November 9, 1927 Another parable spake he unto them: The kingdom of heaven is like unto leaven, which a woman took, and hid in three measures of meal, until the whole was leavened.

CHECKING FLAX INDUSTRY PROGRESS

There was an important tour conducted by the members of the state board of control yesterday through the industries at the Oregon penitentiary. The party conducted being representatives of the four daily newspapers of Portland, and Salem newspaper men.

They found much recent progress. They found in the machine shops a flax pulling machine being dismantled in order to get the designs for the building of flax pulling machines in that plant.

There is the making of long line (or "line" fiber, the turning out of the spinning tow, and the paper stock, and the upholstering tow, and ground seed for the drug trade, and the whole seed for the same trade, and for planting and the making of linseed oil.

And the new product in the shape of stock feed from the bolts and small seeds, etc. This will run to a value of \$125 a day, from by-products that were mostly formerly burned.

They found the management of the prison preparing to enter on the making of socks for that institution, which may lead to making socks for the other state institutions.

They found the making of long line (or "line" fiber, the turning out of the spinning tow, and the paper stock, and the upholstering tow, and ground seed for the drug trade, and the whole seed for the same trade, and for planting and the making of linseed oil.

They found all the other industries being brought up to a state of efficiency. There is a population of 608 at the prison, a high water mark, and every able bodied man is busy—and generally contented in being busy. And efficient.

They found the making of long line (or "line" fiber, the turning out of the spinning tow, and the paper stock, and the upholstering tow, and ground seed for the drug trade, and the whole seed for the same trade, and for planting and the making of linseed oil.

YOUTH SLAYS AND ROBS GRANDMOTHER

Mystery of Brutal Murder of Recluse Believed Solved Last Night ST. LOUIS, Nov. 8.—(AP)—The brutal robbery and murder of an aged woman recluse of Zwingle, Iowa, was solved here today, police believe, with the arrest of two nattily dressed youths who said they were Leonard Cota, 18, of Bennettsville, Iowa, and Harold Kramer, 19, of Great Falls, Montana. Police found \$27,000 in cash and a large amount of securities in their hotel room.

Aviation has developed, chiefly under the impetus of private capital, to a point where it now serves millions of people in this country, Drs. Sykes and Smith declare. The mail airways alone, on September 1, of this year, were serving 65,677,209 people.

Evidence of the tremendous progress made by aviation is found in the establishment of new airports. By the end of this year approximately one thousand airports and intermediate fields will be in existence in all parts of the United States. More than fifty airports have been recently completed while twice that number of cities have set aside funds or have begun plans for modern terminals.

The above, from the Dearborn Independent, the magazine of Henry Ford, makes up a summary that is interesting. And it is a reminder that Salem must be about the business of providing an adequate and convenient airport; one that will accommodate all kinds of flying machines.

The conquest of the air is going on; it will go on without end, and almost without limit. Henry Ford uses airplanes extensively in the transportation of parts between his factories and assembling plants throughout the country, and for other schemes of quick transportation. His vision shows him that the navigation of the air is one of the big things of this age, to grow bigger with the years.

Salem must do everything and be everything in the domain of a progressive city, bound to develop steadily into metropolitan proportions, and to so develop the more rapidly with such a progressive spirit as will direct our destiny along the most practically progressive lines.

There should be nothing too good for Salem, nor too big in the domain of conservative reason.

VERDICT TO STAND IN SANDE'S CASE

BALTIMORE, Nov. 8.—(AP)—Earle Sande today pleaded in vain with the Maryland racing commission for restoration of his jockey license revoked for alleged foul riding in the Pimlico fairity Friday.

Chairman James A. Latane, indicated Sande's suspension would continue indefinitely but would not be permanent. The noted jockey cried when he left the hearing.

He was accused of fouling Chick Lang, riding Reigh Cont, the favorite, in the fall classic. Sustaining charges of Pimlico officials, the commission disregarded Sande's statement and the testimony of three jockeys competing in the race.

"You have come here and spoiled one of our principal stakes by your foul riding," Latane told Sande. "There is no question in my mind but that you are guilty just as you have been charged, and I see no reason to change the decision at this time. We will give you careful consideration at the proper time."

Deeply affected, Sande waved his hands toward his brother jockeys, who had appeared in his behalf. Almost shouting, he said: "Aren't you going to give them credit for telling the truth? Gentlemen, I have not been given a square deal."

In his testimony Sande reiterated his statement that Chick Lang, coming up on the inside, had seized his blouse, pulling him against Reigh Cont. Jockeys J. McCoy and George Ellis supported Sande's statement. L. Morris, up on Glade, winner of the race, corroborated statements of the other jockeys. Sande reached for Lang only after he had been nearly pulled from his horse and then merely to save himself from falling, Morris asserted.

"I wish Ma had some other way of savin' me money. She always does it by buyin' something I can't afford." (Copyright, 1927, Publishers Syndicate)

Slush fund hinted before committee investigation under oath requested in efforts to repeal taxes

WASHINGTON, Nov. 8.—(AP)—Efforts of house ways and means committee members to trace the source of money used to defray expenses of witnesses advocating repeal of the federal inheritance tax were met today with a request from witnesses themselves if anything appeared wrong an investigation under oath be ordered.

While this was developing at the capitol, the advisability of retaining the levy came in for discussion at both the White House and treasury. At the executive offices it was said President Coolidge felt the estate tax was a legitimate levy, but that he was prepared to sign a bill for its repeal.

The treasury also took occasion to reiterate its arguments in favor of repeal of the tax and in addition, Under-Secretary Mills again warned that proposed total tax reduction should not exceed \$225,000,000. He said the department in setting this limit had been liberal in its estimates and that a compromise cut of \$325,000,000, as suggested in some quarters, undoubtedly would be felt in a deficit.

The meeting of the house committee with the inheritance tax question up for discussion developed into a stormy session. At one point Chairman Green begged for order, declaring proponents of repeal of the inheritance tax levy "backed" the committee room.

WILEY TAKES COMMAND Admiral Assumes Charge of U. S. Naval Forces

SAN PEDRO, Cal., Nov. 8.—(AP)—Admiral Henry A. Wiley officially took command of the United States naval forces today, when his four-starred flag was run up to the main truck of the battleship Texas. He succeeds Charles F. Hughes, who has been commander in chief of the fleet for two years.

The 17 gun admiral's salute was fired for the retiring sea chief and repeated for Admiral Wiley by the flagship California. On the Texas' deck were eleven admirals and eleven captains, said to have been the most imposing array of United States naval officers ever to witness a shift in command. Admiral Hughes left after the ceremonies for Washington where he will become chief of the bureau of naval operations.

SHOOT TO KILL ORDERED Bandits Run Wild in City of Seattle; Police on Guard

SEATTLE, Nov. 8.—(AP)—Police Chief W. H. Searing tonight issued "shoot to kill" orders in an effort to halt the operations of two bandits who are credited with more than a score of gasoline station and chain store holdups in the last month.

An hour later the pair continued their nightly parades by holding up a chain store. They fled with more than \$150 in cash. Police prowler cars have been equipped with shotguns in an attempt to curb the bandit operations.

HISTORIC LAKE ON RISE Varners in Sweden Reaches Level Above Any of 120 Years

GOTHENBURG, Nov. 8.—(AP)—The Swedish lake Varners, the second largest lake in Europe has risen to a higher level than in 120 years. Tremendous rains and swollen rivers emptying in the lake have made it inundate the cities of Karlstad and Kristinehamn and are now threatening other towns and villages along the shores.

STRIKING WINS AGAIN SPOKANE, Wash., Nov. 8.—(AP)—"Young" Scibling of Maccon, Ga., tonight slammed Angus Snyder of Winstep, for a decision in six rounds as the main event of an athletic club card at Dishman, Wash., and thereby advanced his claim to the heavyweight championship of Canada. Scibling weighed 178 and Snyder 184.

MUSIC UNIVERSAL Man of Every Age and Race Have Appreciation, Claim

NEW YORK, Nov. 8.—(AP)—The caveman rattling the bones to his savage bride in a prehistoric den had its only music and his own music room, Frank Alvah Parsons, president of the New York School of Fine and Applied Arts, declared today in an address at Aeolian Hall.

"Music, the most abstract expression in art," he said, "also is the most universal. The caveman and the cannibal; the rotic saint and wicked potentate all loved music and had a room for its enjoyment—the caveman his hut, the savage his jungle, the saint his cathedral and the monarch a room in his palace."

Modern man, he said, is evolving his own music room in which the fundamentals of harmony should appear in democracy as a background for the harmony that is music.
