

FIGHT FILM LEGAL TO EXHIBIT IN N. Y.

Decision of U. S. Judge Expected To Affect Other Federal Districts

NEW YORK, Oct. 20.—(AP)—The controversy over the legality of exhibiting the Dempsey-Tunney fight films was settled for New York state, at least, today when Federal Judge Goddard handed down the opinion that the law does not forbid exhibition in this or any other state.

The judge said an exhibitor may receive films from a person whom he knows to have violated the law in transporting them into the state but as long as the receiver takes no part in the transportation, he is not accountable. He explained, however, that a person may not with impunity receive fight films from another state through the medium of the mails, an express company, or other common carrier.

Judge Goddard's opinion was based on three questions, which he was requested to answer by the federal grand jury which is attempting to pin the responsibility for the bringing of the films into this state, as federal law forbids interstate transportation of fight films.

First, the grand jury asked, is the exhibition of the fight film brought from another state illegal? The judge answered no.

Second, the jury asked, is it an offense to receive a fight film from one who has transported it

into this state, if he is not an agent of an express company or common carrier? The judge's answer was no.

Third, the jury asked, if a person receiving a film from someone he knows to have violated the law in bringing it into the state, although the receiver had no part in it, is guilty of aiding or abetting in the illegal transportation, or of being an accessory? Again the answer was no.

No 'Melon' To Be Cut By Telephone Company

DALLAS, Texas, Oct. 20.—(AP)—Sounding a new note in American business, Walter S. Gifford, president of the American Telephone and Telegraph company, told members of the National Association of Railroad and Utilities Commissioners' convention here today that it was against the policy of his company to earn speculative or large profits for distribution as "melons" or extra dividends.

The statement, it was believed, would set at rest rumors in Wall street that the American Telephone and Telegraph company would cut a "melon" soon.

"The fact that the ownership of the American Telephone and Telegraph company is so widespread and diffused imposes an unusual obligation on the management to see that the savings of those 420,000 stockholders are secure and remain so," Mr. Gifford said. "The management also is under an obligation to see to it that the service at all times shall be adequate, dependable and satisfactory to the user."

PORTLANDER PICKED
SEATTLE, Oct. 20.—(AP)—Thomas L. Branford of Portland was among the four Rhodes scholarship candidates at the University of Washington who passed the preliminary examinations Monday, it was announced tonight.

SUDDEN DEATH OF HERMAN BUECHE

Herman Bueche died at Underwood, Wash., on the night of October 14th, according to information sent by his brother of that place to Prof. W. I. Staley of Salem. Mr. Bueche was a civil engineer and surveyor. He was well known in the Santiam mining district, where he did work for the Northwest Copper company of Salem, and other concerns in that section, and many people in Salem knew him.

Underwood is in Skamania county, Wash., opposite the Cascade Locks. His brother writes: "Herman passed away the night of the 14th, or rather I found him dead in bed on Saturday morning. He was buried here in Underwood last Monday at 2 p. m. He had a large funeral. Lots of flowers. I miss him very much and can hardly believe it."

Three Indicted on Charge of Transporting Pictures

SAN FRANCISCO, Oct. 20.—(AP)—The federal grand jury here today indicted three men on a charge of conspiring to bring the Dempsey-Tunney fight pictures into California. Those indicted were Harry Burke, former city editor of the New York World; H. W. "Bidy" Burke, his son, and J. J. Moore.

The acting United States attorney announced that he had not pressed the jurors to indict W. P. Cullen, manager of the Capital theatre here, where the pictures were shown during an exhibition several weeks ago, or Ralph Pincus, publicity agent for the theatre.

The overt acts charged against Moore and the Burkes in the conspiracy indictment include renting

Work on Normal School At La Grande Ordered

The board of regents of state normal schools Thursday authorized the building committee to proceed with the landscaping of the grounds for the new Eastern Oregon normal school to be located in LaGrande. Nothing was said at the meeting as to when actual building operations would get under way.

A deed to the normal school site was presented to the regents by A. T. Hill and Charles Prayle, members of the LaGrande city commission.

At a previous meeting of the regents it was decided to defer construction of the new normal school because of the unsatisfactory condition of the state's finances.

The 1927 legislature appropriated \$175,000 to defray the cost of the first unit of the school, but no provision was made for raising the money.

A velvet toque draped exactly to fit the head, with the fullness drawn back and tied with a large knot, was a chic model seen recently in Paris.

ASSAULT CHARGED

D. STEVENS ALLEGED TO HAVE MADE THREATS

Deposition To Be Asked In Famous Bootleg Trial

WASHINGTON, Oct. 20.—(AP)—Attorney General Sargent and a number of others prominent in official circles will be asked to give depositions tomorrow for use in the insanity hearing of George Remus, one time bootleg king under first degree murder charges in Cincinnati for killing his wife, Mrs. Imogene Holmes Remus.

Testimony to show intimate relations between Mrs. Remus and Franklin L. Dodge, Jr., department of justice lawyer in the investigation that led to Remus' conviction, will be sought by Charles Elston, defense attorney who is accompanied by Carl E. Basler, Cincinnati prosecutor.

Elston asserted that he would uncover proof that Dodge and Mrs. Remus conspired to seize Remus' fortune and kill him and contended that the plotting had destroyed his mental balance, resulting in his shooting of his wife.

Officers relate that Stevens had been in the habit of purchasing numerous tokens of affection, including clothes, for Miss Blanch Ray, a waitress at the Oriental tea room. Stevens himself is a cook at the Terminal restaurant.

The rift in the clouds appeared, it is said, when Stevens reached the conclusion that Blanch was trifling with his affections. A meeting occurred at the Terminal and Stevens is charged with having threatened "I will kill you."

At the same time he struck her, according to the charges against him, and rendered her unconscious.

Congressman Wants More Airplane, Sub Equipment

WASHINGTON, Oct. 20.—(AP)—Construction of a submarine base at San Diego, Cal., and provision for another large airplane carrier in addition to the Lexington and Saratoga now under construction are suggestions that Representative Updike, republican, Indiana, said today he would make to the house naval committee, of which he is a member.

Declaring his conclusions were reached after a visit to every naval base in the United States, and inspection of naval activities in Hawaii, Guam, the Philippines, Panama, and China, the Indianan said he was convinced more officers of the construction corps should be stationed at naval posts.

Public Health Group Holds Smoke Nuisance

CINCINNATI, Oct. 20.—(AP)—Branding smoke as one of the greatest enemies to health the American Public Health association today adopted resolutions urging all state legislatures and municipal authorities to pass measures to suppress smoke nuisances.

The resolution declared that smoke produces serious effects upon health by keeping out the sunlight and intercepting the vitalizing rays of the sun and through its constant inhalation.

Other resolutions declared for the poorer sanitation of swimming pools and bathing places, urged greater effort for the early diagnosis of tuberculosis in its incipient stages, favored the coordination of public health activities of the federal government as planned by the Parker bill, and approve the principles of the Ransdell bill.
