## LINEN WEAVING SUCCESS HERE SAID ASSURED

Completion of Financing For Oregon Linen Mills, Inc., Only Need

### MR. LIVESLEY CONFIDENT

Suggestion That Spinning Alone Be Done Here Doesn't Meet With Favor, In View of Bigger Opportunity

The bare fact that Oregon Linen Mills, Inc., is successfully manufacturing and marketing linen yarn is sufficient evidence that the linen cloth can be produced as successfully. If the company's financing is completed so that the weaving department can be adequately equipped and organized. That is the opinion of T. A. Livesley, mayor of Salem and vice president of the linen mill company.

The company now has an experienced and efficient superintendent in charge of the spinning department, and in R. O. Snelling it has a capable general manager in charge of sales promotion and other business details. Mr. Livesley, but due to the failure to complete financing, the directors have never been able to turn their attention to putting the weaving department on a running basis.
