Are You 'All There?'

Chemical analysis of the human lody shows that it is composed of the following elements: Oxygen, Carbon, Hidrogen, Nitrogen, Calcium, Phosphorus, Potassium Sulphur, Sedium Chloride, Magnesium, Iron, Iodine, Fluorine, Silicon, Zinc, Manganese.
You supply your body with these chemical elements through the food you eat, the air you breathe and the water you drink.

Good health depends much upon the chemistry of the budy, as thus supplied and maintained. Many refined foods in common use today are lacking to an starming extent in these vital and health promoting properties, and this deficiency is responsible for many chronic ailments.

Pacific Health-Ore

is rich in the majority of these elements and its use has accomplished marvelous results in restoring health. Give Natura a chance—you'll be surprised at her re-SEE YOUR DRUGGIST TODAY
