

A. A. U. W. Director is Honor Guest at Meeting Saturday

Mrs. Melvin Brannon of Helena, Montana, director of the North Pacific section of the American association of University Women, was a special guest at the dinner meeting of the Salem chapter of the A. A. U. W. Saturday evening at the Gray Belle.

Mrs. Brannon, in the interesting talk which she gave in the evening, said that recognition of the various institutions by allowing their graduates complete or associate membership in the organization is one of the endeavors of the national organization.

The national organization of the A. A. U. W. sponsors five fellowships and administers 10 others.

Oregon, according to Mrs. Brannon, is the only state offering a graduate fellowship of its own. A number of the sections in the national organizations, units composed of several states, have fellowships, but Oregon has the distinction of being the only state with a graduate fellowship available.

The pre-school child work, the elementary education program, the adolescent education program, the international relations work and the loan libraries, as well as other activities of the American association of University Women were discussed by Mrs. Brannon.

The program Saturday also included two piano solos played by Miss Betty Corskie, a student at Willamette University.

Following the meeting of the Salem chapter, Mrs. Brannon held a conference with the executive board of the Salem branch and with the leaders of the pre-school child and international relations study sections.

Forty-four members of the Salem group were present.

IMMENSE POWER MERGER PLANNED

Northwestern Electric Company To Be Bought Out By P. E. P. Firm

PORTLAND, Feb. 20.—(AP)—A proposed \$104,000,000 power merger in which the Portland Electric Power company plans to purchase all properties and business of the Northwestern Electric company was announced here today.

A basic element of the proposal is a pledge to slash rates to the extent of saving users of electricity more than \$300,000 a year. It is promised that the initial rate to domestic users would be reduced from seven cents a kilowatt hour to not more than five cents per kilowatt hour, after the monthly minimum.

Announcement of the proposed purchase of the Northwestern Electric by the Portland Electric Power company was made jointly by Guy W. Talbot and Franklin T. Griffith, presidents of the respective corporations. The announcement lacked details as to purchase terms but otherwise outlined the plan.

In the franchise obtained by the Northwestern Electric company from the city of Portland is a provision that the corporation cannot be sold without consent of the city council. Presidents of the two companies stated today they have every reason to believe the council will approve the sale under the conditions that have been

worked out. The utility chiefs however want public approval back of any such important set of the council, and propose a referendum vote on the merger proposal, such election to be held without public cost.

The scope of the projected unification of the two companies is far-reaching. The companies have 140,000 customers in 100 communities of the Willamette valley and in southern Washington. There are fully 12,500 holders of stocks and bonds of the companies in Oregon. Eight plants of the Portland Electric Power company have a generating capacity of 186,000 horsepower and three plants of the Northwestern have 51,000 horsepower capacity.

Valuations of plants and properties of the larger corporation is placed at \$81,000,000 and that of the Northwestern at \$23,000,000. The Northwestern's capitalization on March 1, 1925, when control was purchased from the Fleischacker interests by the American Power and Light company was in excess of \$21,000,000. It is stated that since that time improvements and extensions costing more than \$4,500,000 have been made.

MEMBERS OF LEGION NOT "LOST BUDDIES"

Comrades of Ten Years Ago Can Find Each Other If They Affiliate

"I'm a stranger in town, just passing through, and I want to find my old buddy that was in the umpty umpty infantry. Do you know where he lives?"

This is a question that is often asked these days, even though it's ten years after the war. A good many boys who fought side by side have lost track of each other except that they know the other fellow was from Salem or some general locality.

The best place to find out where that old buddy is, is to ask the American Legion adjutant, and the best way to avoid being listed among the "lost buddies" is to have a legion membership card and be on the legion directory at the adjutant's office. Here is a continuation of the list of paid up members of the local post, which has been running in The Statesman for several days:

Sale of Marian Parker Photos Creates Furore

LOS ANGELES, Feb. 20.—(AP)—Orders for the arrest of persons selling photographs of the dissected torso of Marian Parker, kidnaped, murdered and mutilated by William Edward Hickman have been issued here by Dis-

trict Attorney Keyes. The orders followed the report of his chief of Detectives George Contreras that copies of the photographs were being displayed publicly and sold in considerable numbers. The investigation is being continued to determine the source of the distribution.

Contreras reported his investigation revealed that the only existing photographs from which copies could have been made were those placed in evidence in Hickman's sanity trial for the child slaying. These were displayed to the jurors who returned the verdict that the killer was sane.
