Dorothy Gray
For Relaxed Chin Muscles

advises a balanced combination of nourishing skin foods and astringents. Skin foods should be carefully selected according to whether the skin is dry or oily and should be followed by an astringent that will not dry the skin.

But most important of all, the sluggish circulation must be stimulated if the muscles and tissues are to resume their natural functions and the skin again become glowing active.

Miss Gray has invented a Rubber Patter which if used in connection with creams and astringents will stimulate circulation and rejuvenate muscles and tissues.

Dorothy Gray recommends

If the face is dry and thin: apply SPECIAL SKIN FOOD and with a Dorothy Gray Patter pat gently under the chin and all over the face for ten minutes daily—note the result in two weeks!
If the face is dry but plump: apply TISSUE CREAM and pat firmly under the chin and lightly all over the face for ten minutes daily—note the result in one week!
If the muscles are relaxed: apply at night either SPECIAL SKIN FOOD if the face is thin or TISSUE CREAM if the face is plump and pat with a Dorothy Gray Patter for ten minutes. In the morning pat RUSSIAN ASTRINGENT CREAM into the skin and note the results in just one day!
If you have a double chin: apply TISSUE CREAM and pat firmly under the chin and morning and night how quickly the chin is reduced.
