could be done immediately, and aid in alleviating unemployment conditions. The plans show the area to be drained, the size of pipes, the amount of water the pipes will carry, and the number and location of laterals. The engineers are now working on plans for the Hollywood district and the Richmond addition district.

COLONEL HOFER IS HEADED SOUTHWARD

Col. E. Hofer, dating his letter, addressed, "Dear Statesman," "Off the Pavement," Dunsmuir, Cal., Jan. 10, writes the following items: "After close sticking to business, an off on a motor trip south. At Roseburg one beautiful public building went up the past year—the new \$40,000 Christian church. The sheriff during the past year was removed from office and made commandant of the Soldiers' Home. The bootleggers will rejoice. "Ashland is still sticking to Lithia water at the new Lithia Springs hotel. Prominent citizens use it to bathe in and seem to live forever. "Dunsmuir is still strung along on one street, not grow half a mile the past year. Department stores, picture shows, churches, schools, hotels, cemeteries and shooting galleries are all strung on the street. "We are going south."

THREE HEROES OF AIR GATHER BEFORE CROWD

Lindbergh was ushered in and a moment later the three stepped to the balcony where they were greeted by what was undoubtedly the greatest demonstration ever seen in Panama. The French fliers made a beautiful landing, which was witnessed under a blistering sun by 15,000 persons. Ten planes were overhead at one time and when Costes and Lebrich came down no one seemed to know who had arrived. Cheers of "Viva Lindbergh!" mingled with cries of "Viva Costes Lebrich!" By the time all the army planes had landed there was so much confusion no one could tell what was going on, although the crowds were not difficult to manage—just curious and entranced.

ARRANGEMENTS MADE FOR HOUSTON MEET

as to why Houston was selected and more particularly why some of the foremost Smith supporters voted for it from the first ballot until the decision was had on the fifth roll call. One prominent supporter of the New York governor said the Smith adherents were not a unit of the proposition as some of them supported first Cleveland and then San Francisco. He added that his own thought was that it would be well for the party to have the gathering down in Dixie as it would bring the representatives of the various sections closer together. Then, too, it was the thought of some from the east and north who voted for Houston that the southern democracy had bought the party battle undecided for many years and should have recognition by entertaining the convention for the first time since the reconstruction days. Most of the hundreds who came here for the Jackson Day dinner began moving homeward tonight. The usual parting word among them as they said goodbye was "I'll see you in Houston in June."

BIG MONEY VALUES IN FAITHFUL WORK

Figure Out For Yourself the High Earnings You May Get In Contest

"How to win a big income in spare time."

The answer to that lies in the opportunity that candidates have in the Statesman's \$6,000.00 automobile and prize campaign. Five automobiles and other valuable prizes, ranging from expensive radio sets to cash prizes, are to be given away and they will be given to the winners just at the dawn of summer when automobiles are most desirable.

A Campaign statistic-bound got busy yesterday. He figured out that if a campaign candidate got busy today and won the \$1344.00 Oakland Sedan to be given away as the first grand prize, when the campaign closes ten weeks from last Tuesday, he or she would be earning at the rate of \$134.00 a week.

Aside from the fun of entering the prize rates and winning, these dollars and cents will be looking into. Every one of the five motor cars is of a well-known make, presenting a high standard. No matter which car is won, it will amply repay the candidate for the effort put forth. The Statesman is making the most attractive prize offer in its history. Five automobiles and many other awards will be given men and women who obtain the largest vote total by securing subscriptions to this newspaper. The subscriptions may be secured any where the candidate chooses to get them. Each subscription is worth thousands of votes. The offer is open to all men and women, boys and girls; only regular adult employees of the Statesman are barred.

Prizes Go Thus The candidate who accumulates the largest number of votes during the campaign will become possessor of the splendid Oakland Six Sedan. To the second highest candidate. The Statesman will give the Chrysler "52" Sedan. To show that all automobiles will be won in all sections of the territory, the Statesman has divided the territory in two districts. The city district No. 1; and the rural and out of town district being No. 2, and the remaining prizes will be awarded according to these divisions.

also by Roy Hewitt, dean of the Willamette university college of law, who also favored the plan of sheriffs after they had retired from office be made law enforcement reserve officers. He also urged that public sentiment should be built toward law enforcement. Dean Hewitt also considered that the present peace officers of Oregon are underpaid in the matter of salaries. In line with this contention a resolution was adopted in which it was proposed that the salaries of sheriffs should be fixed according to classification of counties. This plan was proposed at the sheriffs' convention a year ago but failed to carry in the last Oregon legislative session. The sheriff also want the law amended whereby sentences in liquor cases and in other crimes made for more than eight months shall be served in the state prison instead of in county jails. The fireworks in the annual convention of the state association of district attorneys probably will be touched off tomorrow, in the adoption of resolutions which are expected to embody many of the changes in criminal laws and criminal court procedure desired by the sheriffs, on the ground that these two law enforcement agencies have so many affairs in common. Discussions in the sessions of the district attorneys today brought out the fact that the criminal laws should be changed whereby paroles should be granted only from the bench, and that unless a criminal is paroled from the bench he should be compelled to serve out his sentence in full. It was held that the district attorney and the court are in the best position to determine the matter of executive clemency.

In arguing with the civil service commission, the prohibition commissioner said he had pointed out that it would be literally impossible to replace so great a percentage of his force from among the aspirants to the service from the outside. Though about 4,000 such individuals seeking places have passed the examination, he asserted that their qualities, for the most part, did not appear to be very good.
