HELD FOR FRAUDS

GROUP INDICTED AT NEW YORK ON MAIL CHARGE

NEW YORK, Jan. 17.—(AP)—Accused of "ballooning" Idaho copper stock, Walter H. Weed, nationally known mining engineer who assisted in the survey of Yellowstone park, George G. Rice, stock broker, and editor of the Wall Street Iconoclast, and Walter K. Yorston of Boise, Ida., were indicted today on charges of using the mails to defraud.

The charges grew out of the promotion of the copper stock, allegedly through a publicity campaign conducted in Rice's publication. The indictments, returned

by the federal grand jury after hearing evidence for six weeks, accuse the three men on holding options on 1,300,000 shares of stock at 10 and 12 cents and selling them for as high as \$6.25.

Rice is said to have placed the stock on the Boston curb market at 56 cents. Between March, 1925 and March 1926, the stock went up to \$6.25. Assistant United States Attorney Peck charged that this was accomplished by "ballooning" the stock to readers of Rice's paper.

GIRL STILL MISSING

SOLUTION TO MYSTERY YET UNAVAILABLE TO OFFICERS

NORTHAMPTON, Mass., Jan. 17.—(AP)—Divergent trails followed by investigators today left them still without solution of the question of why Miss Frances St. John Smith, Smith college freshman and daughter of a wealthy New York broker, dropped out of sight last Friday and what became of her.

Of what appeared to be the two most promising lines of inquiry, one centered in Deerfield, a few miles from this city and the other pointed toward New York and possibly Philadelphia. The basis for the Deerfield search was the statement of George D. Wood of Bristol, Conn., that a girl resembling Miss Smith spoke to him when he stopped his car in Deerfield on Sunday.

A theory that Miss Smith might have gone to New York developed as the result of the statement of a Northampton to State Detective Joseph V. Daly, in charge of the search, that he stood directly behind a young woman answering her description as she bought a ticket for New York last Friday at the Northampton station.

Appearing to square with this theory was the statement by a business man in Philadelphia that he saw a girl who he felt sure was Miss Smith on a train which arrived in Philadelphia from New York yesterday. She was accompanied, he said, by a middle aged woman and he overheard them talking about Smith college, with which the girl seemed to be familiar.

The question of who is to receive payment from Marion county for some 20,940 cubic yards of sand and gravel used on the county's roads during 1927, found its way into circuit court here yesterday when George L. Brown and Lucy Brown filed action to collect \$1074 from the county.

The complaint alleges that on June 23, 1926, a contract was entered into between Mr. and Mrs. Brown and the county court. Under terms of the contract the county was to take sand and gravel from a seven acre piece of land near Stayton, just north of the Santiam river, the property belonging to the Browns.

All sand and gravel taken out was to be paid for by the county at the rate of five cents a cubic yard.

There are two others who also claim sand and gravel was taken

Magnifying Money Worst Indictment of Day, Said

Too much value set on money and station in life is the most potent indictment of modern day society, Dean Roy Hewitt, of Willamette university, told Salem Kiwanians at the weekly luncheon yesterday.

The speaker pointed out that only when viewpoints and objectives in life shifted to spiritual and human equations, did an individual become valuable to society.

The boiling of water removes very few of its chemical impurities, but it kills germs, accord to an answered question in Liberty.

COUPLE NEAR STAYTON WANT PAY FOR SAND, GRAVEL

The question of who is to receive payment from Marion county for some 20,940 cubic yards of sand and gravel used on the county's roads during 1927, found its way into circuit court here yesterday when George L. Brown and Lucy Brown filed action to collect \$1074 from the county.

An Old Recipe to Darken Hair
By JANICE RANDALL

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bottle of this old-time recipe improved by the addition of other ingredients, for only 75 cents. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger.
