

### POLK COUNTY FAIR OPENING SET TODAY

#### Eight Communitites Taking Part; Schools Have Interesting Exhibits

DALLAS, Oct. 12.—(Special)—The fifteenth annual Polk county fair will be held at Dallas, on October 13, 14 and 15. Indications are excellent for the best fair ever held in Polk county.

Eighth communities, as follows, will exhibit. Brush College grange, Oak Point community club, Falls City community club, Monmouth grange, Suver grange, Liberty Bell local, Mt. Pisgah local and Eola community club. Two individual farmers, who have been competitors in previous years, will put in individual farm exhibits. They are Uncle Billy Wright, Independence, Ore., and William F. Lee, Falls City, Ore.

The following schools will also put in booths of school work: Dallas, supervised by R. R. Turner; Falls City supervised by F. J. Patton; Perrydale supervised by T. O. Davis; Rickreall, supervised by Oma Belle Emmons; Hopville, supervised by Mrs. Edna Grant; Oak Point, supervised by Pearl

Eyre and Zena supervised by Mrs. W. D. Henry.

Supt. P. O. Powell, of the live stock department, is planning on a big exhibit of live stock and competition is expected to be keen among the boys and girls calf club work.

Supt. L. H. McBee, who has charge of the agriculture and horticulture department, has had many inquiries concerning agriculture and horticulture which is expected to be larger and better than any display in previous years.

Supt. L. D. Brown, who has charge of the concessions, has secured a merry-go-round and ferris wheel for the entertainment of the children.

Supt. Mrs. C. E. Cooper has had many inquiries concerning domestic science and a good exhibit is expected along that line.

Supt. Mrs. Conrad Stafrin, whose fine arts department has grown rapidly during the last few years, has found more interest in that department and is expecting a larger exhibit this year. Mrs. W. D. Collins, who is superintendent of the domestic art department, reports prospects for a bigger exhibit in her department, while Mrs. Eugene Hayter, superintendent of the cut flowers department, expects an excellent exhibit of flowers.

T. C. Stockwell, chairman of the horseshoe pitching contest, has reported that many contestants from Polk county, are practicing every

evening for the contest which he feels sure will be one of the most interesting events for the county fair.

Mr. Alfred W. Loy has arranged for two football games; one Dallas against Oregon City, the other Independence against Junction City and will be held on Friday and Saturday afternoons at the fairgrounds. All people who hold season tickets, may see the ball game free of charge.

Many inquiries are being received by the secretary, Josiah Wills, concerning the Health and Beauty show which will consist of the following divisions: Division I, high school students; Division II, students from fourth to eighth grade inclusive; Division III, pupils from the first to the fourth grades inclusive.

There will also be an excellent exhibit of club work consisting of sewing, cooking, canning, corn, potatoes and garden exhibits. The club boys, who won first place at the state fair on their honey project, will also make an exhibit at the Polk County fair. The live stock boys will also make an exhibit.

### PRUNPORT SHOULD GIVE BIG OUTLET

(Continued from page 10.)

healthful drink in PrunPort, which is an excellent beverage for universal consumption.

"PrunPort is a wonderful drink in itself. It is produced from

prunes carefully selected, sorted and processed under a secret formula which was the result of nearly five years continued effort. The Major Fruit Products company is the living, throbbing and animate monument to the unselfish devotion of man to the welfare of men.

"The financing of this great potential enterprise so necessary to the very life of the second great industry of the Pacific northwest was largely through the efforts of the prune growers themselves, with the assistance of several business men who were early to recognize the necessity of immediate assistance to the prune industry. We, each of us, have been hearing about the problems of the prune growers, but we read the reports with but mild interest. It seemed detached from our everyday problems, so we turned from the report of prunes unsold to more merry news.

"But I left that plant of the Major Fruit Products company with a firm resolution to never show lack of interest in the marketing and distribution problems of the prune growers. I am going to help and help all the time."

**The Fountain Syrup**  
Undoubtedly the most important development in this great undertaking is the perfecting of a PrunPort fountain syrup. Not only can PrunPort, the beverage, be made at the fountain, but this syrup also may be used in making the most delicious milk shakes,

malted milks; sundaes, parfaits, ice cream sodas, and in fact, practically any fountain combination. Fountain combinations of PrunPort syrup may be obtained at the Spa, Harry Ralph's, and the State Card Room, in Salem.

### SOCIETY

(Continued from page 9.)

School was the speaker of the evening. His subject was, "The Meaning of Adult Education."

Mrs. E. B. McNaughton, president of the Portland Y. W. C. A. board presided at the meeting Wednesday morning, which opened at ten o'clock, with devotions by Mrs. Thomas A. Verdenius, who will be in charge of all devotions for the conference. Miss Mary Sims, national executive of the city department, spoke on the "Y. W. C. A. as a Phase of Education."

In the afternoon Mrs. J. L. Greenwell, president of the Seattle association board of directors, presided, and Miss Marcia Seeber, of the national student council, spoke on one of the convention issues—that of "Basis of Membership for Student Associations."

Miss Sims spoke on "Administration of Personal Basis." At eight o'clock last evening Miss Ruth White, formerly general secretary in Pekin, China, spoke to the delegates. Mrs. T. D. Burger, president of

the Spokane Y. W. C. A. board, will preside at the session this morning at which Miss Sims will speak on "Our International Responsibilities." For the afternoon, Miss Mary Remy of the Yakima, Washington board of directors, will preside. Miss Pauline Schaefer, national finance secretary, will speak on another convention issue; that of finances, and Miss Sims will tell of the "Relation of Budget to the National Program."

Mrs. J. M. Richards will be in charge of the business session. While the conference is planned for volunteer workers, everyone interested is invited to attend any of the meetings, which are designed to explain the wide spread activities of the Y. W. C. A.

### A Word to the Wise

The pint-sized pooch lattered about the hobo's heels and yapped its tiny best.

"Heh-heh! Wot good's dat dog?"

"To keep off tramps," indignantly replied the nice old lady.

"Well, now, dat is a good laugh. Wot kin dat little runt do?"

"He barks and wakes up the big dogs under the porch."

"Y-e-s, m-n-m, good-day, mam."

### SCOUT DINNER HELD

#### INTEREST IN PROGRAM AT MONMOUTH FOSTERED

OREGON NORMAL SCHOOL, Monmouth, Oct. 12.—(Special)—Sixteen Monmouth men and women were guests at a dinner party given by the local Boy Scout organization at the scout cabin on the Lucklamute river this evening. The dinner was given with the purpose of arousing added interest and help in sponsoring the scout organization.

Heretofore, the official committee of business men have taken the initiative in the scout movement and it is now hoped the community as a whole may become sufficiently interested to sponsor the work in cooperation with the organization.

The hosts of the evening were: E. A. Rozeboom, scoutmaster; R. R. Brand, assistant scoutmaster; and the official committee of local men and women who have backed the scout movement for the past two years. Guests included Messrs. J. S. Landers, A. B. Morlan, Alvie Craven, J. E. Winogar, Jim Riddle, F. E. Chambers, M. Mack and Miss Maud Macpherson; Messrs. Ira Powell, A. S. Staunbrough, Jes Ayres, Otis Caef, P.

H. Johnson, F. E. Murdock, Dr. C. G. Stem and Dr. F. R. Bower-son.

Beauty here  
is more than  
"skin deep"

Outstanding  
improvements

In designing and making this radically different type of heating equipment, Montag has gone further than merely to put an old-fashioned stove into a cabinet. Its beauty goes right through; it's as handsome inside as it is outside. And here "handsome" is as handsome does".

The inside of the Montag Circulator is the outgrowth of ripe experience in stove making and with the peculiarities of Western fuel and climatic conditions. No wonder it has proven itself able to deliver a larger volume of heat at less cost, and it is built to last indefinitely.

The Montag Circulator circulates warm air, same as the Montag Furnace. Only, instead of being built-in to your home, the Circulator is portable.

Think of what this means!

- No basement required—it fits right in with the living room furniture.
- No heavy installation cost to add to price.
- May be stored away in summer time if desired.
- Take it right along with you, should you move to another home.
- For farm or town homes without basements, and already built, it is ideal. In building a new home the expense of building a basement is eliminated.
- And its heating capacity is really remarkable, because the warmth is distributed, by a current of air put into slow motion by the Circulator heater itself, throughout the entire home.

## Combining a new beauty with a new heating efficiency

# MONTAG CIRCULATOR heater

### A portable, circulating, warm air heating plant for homes, stores, halls, shops, etc., with or without basements

Here is something new indeed. A radical departure in beauty of design and in heating efficiency.

The new Montag Circulator is a fine piece of furniture—fits into the loveliest home. Not a black cumbersome thing jutting into the room, nor yet a scramble of bulging curves and ornate castings.

The Montag Circulator is a trim, handsome cabinet, in simple, straight, harmonious lines—apparently of richly grained walnut. Really, it is of sturdy cast iron construction, three times coated with baked-on porcelain enamel for a lasting, easily kept clean, perfectly smooth surface.

Many vital improvements in design and construction are notable.

- The inside—firepot, radiating dome, and ash pit—is of cast iron furnace construction, fitted together with self-sealing cup joints.
- The famous Montag oval firepot—17½ to 19 inches long at the grate—burns coal or wood with a greater efficiency and at lower cost than other types.
- The corrugated dome nearly doubles the radiating surface.
- The baffle plate keeps the heat from rushing up the chimney—increases the "fire travel", gives more heat from the same fuel.
- The fire and ash pit doors are ground to fit tightly, making it possible to hold fire for 24 hours or longer.
- The humidifier is scientifically placed, allowing sufficient moisture for healthful warmth without overburdening the air with vapor. It is easy of access and of ample capacity for 24-hour service without refilling.
- Large ash pan means less frequent need for emptying.
- Ash pit is unusually deep, allowing unrestricted draft.
- Smoke screen keeps smoke from room when door is open for fueling or for a "hot spot" of direct heat to warm cold hands or dry damp stocking feet.
- Extra large fire door accommodates large chunks of coal or wood.
- And with all its big heating capacity—the 4-inch free air space between dome and casing, prevents overheating of the outer surfaces. This extra clearance allows the ascending column of air (taken off the floor) free circulation in large volume—frees the Circulator from any tendency to become "air-bound".
- The cost of the Montag Circulator is low. Made in the west, excessive freight charges are eliminated, giving a larger measure of quality and lasting value.

### Now being displayed

These Montag Circulators are now displayed for your examination. There is a size for your particular requirements, and we have a trade-in-your-old-stove plan that will give you a special advantage. No use to wait for cold weather; provide for healthful warmth now.
