A. A. Guelfroy

ences throughout the United States and Canada with his uncanny ability to answer questions concerning the past, present and future. During the present unrest and inquiry into the possibility of a future life his wonderful powers solve this question for many. He was acclaimed in Europe as a mental genius and only came to this country after constant offers from the leading vaudeville syndicates had forced him to accept one of the largest salaries ever offered an attraction of this kind. Endorsed by Sir Oliver Lodge and A. Conan Doyle, Marjah is undoubtedly the highest class mentalist who has ever appeared in this country. His work is unusual in its accuracy and the speed with which he answers questions is remarkable. Not only is his work a wonderful demonstration of mental power but its entertainment is of the finest caliber. Marjah recently appeared for his fourth week in Seattle and drew capacity crowds and he is shortly to play a fifth week in that city, just prior to his returning east to enter another season as a big time vaudeville headliner. He has also appeared in Los Angeles, Vancouver, B. C., Tacoma, and San Francisco on the coast. In the east he has appeared in practically every larger city, including New York, Boston, Chicago, Philadelphia, Detroit, St. Louis and New Orleans. Marjah has an immense following throughout the world and his daily mail brings queries from practically every corner of the globe regarding lost property, lost sweethearts and asking for advice in business, marriage and the numerous other problems of life. Marjah will appear at the Capitol for both evening and matinee performances on Monday, Tuesday and Wednesday. He will also give a special ladies' matinee Wednesday at which time ladies desiring to ask questions which they might not care to have answered at the regular performance, may have a private interview with Marjah. The regular complete picture program will also be given at this performance and at regular prices.
