

Cycle Practicability Stressed in Exhibits

Harry W. Scott, the "Salem Cycle Man," has a display of Harley-Davidson motorcycles including the single sport, solo twin and side car, and the very latest new parcel delivery "truck."

All of the motorcycles displayed are equipped with fore-wheel brakes. The features stressed in Mr. Scott's display is low mileage cost of transportation and the speed with which deliveries can be handled.

Assisting Mr. Scott with the display is Frank Hurst, district representative for the Harley-Davidson company, and two salesmen, Wayne Taylor and Ed Hurstman. In addition to his headquarters here, Mr. Scott now has a cycle shop in Roseburg.

GARDNERS ON DISPLAY

Barrett Brothers have a display of Gardner cars in the automobile building. They include a 75 sedan, an 80 sedan, and an 85 sedan. Arthur Taylor and Ray Albee of the Albee Motor Car company, Portland, are assisting with the display.

PACKAGE TRUCK FEATURE

Most people think of the motorcycle as a passenger carrier only, but one of the displays featured by Harry Scott, local "cycle man" shows the practical value of the Harley-Davidson package truck as a business adjunct. This motorcycle with a side-car which can have any shape or style of body for carrying packages or merchandise, is one of the novel displays at the auto show.

The population of the United States in 1900 was 89,000,000, automobile registration 8,000; in 1926 population was 115,000,000, motor vehicle registration 22,000,000.

"Tomboy" lingerie, consisting of shorts, brassieres and a combination of the short with chemise top, made in red and white line checked material, are popular with the "younger set."

JARDINE EXPECTED TO STAY IN OFFICE

President Coolidge Issues Statement on Agricultural Secretary

WASHINGTON, Sept. 27.—(AP)—President Coolidge is counting on the continued assistance of Secretary Jardine in dealing with the administration's farm problems and does not expect the agricultural secretary to yield to the overtures of a group of Florida fruit growers who would like to have him head a citrus cooperative association.

The president authorized the statement Friday that he not only expected Mr. Jardine to remain in the cabinet but had great confidence in him and in his conduct of the department of which he is head. It was said at the White House that the president was particularly impressed with the manner in which the secretary had reorganized the department with a view to greater efficiency.

The White House pronouncement followed by a few hours a public demand by Representative Wilson, democrat, Mississippi, that Secretary Jardine be asked to resign because of the recent agricultural department statement on cotton price trends. No direct notice of this demand was taken by White House officials, however, and there was every evidence that the administration

would regard the cotton statement and its effect on the cotton market as a closed incident.

PICTURE FOLK POISONED

City Health Department Makes Thorough Investigation

LOS ANGELES, Sept. 27.—(AP)—The city health department ough investigation into the illness has announced that after a thorough search, mainly motion picture people, as the result of eating box lunches from the same source, they had determined that meat sandwiches were the cause.

Apples imported from outside of the state, and carrying traces of arsenic spray, which were found in the box lunch establishment, at first were held to be the probable cause of the illnesses. But the officials said that after considerable checking up, they had found that none of the persons affected had eaten any apples.

RICH HEIR DISAPPEARS

Richard J. Reynolds Found Missing; Foul Play Suspected

NEW YORK, Sept. 27.—(AP)—The New York Times reported today that Richard J. Reynolds, 21, president of Reynolds Airways Inc., of Winston-Salem, N. C., oldest son of the late founder of the R. J. Reynolds Tobacco company and one of the five heirs of a fortune estimated at \$50,000,000 disappeared here 11 days ago.

The unsuccessful efforts of relatives, friends and private detectives to find him have aroused the fear that he had met either with an accident or with foul play from persons who might have known that he had several thousands of dollars in cash with him.

ACTOR'S WIFE SUES

MARGARET WHITE KEENAN DEMANDS DIVORCE DECREE

LOS ANGELES, Sept. 27.—(AP)—Frank Keenan, veteran actor, playwright, and director has been made the defendant in a suit for divorce filed by his wife, Margaret White Keenan.

The suit recounts that when the Keenans were married in Honolulu in June 1924, the actor was 68 years old and the bride was 23. Mrs. Keenan charges in her complaint that the actor promised her half of his real and personal property if she would give up her profession as a musician and marry him.

The couple separated September 11, last. The wife's suit charges Keenan with often being intoxicated, disqualifying him frequently for his work.

Declaring that Keenan was a film actor, director and author

had been capable of earning \$7,000 a month, Mrs. Keenan asks \$500 a week alimony and \$3,900 for attorney fees. She declares her husband has stocks and bonds worth \$40,000 and personal property valued at \$60,000.

CHURCHMEN NOT LET IN

Government in Ecuador Issues Decree Excluding Ministers

QUITO, Ecuador, Sept. 27.—(AP)—The Ecuadorean government has issued a decree forbidding the entry into the country all foreign churchmen, irrespective of religious faiths.

The decree, by President Ayrora, reads: "In conformity with article 5 of the religious laws, the immigration of clergymen, individually or collectively, is prohibited."

The minister of the interior in exceptional cases may permit the entry of foreign churchmen for a period not exceeding forty days.

QUAKE LOSSES HIGH

MOSCOW, Sept. 27.—(AP)—A preliminary estimate of the losses to property caused by the recent earthquake in Crimea places the amount at 32,000,000 rubles (about \$16,000,000).

Fresh water can be dipped from the Atlantic Ocean for a distance of 50 or more miles off the coast of Brazil, according to an answered question in Liberty. This is due to the enormous amount of water that pours out of the mouth of the Amazon River.

Sharpens Itself

More Shaves per Blade but Best of All, Each Shave With a Newly Sharpened Blade

THIS is the story of the only self-sharpening razor.

It is world famous. Men everywhere know the Valet AutoStrop Razor. Unto the far corners of the earth, men take it to insure super-shaves.

It satisfies perfectly two primal demands—speed and comfort.

Get out of the habit rut and switch to the Valet AutoStrop Razor. To shave with it for a trial is to shave with it always.

Men everywhere are learning the superiority of a super-keen blade.

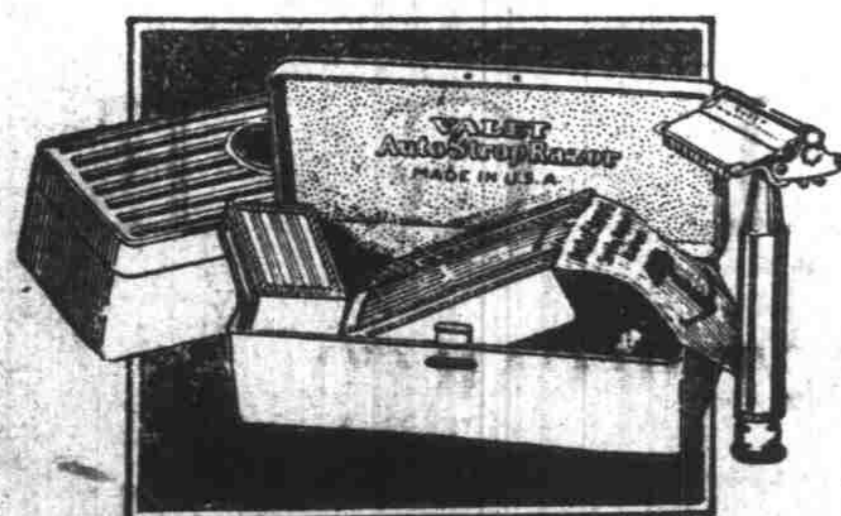

The popularity of the Valet AutoStrop Razor is irresistible—its users are getting finer shaves than ever before.

Why not join this satisfied legion?

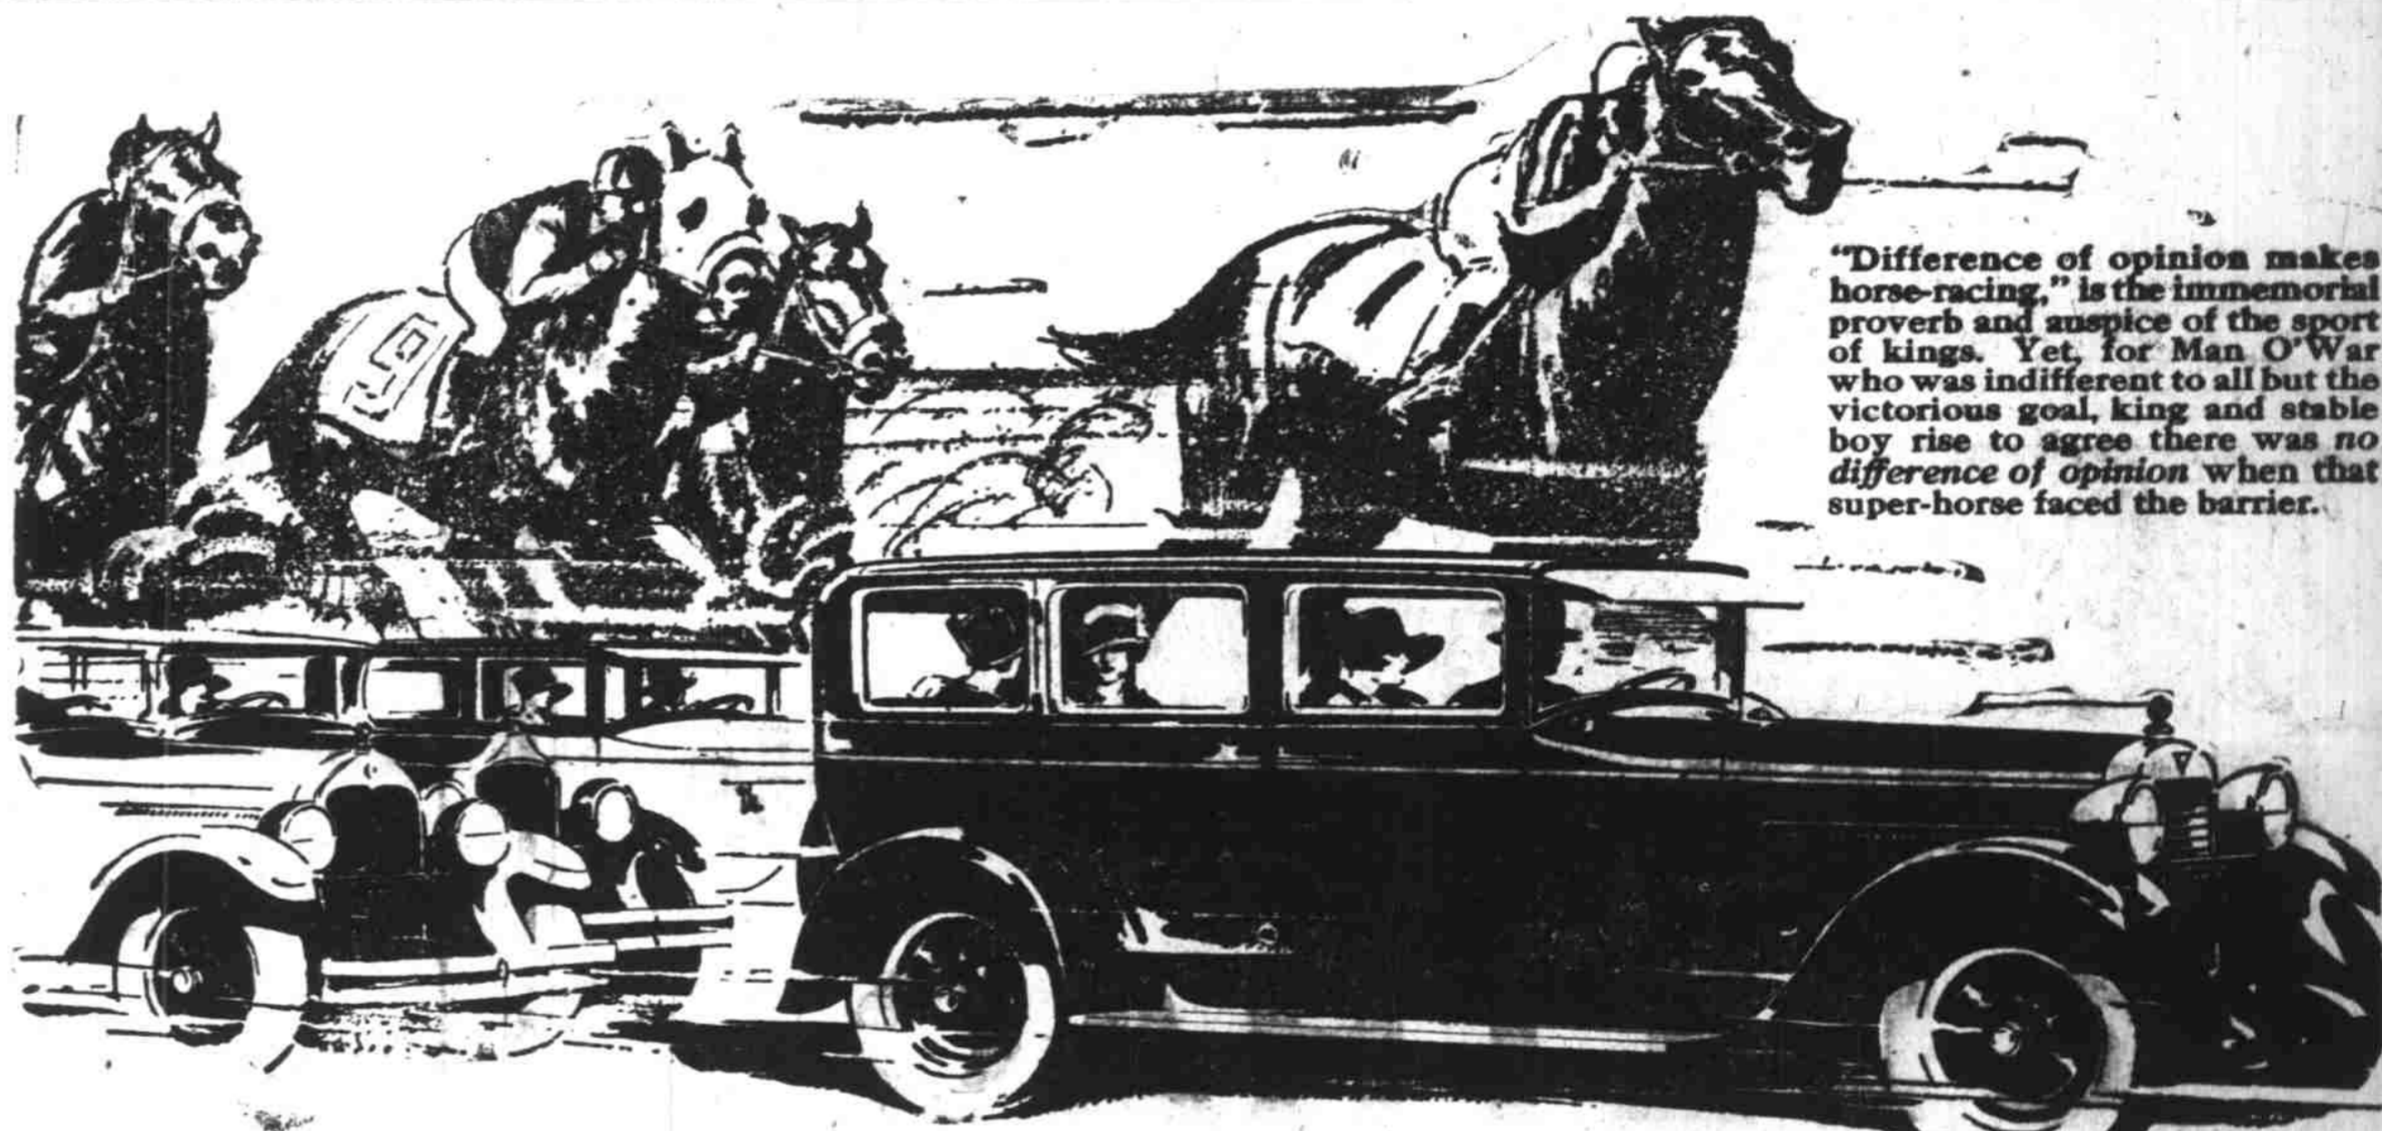

AutoStrop Safety Razor Company, 656 First Avenue, New York City

The RAZOR That Sharpens Itself

"Difference of opinion makes horse-racing." is the immortal proverb and auspice of the sport of kings. Yet, for Man O'War who was indifferent to all but the victorious goal, king and stable boy rise to agree there was no difference of opinion when that super-horse faced the barrier.

No Difference of Opinion When Supremacy is so Outstanding

In its repertoire of brilliant abilities, the New Hudson Super-Six asserts its supremacy in vivid performance facts that stand free and clear of opinion or debate.

Here is a new power in motordom—totally different in development and expression—totally new in range and efficiency—the smooth and mighty power of the steam engine delivered with silky ease and vivacity.

From standing start the New Hudson Super-Six takes the full shot of power, with no suggestion of lurch or stagger, mounting to high speed with greater smoothness and rapidity than any stock car we know, regardless of size, number of cylinders or price.

The basis of this great Hudson capacity is a new companion invention to the Super-Six principle which turns waste heat to power. Together they combine the highest efficiency in power generation and transmission ever achieved within our knowledge. It makes Hudson the most economical car per pound weight in the world.

In the new Hudson motor, spark knock heretofore characteristic of the high-compression motor is eliminated.

Ordinary gasoline gives the performance results sought through special and higher-priced fuels. By Hudson's method of vaporizing raw gasoline that enters the combustion chamber, oil dilution is prevented, and heat formerly wasted through the exhaust becomes useful power.

It is receiving the greatest public reception in Hudson history, because in all ways it is the greatest Hudson Super-Six ever built.
