

NAVY LIEUTENANT WINS HIGH PRAISE

Spectators Declare Many Lives Saved By H. V. Perron In Accident

SAN FRANCISCO, Feb. 18.—(AP)—To the watchful eye of Lieutenant H. V. Perron of the United States navy, Goat Island, many of the survivors of last night's ferry accident probably owe their lives. All eye witness accounts paid high tribute to the work of the men in their rescue work but it was only after the first excitement had died down that it was discovered that the navy's part in the rescue was largely the result of the alertness of Lieutenant Perron.

"As I was walking on the island," said the officer, "I watched the Perralt, then 300 or 400 yards from me, approximately southeast. I could see the crowds massed in the ferry's bow. She was traveling at good speed. Very suddenly, evidently from overcrowding in the bow she was brought down by the head and water rushed over the bow. I could see that some people were swept overboard, but I could not tell how many.

"As quickly as I could I ordered fifteen or twenty men into the captain's gig and all other suitable boats that were handy and told them to go out and give all possible assistance. They acted quickly and were able to take many people out of the water. Whether anyone was drowned our men could not tell. They did not report seeing any one sink but the water was pretty cold and those taken out were suffering from exposure."

Captain G. D. Landenberger, commandant of Goat Island, spoke commendingly of Lieut. Perron's prompt and efficient action and expressed satisfaction that the navy men had had an opportunity to be of assistance.

UNIQUE RACE HELD

LETTERS SENT AROUND WORLD BOTH EAST AND WEST

SEATTLE, Feb. 18.—(AP)—A round-the-world air derby with two letters as the contestants began here at 8:40 last night when Charles M. Perkins, Seattle postmaster, dropped one east bound and one west bound letter into air mail sacks to speed them on their way in a contest sponsored by the Seattle Post Intelligencer.

The west bound letter bears an 1892 Columbus stamp, issued in connection with the world Columbian exposition at Chicago and donated by a stamp collector here.

"As Columbus sailed westward to discover a new world," Perkins said, "the letter bearing this stamp will go west to open up a new world in the realm of communication. It will pave the way for air mail service that will one day girdle the world without any gaps."

On their return the letters will be auctioned for the benefit of a fund for crippled children.

Commerce Commission Powers Probed Again

WASHINGTON, Feb. 18.—(AP)—An investigation of the powers of the interstate commerce commission to control minimum freight rates was asked in the senate yesterday as the feud between Pennsylvania and Kentucky, West Virginia, Tennessee and Virginia over lake cargo coal rates broke into heated debate on the floor.

Severe denunciation of members of the commission for reversing their stand in the large cargo case and meeting the demands of Pennsylvania for a lower differential on coal shipments to lake ports was hurled by Senator Reed, democrat, Missouri, and before the

Quality Is Our Failure Insurance

A successful merchant once said that he considered honesty the greatest single factor for success in retailing. "Build integrity into your business," he advised, "and you not only safeguard it but your contribution to the community you live in is immeasurable."

Wise words! And that is one of the reasons why we pay so much attention to the quality of the goods we sell. It is so easy to skimp on a lining, or substitute inferior leather in the inner sole of a shoe. But then we would not be running an honest business, and it would gradually crumble into ruins.

Selling honest merchandise at a fair price is more than an ideal with us. It is our "insurance policy" against failure.
