestow the doctor of law degree, and to transfer its credits at full value to other law schools are the following:
1. The school must not rely entirely upon tuition to pay its instructors.
2. Certain recitation class sessions must be held in the forenoon of the day.
3. An adequate law library connected with the school must be established.
4. At least three instructors must be given substantially full time to teaching work.
Nothing short of an endowment fund will make possible these reforms, and this will probably be the first step in the process of standardization.
"It will take time," declared Secretary Smith last night, "but the movement will be pushed until the school attains membership in the association."
The value of the instruction given here is indicated in the fact that only one of the students graduating this year failed to pass the recent bar examination. A high percentage each year have been admitted to the bar as compared with other schools.
Prospects for a heavy enrollment this fall are good, according to Mr. Smith. Last year, about \$4500 was received in tuition from students which was used on equipment and for the new arrangement all faculty school faculty members are elected by the trustees and will be paid fixed salaries.
Instructors who will be associated with Mr. Hewitt this fall are Ray L. Smith, Walter Keyes, Ronald Glover, C. N. Inman, E. M. Page, and Willis S. Moore.

THROWN FROM CAR
Mrs. W. F. Prime, 1880 Center street, was thrown from a car driven by her daughter, Mrs. George White, of the same address when the machine was struck by a car driven by Ed Schosser, Rt. 1, Box 48A, Portland, last evening, on the Garden road. Mrs. White said in her report to police that she stopped before crossing the intersection and that Schosser did not give right of way.

FRIGIDAIRE TO BE DEMONSTRATED HERE
Salem Now Has Direct Factory Demonstration and Permanent Service
Frigidaire invites you, on the afternoons of Friday and Saturday; this afternoon and tomorrow afternoon, at 2:30, at the Frigidaire sales room, 154 South High street, where refreshments will be served. You are invited to come and bring a friend.
Laura Russell Slater of the Frigidaire corporation, will have charge of the demonstration. There will be a talk on proper food preservation.
Salem now has direct factory operation and permanent service, an advantage of the larger cities.
Is Becoming General
W. V. Crandall is manager of the Salem office of the Frigidaire corporation, which is a product of General Motors. J. H. Layman is salesman. It has come to pass that 85 per cent of the electric refrigeration throughout the world is by Frigidaire. This service is becoming general in homes everywhere. It is as important in the preservation of health and comfort as any of the other modern conveniences of civilization.
Nebraska is fairly noisy now, but the cry of calamity is more than smothered by the clatter of the harvesting machines.—Omaha Bee.
