THE PRIVATE LIFE OF HELEN OF TROY
By JOHN BRINKING

THE MORNING ARGUMENT
AUNT HET By Robert Quillen
POOR PA By Claude Callan

September 15, 1927
Rejoice in the Lord, ye righteous; and give thanks at the remembrance of His holiness. Psalm 97:12.

MANY WOOD WORKING PLANTS
Salem and the Salem district ought to have, can get soon, and will have eventually, many additional wood working plants.

This is certain, because we have the raw materials and the water powers. These make the certainty. Taking into account the big paper mill and saw mills here and in our other cities and towns, a very large wood working industry is carried on in this district.

Consider the following six paragraphs:
John H. Lewis, then state engineer, in the official "Oregon Almanac," in 1915 wrote these words:

Approximately 20,000,000 horsepower, or one-third of all the undeveloped water power in the United States, is located in the Columbia river basin.
Some one has recently said that half the water power of the United States is in the three Pacific Coast states, Washington, Oregon and California.

Another authority says one-fifth of the standing timber of the United States is in Oregon.
Still another, that the main timber supplies of the region east of the Rocky mountains will be exhausted in a dozen years; that every manufacturing concern, even a steel plant, must have some wood, for crates and boxes; that on the average, 25 per cent of the raw materials of manufacturing plants is wood.

The head of the forestry department of the United States government, Col. Wm. B. Greeley, said during a visit in 1923 to this state that our lumbering industries would in ten years be ten times as large as they were then.
Thus many things exist or are working together for greater and more speedy development of our wood working industries.

For manufacturing plants will have to come where the raw materials may be had; and the great bulk of the timber on this continent is on the western slope; in Alaska, British Columbia, Washington, Oregon, California and the Pacific coast of Mexico.
Add to all this the fact that three-quarters of the population of the world is just across the Pacific ocean; joined to our shores rather than separated from them, considered in terms of cheap water transportation.

With the intelligent reforestation program that is beginning to be worked out, Salem will be permanently a great and ever increasing wood working center. It should be the Grand Rapids of Oregon.

Bits For Breakfast

A wood working center—
That will be one of the big phases of Salem's development and permanent greatness.

We can get many wood working plants if we will go after them, and we are going after them.

Salem as a vegetable canning center exists in the present season—and this is a field that is still unexplored.

Statesman of Aug. 4 recorded evergreen blackberries coming to the Northwest canner. This morning's record is made of the likelihood that the West Salem cannery will be getting some of them this week hence.

Joseph Sigall, Polish portrait artist: "Coolidge has an enormous strength of character—another Cieszar."

The longest non-stop flight was that of food prices. They went up in 1917 and haven't come down yet.

The soldier boys will probably find cuties instead of cooties awaiting them in France when they go "over there" this time.

An 82-year-old woman in a Tennessee town has never ridden in an automobile. No wonder she lives so long.

Italy has put a tax on bachelors. In this country, only their ingenuity is taxed.

DETROIT PLANE WILL ABANDON PACIFIC HOP

(Continued from Page One)
which to break the world's record for circling the globe. The record is 23 1/2 days set by Wells and Evans.

The decision to end the flight of the Pride of Detroit here brings to an end one of the most successful long distance flights ever made. Brock and Schlee have flown 12,275 miles since they left Harbor Grace, N. F., on August 27. Their only serious difficulty was encountered in Japan, near Omura, where they were twice forced down by bad weather. They arrived here in good health and in good spirits. The plane was in good condition and they were still determined to make the attempt to fly to Midway islands, 2,300 miles from here.

The advice the fliers received was all against tackling the Pacific leg of the trip. Hundreds of cablegrams awaited them here at the American embassy, pleading with them to give up the flight at Tokyo. The opinion of government and private aviation authorities here was against the flight, owing to the difficulty of locating the Midway islands and landing if they found them.

The fliers realized the possibility of missing the islands and said they could carry gasoline enough to reach Hawaii if they failed to locate the Midways.

TYPHOON SWEEP COAST ISOLATED REPORT SAYS

(Continued from Page One)
during the middle of the week and continued on until Saturday, lashed the coast with 25-foot crashing combers from the Isthmus of Tehuantepec to within a few hundred miles of the American border.

The most severe damage is believed to have occurred at the mouth of the Columbia river.

END SICKNESS THIS NEW WAY

No medicine, drugs or dieting. Just a light, small, comfortable, inexpensive Radio-Active Pad worn on the back by day and over the stomach at night.

Just a light, small, comfortable, inexpensive Radio-Active Pad worn on the back by day and over the stomach at night.

Just a light, small, comfortable, inexpensive Radio-Active Pad worn on the back by day and over the stomach at night.

START CANNING HERE OF VEGETABLE CROPS

(Continued from Page One)
finishing pears, and starting on prunes this morning.

The West Salem cannery is running on prunes. First supplies a little soft, but with good weather for 10 days to two weeks, the bulk of the supplies will be of good quality, and the crop in general will be in condition to be practically all saved, by the canneries and dryers.

The Paulus cannery is on pears and blackberries, and started on prunes yesterday. Will finish pears Saturday. Blackberries will persist for a considerable time yet.

Will Pack Vegetables.
The Paulus cannery will this year put up carrots, parsnips, beets and onions. The first time vegetables (outside of beans and pumpkins) have been canned on a considerable scale in Salem.

The canning of these vegetables will be undertaken to fill orders, and these are in hand now for 7000 to 8000 cases, and it is expected that they may be had for perhaps 15,000 cases the present season.

Likely orders may be had in future years for larger quantities, and for an extended variety of vegetables. Will can this year as long as orders may be had.

The onions used will be small ones; such as would be otherwise classed as culls. The carrots, parsnips and beets will be of no particular sizes or varieties. Will take them as they come, in good condition. These vegetables are sold mostly on this coast; some being so far as New York.

The Paulus cannery is working 250 women, with a payroll around \$700 a day.

Robert Paulus says the cannery markets are generally holding back, but when they wholesalers start buying they will likely clean up the supplies. They are now, however, buying freely cherries, pears and red raspberries.

The California prune market was stiffer last week, but it has slipped back this week.

Sour Stomach

"Phillips Milk of Magnesia" Better than Soda
Instead of soda hereafter take a little "Phillips Milk of Magnesia" in water any time for indigestion or sour acts, gassy stomach, and relief will come instantly.

For fifty years genuine "Phillips Milk of Magnesia" has been prescribed by physicians because it overcomes three times as much acid in the stomach as saturated solution of bicarbonate of soda, leaving the stomach sweet and free from all gases. It neutralizes acid fermentations in the bowel, and gently urges the souring waste from the system without purging.

Besides, it is more pleasant to take than soda. Insist upon "Phillips." Twenty-five cent and fifty cent bottles, any drugstore.

"Milk of Magnesia" has been the U. S. Registered Trade Mark of The Charles H. Phillips Chemical Co. and its predecessor Charles H. Phillips since 1875.—Adv.

NOTICE OF INTENTION TO IMPROVE TRADE STREET FROM THE EAST LINE OF 14TH STREET TO THE WEST LINE OF 17TH STREET

Notice is hereby given that the Common Council of the City of Salem, Oregon, deems it necessary and expedient and hereby declares its purpose and intention to improve Trade Street from the east line of 14th Street to the west line of 17th Street, in the City of Salem, Oregon, by bringing said portion of said street to the established grade, constructing Portland cement concrete curbs, and paving said portion of said street with a six-inch Portland cement concrete pavement, twenty-four feet in width, in accordance with the plans and specifications therefor which were adopted by the Common Council on the 15th day of August, 1927, now on file in the office of the City Recorder, and which are hereby referred to and made a part hereof.

The Common Council hereby declares its purpose and intention to make the above described improvement by and through the Street Improvement Department of the City of Salem, Oregon.

By order of the Common Council the 15th day of August, 1927. M. POULSEN, City Recorder.

THE PRIVATE LIFE OF HELEN OF TROY

CHAPTER III
Hermione: "Is mother here?" said Hermione. "Oh, there you are! Father, the most terrible thing has happened. Adrastra, that girl, is going to have a child!"

"I know it," said Menelaos. "You know it? And you can let such a thing happen in your house, and be so calm about it? I was blaming mother in my thoughts as I hurried home—but you knew about it all the time!"

"Hermione, you shouldn't speak so to your father," said Helen. "This is not the first occasion I have had to object to your manner."

"There are worse things in this house than my manner," said Hermione. "and even if you and father don't feel outraged by them, I do. If that girl is to remain with us, after this disclosure, I decline to live here."

"Where will you go?" asked Helen. "I don't know—perhaps to Orestes, as my duty seems to call me. I may be of use to him—I can be of no use here. I've tried to be loyal and respectful to both my parents, but we are comparatively strangers, and our relation is essentially false. The honest thing for me to do is to marry Orestes at once, and begin over again, in the simple and usual way of sane people."

"That kind of talk is very distasteful, daughter," said Menelaos. "I don't refer to your manner toward me, the distressing thing is your lack of sympathy for people in difficulties. Your mother and I have had great sorrows recently. Adrastra is the latest. I am not responsible for her, as you would have known had you waited a minute—"

"Then prove it," said Hermione. "Put her out of the house!"

"You mean, just put her out to starve or die of suffering?" said Helen. "Yes, that's what I mean!" said Hermione.

"At times, as I've always remarked, you resemble your aunt," said Helen, "but I never saw the likeness so strong."

"The resemblance doesn't interest me, and I can't admire your attempt to divert the conversation," said Hermione. "This revelation of the conditions in our house has put me beyond patience. Ever since that girl came she has been flirting with Damastor, a nice boy, thoroughly unspooled, until she led him astray. I don't see why we should lead our good name— I won't lend mine—to shelter her and her vulgar instincts!"

"Have you talked with her since you heard the news?" said Helen. "I wouldn't be seen talking to her!"

"Then do it surreptitiously. You could profit by it—any of us could. You can't imagine yourself in her place, can you? Abandoned by a man you trusted— Orestes, for instance—and become a theme of household gossip?"

"I certainly can't imagine myself," said Hermione. "You can't imagine me either!"

"I don't try to," said Helen. "The point I would make is that until the thing happened to her, Adrastra, like you, could not imagine herself caught in such misery. That's life, daughter. Most of us are hard on others because we are unimaginative."

"Did you warn her of this possibility when you were telling her to cultivate the love of life?" said Hermione.

Menelaos laughed. "I warned her against the love of Damastor," said Helen, "just as I tried to teach you the love of life, and advised you not to love Orestes. You, both, in different ways, thought you knew better than I. But I'd like to ask you a question. When you entered just now you told us you had hurried in as soon as you heard the news. Who gave you the news?"

"Charitas," said Hermione. "She wasn't gossiping; it came about in the most natural way. I stopped in there for a minute, and she had to explain Damastor's absence. She feels very bitter about the whole thing."

"Did she imply in any way that Damastor may have collaborated in wrong-doing?" said Helen. "Certainly not!" said Hermione. "You can't blame a mere boy, in the hands of such a person. That kind of woman can do what she likes with a man, anyway."

"Oh, I don't know!" said Menelaos. "It depends on the man."

"And on the woman," said Helen. "But tell me, Hermione, did Charitas say what provision she will make for her grandchild?"

"For her what?"

"There's going to be a child, and Charitas is its grandmother. Haven't you visualized the whole situation? Charitas has—that's where the sting lies. Her mind

said city duly submitted to and approved by the legal voters of said city at a special election held for said purpose on the 28th day of June, 1927, and issued pursuant to Ordinance No. 2264, passed and adopted by the Common Council on the 6th day of September, 1927, authorizing the issuance of \$100,000 of said bonds bearing interest at the rate of 4-2 per cent per annum payable semi annually on the first day of September of each year. Said bonds will be sold for not less than par and accrued interest.

Each bidder will be required to file with his bid a certified check for 2 per cent of the par value of the bonds, made payable to the City of Salem, which will be forfeited to the City of Salem in case the bidder to whom the bonds are awarded shall fail or refuse to accept and pay for such bonds.

The legality of said bonds have been approved by Messrs. Teal, Winfree, McCulloch and Shuler, Attorneys, Portland, Oregon.

The right is reserved to reject any and all bids. M. POULSEN, City Recorder, 10-11-13-14-15

NOTICE OF INTENTION TO IMPROVE THE ALLEY IN BLOCK 4 OF COMPTON'S ADDITION TO THE CITY OF SALEM, MARION COUNTY, OREGON, FROM THE NORTH LINE OF COLUMBIA STREET TO THE SOUTH LINE OF GROVE STREET.

Notice is hereby given that the Common Council of the City of Salem, Oregon, deems it necessary and expedient and hereby declares its purpose and intention to improve the Alley in Block 4 of Compton's Addition to the City of Marion County, Oregon, from the north line of Columbia Street to the south line of Grove Street, in the City of Salem, Marion County, Oregon, at the expense of the abutting and adjacent property, except the street and alley intersections, the expense of which will be assumed by the City of Salem, Oregon, by bringing said portion of said street to the established grade, constructing Portland cement concrete curbs, and paving said portion of said street with a hard surface pavement, a six-inch Portland cement concrete pavement, 30 feet in width, in accordance with the plans and specifications therefor which were adopted by the Common Council on the 15th day of August, 1927, now on file in the office of the City Recorder, and which are hereby referred to and made a part hereof.

The Common Council hereby declares its purpose and intention to make the above described improvement by and through the Street Improvement Department of the City of Salem, Oregon.

By order of the Common Council the 15th day of August, 1927. M. POULSEN, City Recorder. Date of first publication September 10, 1927. Date of final publication September 22, 1927. s10to22inc
