Are You 'All There?'
Chemical analysis of the human body
shows that it is composed of the follow-
ing elements: Oxygen, Carbon, Hydro-
gen, Nitrogen, Calcium, Phosphorus,
Sulphur, Sodium, Chloride, Magnesium, Iron, Iodine, Fluorine, Sil-
icon, Zinc, Manganese. We supply your body with these
chemical elements through the 'ood you
eat, and you breathe and the water
you drink.

Good health depends much upon the
quality of the food and the water sup-
plied and maintained. Many refined foods in
common use today are acting in an
harmful manner in these vital and health
giving properties, and this deficiency
is responsible for many chronic ailments.

MISCELLANEOUS 51

This is the Time to Buy a Good Used Car
This time of the year one can get a very
good buy in a used car. If you are planning
on buying a car in the spring you had better
investigate and look over the cars offered
now. You will find that you can buy at a
much lower figure now.

Just look over the list of cars offered under
the used car heading on this page. If you do
not find what you want today look again to-
morrow as the list is constantly changing.
