

SCUTCHING PLANT PART IN PORTLAND

But the Most Important Part Not Yet Shipped, Though Long Over Due

"One crate of agricultural machinery shipped from Antwerp for delivery to the state flax industry, at Salem, is shown on the inward manifest of the Dutch steamer Grootendyk of the North Pacific Coast line, which is due at Portland Monday."

The above shipping news item appeared in a Portland paper of a day or two ago. This means that part of the scutching plant for the state flax industry, that was ordered several months ago, has arrived in Portland.

But it is not the most important part. That has not yet been shipped, though its shipment was promised a long time ago, and by one of the greatest of the manufacturing concerns in England.

Col. W. B. Bartrum, in charge of the state flax plant, is chafing under the failure of the arrival of the rest of the machine, for when it is here and at work it will make a great saving, both in the cost of scutching and in the amount of fiber recovered, and also in the quality of the fiber turned out.

REVIVAL FIRES BURNING (Continued.)

Mother Kennedy brought a very powerful message last night, at the Evangelistic Tabernacle, to an audience of several hundred people. She took for her text the 47th verse of the 24th Chapter of Luke, "And that repentance and remission of sins should be preached in his name among all nations, beginning at Jerusalem." She pointed out that this message was and will be to all the world; and that a message without repentance is not biblical.

The Holy Spirit, she said, was not promised only to the few who heard His sweet voice and who labored with Him while He was present with them, but also to those who repent of their sins and accept the blessed invitation to be filled with the Holy Spirit.

A great conviction rested upon the audience, and many came for salvation, and others for consecration. Mother Kennedy will speak on various subjects this week, which will be of interest to every one. Miss Kharvina Burbek, her secretary, will render special messages in song at each service.

200 LEGIONNAIRES GREET MUSSOLINI

Rousing Reception Staged For Americans Among Throngs at Rome

ROME, Sept. 27.—(AP.)—Rome gave a rousing reception tonight to a party of more than 200 American Legionnaires, headed by National Commander Howard P. Savage, when they arrived at the central station in two special trains from Pisa. Scores of American and Italian flags were flying, and Esedra Square, which faces the ruins of the famous diocletian baths, was filled with thousands of cheering men and women. Blackshirts predominated, and, as the trains pulled into the station, bands played the Star Spangled Banner and Gioveanezza, the Fascist hymn.

As the Americans marched under a sea of flags, the black banners of the militia and syndicalist groups were lifted high in the air by hundreds of hands. Again and again the blackshirts lustily gave their staccato cheer, "Eja, Eja, alala!" The visitors caught the spirit and answered with a snappy, "Hip, hip, hurrah!"

"Long live America! Long live our brothers in arms!" leather-throated youths roared above the din of the bands, and kept up their cheering for ten minutes.

Carried away by the enthusiasm of the welcoming crowds, many of the Americans stretched out their Roman salute, cheering for Mussolini.

"And for the new little Mussolini," one of the American women called out.

Surrounded, or rather propelled, by closely packed masses of enthusiasts, the legionnaires surged into Esedra square, where in a fleet of motor cars they embarked for various hotels, accommodations having been provided in advance.

1000 AT MONMOUTH REGISTRATIONS TO PASS THAT FIGURE, DECLARED

OREGON NORMAL SCHOOL Monmouth, Sept. 27.—(Special.)—Incomplete registration at five o'clock Monday afternoon at the Oregon Normal school at Monmouth shows a larger enrollment than that of last fall, according to the registration committee. Approximately 950 students were scheduled by the committee in charge of that work Monday, and it is estimated that the late arrivals will easily raise the enrollment past the thousand mark. Total enrollment at the normal last fall of 941 compared with today's incomplete registration verifies the fact that the Monmouth institution is growing rapidly.

More than 500 freshmen took the entrance examinations on Saturday. Regular classroom work will begin tomorrow at which time a large group of students will begin their practice teaching work in the various training centers.

President Landers called the first meeting of the normal school faculty on Saturday. The work for the coming year was briefly

outlined by the president, who urged his teaching staff to study carefully and think through the new course of study just adopted at the normal.

He stressed the necessity of their continued cooperation in order to obtain the constructive type of work desired in a teacher-training institution. Indications point toward the opening of a splendid year's work.
