Marion County Parent-Teachers' Meeting Held Yesterday in Salem

Representatives from the various Parent-Teachers Associations of Marion county met yesterday for an all-day session in the Chamber of Commerce Auditorium.

Mrs. R. G. Wood, district vice-president, presided at the meeting which opened at ten o'clock in the morning with community singing.

The introduction of county officers followed.

Mrs. W. W. Gabriel, of Portland state president of the P. T. A. spoke in the morning "telling of the organization and the relationship which now exists between the national, state, district, county, and local Parent Teachers' Associations.

The duties of the president, secretary, and treasurer of the association were also explained.

A discussion of Parent-Teacher problems was followed by a parliamentary drill and a "model meeting" exemplified.

Luncheon was served at twelve o'clock.

The afternoon session opened at one o'clock with an outline of the work of the department and committees; program making; membership; and publicity; with an interval of discussion following.

A group of musical numbers was given.

Mrs. W. W. Gabriel of Portland, state president of the Parent Teachers' Association, was the principal speaker of the afternoon. Her subject was, "Aims and Ideals of Parent-Teacher work." She began her talk by telling of the remarkable growth of the P. T. A. which now has a membership of a million and a quarter in the United States and is an international organization, with associations in fourteen different countries.

The growth in Oregon has also been very rapid; the state having a membership of seventeen-thousand.

Mrs. Gabriel urged the local organizations to affiliate with the state association thus automatically becoming united with the county P. T. A. and adding to the strength and power of the organization. Many of the district associations do not become affiliated with the state because they see nothing to be gained by doing so. They should not be interested in what they can gain from the state but what they can give to it.

Another statement that Mrs. Gabriel made in her interesting talk was the P. T. A. is really a "school for Parents" where they may find what their children are doing and may become better acquainted with the work of the school and the educators of the children. It also affords the mothers an opportunity to get in touch again with the world. She said that the Parent-Teachers' Association may be thought of as a bridge between the parents and the school.

She also emphasized the facts that the P. T. A. is not a lyceum course for the entertainment of the public, nor a crusade to reform the schools for they are not in need of reforming but of a more complete understanding.

Mrs. Mary L. Fulkerson closed the session with a brief talk.

The group voted to meet again in the spring and on a Saturday so that the teachers as well as the parents would be able to attend.
