Are You All There? Chemical analysis of the human body

shows that it is composed of the following elements: Oxygen, Carbon, Hydrogen, Nitrogen, Calcium, Phospherus Potassium Sulphur, Sedium Chloride, Magnesium, Iron, Iodine, Fluorine, Silicon, Zinc, Manganese.
You supply your body with these chemical elements through the food you eat, the air you breathe and the water

Good health depends much upon the chemistry of the body, as thus supplied and maintained. Many refined foods in common use today are lacking to an alarming extent in these vital and health promoting properties, and this deficiency is responsible for many chronic allments.

Pacific Health-Ore rich in the majority of these elements and its use has accomplished marvelous results in restoring health. Give Nature a chance—you'll be surprised at her re-
