SHEEP AND GOAT MEN IN BIG MEET

Polk People in These Industries Gather at Monmouth Tomorrow

DALLAS, Ore., Mar. 19.—Goat and sheep men of Polk county are planning a big meeting in the Ross theater at Monmouth of this week. A rather extensive program has been arranged in which four reels of films showing the Angora goat industry will be shown, the mohair as it is clipped and then followed through the mills to the finished product, and in addition the industry as it is followed in Texas, the greatest Angora producing state.

In addition to the films O. M. Nelson of the Oregon Agricultural college will discuss the work conducted in connection with the goat and sheep industries and Ludwick of the Pacific Cooperative Wool and Mohair association will discuss the activities of that organization. The Pacific Cooperative Wool and Mohair association is one of the most successful cooperatives in the country and many Polk county stockmen are members of this organization.

County agent J. R. Beck, who is making local arrangements for this meeting, states that it will start at 1:30 on Wednesday, the 21st. Mr. Beck also says the members of the four sheep and Angora goat clubs of Polk county will probably be out in force for this meeting, particularly to see the pictures.

WILL REPEAT PLAY

MONITOR FOLK ENTERTAIN AT HUBBARD WEDNESDAY

WOODBURN, Oregon, March 19.—(Special)—The Monitor Three Link club presented a three act comic drama Thursday night entitled "The Path Across the Hill" at the Odd Fellows hall in Hubbard. Over 350 people were admitted to the hall. The players met with such great success that they will repeat the performance at Hubbard at the city hall March 21 at 8 o'clock p. m.

F. J. Brown, a farmer near Monitor who fell off a scaffold on his silo last fall and after having been laid up all winter with a broken hip has recovered sufficiently to be able to attend to his duties.

W. J. Linfoot of Salem spent Friday in Woodburn and vicinity looking after his real estate interests.

Roy Bates, who resides four miles east of Woodburn has moved to Corvallis where he has purchased a butcher shop. He has made arrangements to rent his farm here.

Story of Fight for Life On Ill Fated Sub Read

BOSTON, Mar. 19.—(AP)—The torpedo room of the submarine S-4, in which six men lived for 72 hours after the vessel was sent to the bottom in collision off Provincetown Dec. 17, gave up its story today.

Naval officers entered the compartment after the submarine raised from the ocean bed on Saturday had been drydocked at the Boston navy yard and, from the dismal evidence found therein, pieced together a tragedy on which the interest of a nation was centered for three days last winter.

The six bodies were found and one of them, that of Lieutenant Graham Newell Fitch of Washington, D. C., was identified. In other parts of the ship two other bodies were recovered, completing the roster of death. The entire company of forty men perished when the coast guard destroyer Paulding rammed and sank the S-4. During the salvage operations 32 bodies were taken from the hull.

Evidence of a desperate fight for life was seen in devices by which the imprisoned men had striven to shut out the water leaking into their chamber from the battery room adjoining. The watertight door between the compartments had been closed and dogged tight. A maul had been used to batter down the door, and a large pinchbar was wedged against the door.

A glass deadlight in the door apparently had let water in. To shut this leakage out the men had placed a piece of rubber above the glass and secured it with a wooden block.

The preliminary search of the torpedo room today revealed no written records or diaries. Further search will be made by a naval board of investigation when the interior of the vessel is in better condition.

The bodies of Lieutenant Fitch and his five men were found on the deck, which was covered with gray mud and four inches of water. Investigating officers said it was apparent that all of the men but one had awaited death quietly in their berths, conserving their energy that they might conserve as little as possible of the precious air. The exception was one man found at the foot of the torpedo hatch, gripping the ladder with his right hand. The body of another man lay against this one, with head on chest.

Lieutenant Fitch was lying on his back on the deck under the work bench which is on the starboard side forward, just about the torpedo tubes. The head was pointing aft and the feet forward. The officer was identified by his naval academy class ring and sweater and his cap. One of his arctic shoes was still on a floor; the other lay near the body.

Three other bodies lay under the bunks in the after part of the torpedo room.

Apparently no effort had been made to add to the oxygen supply in the torpedo room by tipping the oxygen flask which is provided on each compartment of a submarine. The flask was in its rack and a test showed that there was considerable pressure in it. The valve was shut.

No attempt had been made to escape from the submarine by way of the torpedo tubes or the torpedo hatch, officers who entered the compartment reported. The torpedo tube doors all were closed and there was no evidence of an effort to make use of the hatch. The gear of the S-4 listening tube had been shipped, but the stetho-

Story of Fight for Life On Ill Fated Sub Read

BOSTON, Mar. 19.—(AP)—The torpedo room of the submarine S-4, in which six men lived for 72 hours after the vessel was sent to the bottom in collision off Provincetown Dec. 17, gave up its story today.

Naval officers entered the compartment after the submarine raised from the ocean bed on Saturday had been drydocked at the Boston navy yard and, from the dismal evidence found therein, pieced together a tragedy on which the interest of a nation was centered for three days last winter.
