

UNREST CONTINUES THROUGHOUT WORLD

Mobs of Radicals in Paris, Brussels, and Mexico, Cause Trouble

PARIS, Aug. 24.—(AP)—Radicals, apparently determined to keep up the Sacco-Vanzetti agitation, made an attempt to carry out another demonstration in Paris tonight. A column of three hundred collided with the police in the Boulevard Sebastopol and numerous shots were fired. The police quickly scattered the mob, however, and orders were issued for increased vigilance of the patrols.

At Nancy laborites sought to form a protest parade but were dispersed by mounted gendarmes, who charged down upon them. Store windows were broken and slight injuries were inflicted in the scuffles.

BRUSSELS, Belgium, Aug. 24.—(AP)—Two thousand manifestants issuing from a protest meeting organized by the Sacco-Vanzetti committee, descended on the center of the city tonight. Mounted police charged them with drawn swords and temporarily dispersed the assemblage.

Mobs however repeatedly gathered at various places keeping the police busy until midnight.

MEXICO CITY, Aug. 24.—(AP)—A one hour general strike as a protest by Mexican organized labor over the execution of Sacco and Vanzetti was widely observed in Mexico City from 11 o'clock to noon today. Public automobile, street car and telephone services were suspended and most of the factory workers abandoned operations.

A similar one hour strike in the theaters and moving picture houses by all night workers was scheduled for tonight between 8 and 9 o'clock.

400 TAKE PART, FINAL EVENTS AT PLAYGROUND
(Continued from page 1)

The boys were divided into three groups, according to size and weight, so that each one competed against others of his own approximate size.

The prize for the one mile bicycle race, won by Smith, was a Klaxon bicycle horn, donated by a local bicycle shop. The other

bicycle races resulted as follows: Juniors, three-fourths mile, won by Rodney Hardman, with a knife as the prize; freshmen, quarter mile, won by Robert Pickens, with a pencil as prize.

Novel Events Listed

In the 75 yard dash, Robert Carpenter won the knife offered as first prize, in the senior group, with Bill Hart and Phillip Solstrom winning in the junior and freshmen groups, being presented with a pencil and a sparkler, respectively, as prizes.

In the next event, a mixed shoe race, the boy's shoes were all put in a pile at one end of the course, and all the entrants were started from the opposite end, forced to look for their shoes, and after finding them and putting them on, to run back to the starting point. Junior Smith made the quickest time, and was presented with a Boy Scout first aid kit.

The three legged race proved to be exciting, with Bob Carpenter running with Oliver Smith to win the box of candy offered the seniors. Raymond Elliot and Lester Carter won the candy in the Junior race of the same kind.

The swimming events were staged, and gave the boys opportunity to do some real work, although the current is uneven, and handicapped some of the entrants. In the 25 yard swim, Oliver Smith won the indoor baseball offered as the prize, with Robert Hardman taking first among the juniors, winning a bat, and Sherman Ross winning the freshman event, with another indoor ball as the prize.

Entrances in the underwater swim was free to all, and was won by Oliver Smith, with a distance of 75 feet. His prize for this event was a baseball. Kenneth Morris, known as "Doc" among the boys, outswam Smith, but became confused under water, and did not follow the course laid out. He did, however, demonstrate his superiority in this event by a later swim of over 80 feet under water.

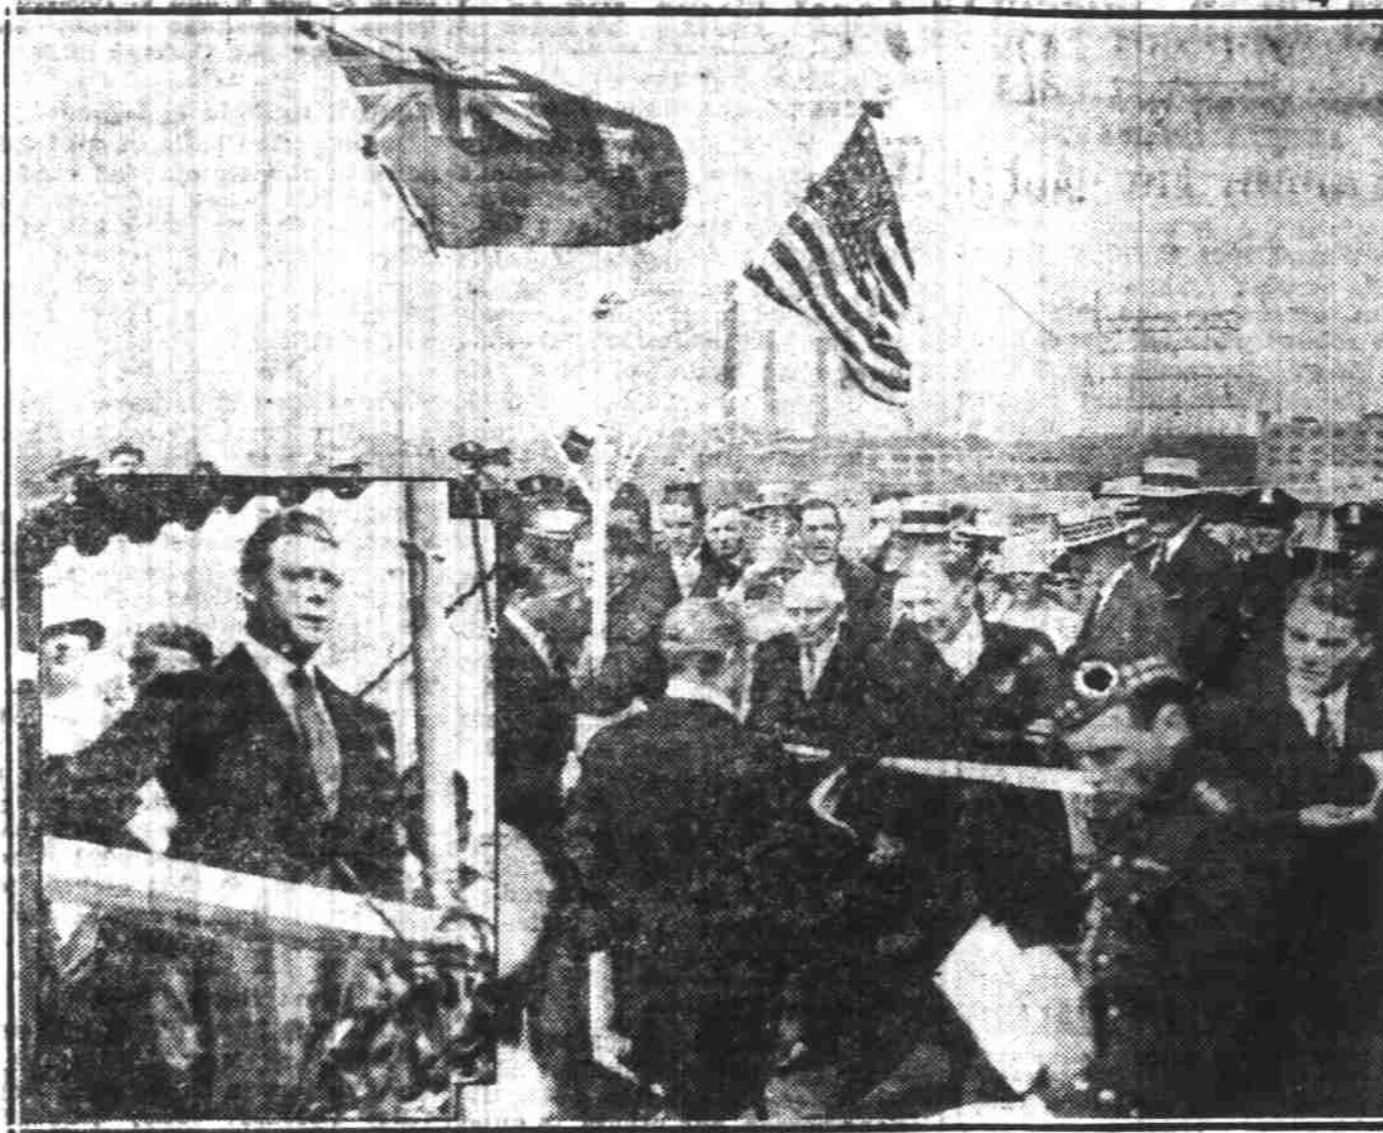

The prizes were awarded after the events were over, and in addition, Guy Hart was awarded a bathing suit as a prize for bringing in the most animals during the playground season, in the nature study work carried on by the directors.

In the girls' events, Barbara Walker won the first prize of a swimming cap in the free style swimming race. Barbara also was given the prize in the basket making contest during the first month of the playground activities.

The 75 yard footrace was taken by Eleanor Wagstaff, with a bathing cap as the prize.

Another girls' event, a doll dressing contest, finished last Saturday, resulted in a prize of a

PRINCE OF WALES DEDICATES NEW PEACE BRIDGE

One more link binds Canada and the United States with the dedication by the Prince of Wales and other personages of the new International Peace bridge over the Niagara river at Buffalo, N. Y. At the ceremonies, left to right, the Prince, Secretary of State Frank B. Kellogg and Vice President Charles G. Dawes. Inset shows Prince of Wales speaking.

MINERAL SPRINGS HAVE GOOD SEASON

New Sanitarium Building Completed; Water Has Healthful Qualities

HUBBARD, Aug. 25.—(Special.)—With the new main building completed and other improvements well along, the Hubbard Mineral Springs health resort is enjoying increased patronage this summer and promises to become one of the most widely known resorts of its kind in Oregon.

A plentiful supply of fresh mineral water of curative powers similar to those at the famous resort at Carlsbad, Germany, is the secret of this sanitarium's popularity. In addition to its beneficial qualities, the Hubbard spring water is pleasant to the taste, differing in this respect from most other medicinal waters.

It is authentically reported that Dr. Dietrich, M. D., of Portland, when he went to Carlsbad in 1920, took a sample of the Hubbard springs water with him, and had it analyzed by chemists there. They pronounced it as nearly identical with the world famous waters as could possibly be. It contains bicarbonates of lime, soda, magnesium, and iron, and also iron, silica, sulphate of soda and manganese. Bacteriological tests have also been made, proving the water free of dangerous organisms.

The new sanitarium building is of rustic construction, with a charming lounging room, which affords a pleasing view. On the second floor are the sleeping rooms, surgery, and temporary bath rooms and treatment rooms. There is hot and cold mineral water in every room.

Future improvement plans include provision for a variety of recreational activities.

VIADUCT DESIGNER DIES IN PAUPERISM

NEW YORK, Aug. 24.—(AP)—Murray Roe, designer of the Riverside Drive viaduct above Grant's Tomb and once wealthy son of the Rev. E. P. Roe, the novelist, was found dead today in Central Park, clad in cheap clothing and with only a watch, a little more than \$11 and some letters in his pockets. His death was due to asthma.

Police uncovered the remarkable life history of the man who inherited fame and fortune from his father, added to his laurels by his engineering work and then dropped to the position of porter at the Palace theatre on Broadway.

The police also learned that Roe, a college man, had worked himself up from porter to head usher, despite the handicap of ill health and such poverty that he could not afford treatment.

When the elder Roe died in 1894 his books were still selling at the rate of 100,000 a year and it was said, the son inherited more than \$1,000,000. The younger Roe first gained prominence in 1901 when he was appointed consulting engineer on the Riverside Drive project with a fee of about \$75,000. His marriage to Miss Frances Doniphan Thornton in 1905 was attended by a long list of prominent persons.

A year later word came from California that his wife had obtained a divorce on the grounds of incompatibility. Later it was said he went to South America and lost his fortune.

When he returned to New York in 1913 he was offered the post of porter at the Palace theatre and he accepted without hesitation.

ROTARY LUNCHEON

PARIS, Aug. 24.—(AP)—A luncheon was held in Paris in six hours, and the cost was only about \$44.

Passenger plane service has been developed to a greater extent than here, the physician declared, relating that one German company operates 185 passenger planes of from seven to twelve passenger capacity, each one fitted up more like a Pullman car than an airplane.

In addition to attending the Rotary International convention at Ostend, Dr. Findley studied at Vienna, spent some time at Carlsbad, and toured Belgium.

NEWBERG BRIDGE REPAIRS WORK BEING RUSHED

Repair work on the inter-county bridge over the Willamette river at Newberg will be delayed in completion approximately a month, it was indicated by Deputy County Roadmaster Frank Johnson last night. Contractors had asked for, and been granted by the county court, an additional month in which to complete the work, because of the delay in starting.

Work is going rapidly ahead, however. Piling is being driven as rapidly as possible, and crews are following on the heels of the pile driver, finishing the superstructure and laying decking. Original plans had called for completion of the work by September 1.

Graveling the five mile stretch between Jefferson and Talbot in the southern end of the county will have been completed by September 1, Johnson said. In addition, 1700 feet of graveling on a two mile stretch near Silverton has been completed, and this work, together with about 8 miles more of graveling, will be pushed rapidly to completion before the fall rain sets in.

ADMIT SELLING LIQUOR

PAIR ARRESTED BY STATE OFFICERS TO BE SENTENCED TODAY

E. A. Smith and Perry Derebery, apprehended near Donald in the northern section of Marion county yesterday by operatives from the office of George Alexander, state prohibition commissioner, were being held in the county jail last night, on charges of selling intoxicating liquor.

The pair were arraigned and pleaded guilty in justice court late yesterday afternoon, and sentence will be passed this morning at 10 o'clock. Bail was set at \$750 for Smith and \$500 for Derebery, which they were unable to raise.

Decree of final settlement in the estate of Frederick W. Steusloff, who died about a year ago, was issued in County Judge J. T. Hunt's probate court yesterday. The late Mr. Steusloff was president of the Valley Packing company and of Steusloff Brothers, Inc.

approved by the court, in addition Among legatees under the will go the widow, Clara M. Steusloff, and a sister, Minnie Mathies of Buffalo, N. Y., both of whom have life interests in the estate, the following institutions were

CITY SOLD AT AUCTION

MACHAUG, MASS., AUG. 24.—(AP)—Virtually the entire village of Machaug was sold at public auction yesterday for \$91,000. The sale was made on behalf of B. B. and R. Knight, Inc., owners of three mills and seven parcels of real estate which included 70 houses. The houses brought an average of \$970.

Architects and contractors said it would cost at least \$1,000,000 to duplicate the buildings.

METHOD OF MAKING DEPOSITS PROVIDED AT BANK

Patrons of the Ladd and Bush bank who do considerable business after banking hours will in the near future be able to place the evening receipts in the bank instead of leaving it in the offices, or carrying it to their homes, through a new after hour or night service announced by the bank recently.

Deposits will be placed in a special pouch furnished customers of the bank, and the pouch will be dropped down a chute into a special vault, which is protected by modern devices and full insurance. Entrance to this chute will be through a small door in the outer wall of the building, which will be opened by keys furnished depositors wishing to take advantage of this service.

The pouches are removed to the teller's cage next morning, and the depositor may call and complete the deposit at any time during banking hours.

Remodeling work in the Ladd and Bush bank is nearing completion with new service windows already available to the public, and space for business materially increased to handle the rapidly growing patronage of the bank.
