LAST DAY OF THE KNEE COASTER RACE

Also the Last Day of the Big Extra Vote Offer; You Must Hustle

Honor Roll

Robert Long, No. 1.
Noris Kelsey, No. 2.
Robert Eyre, No. 3.
(By Radio Contest Editor)

Who is the best hustler in the Radio Bicycle Contest for boys and girls? Which candidate will win the magnificent knee-coaster for doing the best work this week ending at six o'clock?

Loss no time pondering over these questions. Let George do the pondering. The best policy is to devote your entire time today to securing everybody's subscription and second payment. It might be that the race for the special radio will be close, and a few more promised subscriptions are just the number you will need to be declared the winner.

The winner of the Knee Coaster will be announced in Sunday's issue if possible, but if not possible it will be announced in Tuesday's issue.

All votes secured while working for the Knee Coaster will count for the Radios, Bicycles and other awards. The future schedule will be less than for this week, so do your utmost today while the larger schedule is in force.

All candidates residing in Salem or rural sections can work up until the last minute of the special vote offer, and the candidates residing out of Salem must have their subscriptions in the postoffice in their home town not later than six p. m. tonight.

Herbert Morley, who has been a little slow in the last few days, has started up in earnest again and is going strong.

Leon Mickenhain was playing on the street corner when the contest editor came around to see him and at his suggestion decided to start out and work as a result, he secured \$8.50 worth of subscriptions. This shows what a boy can do when he works.

Robert Long came along with a bunch of subscriptions today, and this put him right up among the top notches. Robert has wonderful ability in getting subscriptions and collecting, and if he could only realize it and would apply himself consistently for the next few weeks it would take a very exceptional candidate to beat him. I would like to advise Robert to make a consistent effort for the remainder of the contest, because he has sure got the goods if he will work.

Norris Kelly, a new candidate is doing wonderful work and promises to be a serious contender when the prizes are passed around.

Back to Nature

Health authorities everywhere are advocating more of a natural diet—natural and unrefined foods—raw fruits and vegetables—vegetables cooked in specially constructed utensils with little or no water added—foods requiring thorough mastication—whole grains, etc.

They call attention to the health promoting value of the natural mineral salts found in such foods and the benefits to be derived from such practice.

Common sense tells us that these theories are sound and logical. We know that we should be more careful in the foods we choose.

But—this is the twentieth century. We have our refined and devitalized foods—white sugar—white flour—polished rice and similar products. We like our soft and over-cooked foods—mashed potatoes—gravies—pastries—deserts—delicacies—foods that tickle the palate and please the taste, with little thought given to the actual needs of the body. Many of us must eat in restaurants where only such foods are available.

Under these conditions, how are we to supply Nature with the vital working and building materials—natural iodine for the glands—natural iron for the blood—natural magnesium for the nerves—natural chlorine—potassium—sodium—etc? How are we to maintain the normal chemical balance to insure the natural harmony and proper functioning of all organs—to maintain a rich and healthy blood stream to enable Nature to combat ailments common to this age?

Here is the answer.

PACIFIC HEALTH-ORE
