Onion Sales Most Active

Onions continue to be one of the most active commodities on the produce market, report the local distributors.

Onion growers have so far managed to hold out for higher prices on the last of the crop. According to the best available information, there are only about 20 cars of onions left in the growers' hands.

In the green onion market, plenty of fine onions are being received from Medford and The Dalles. They are quoted at 80 cents a dozen.

The rush in the onion set market has passed, the same price as last week, 6 cents a pound, prevailing.

REAL ESTATE

Close in. Near the Pacific Highway, South. We have 5 acres with 3 room house. \$3000. Easy terms.

MENTAL FATIGUE

Many people wonder why they quickly tire at work while other people enjoy the vigor of early morning all day long and do not become ragged out. This annoying brain fatigue is often due to the fact that they have worn their glasses past the period of usefulness and physical and mental fatigue quickly result. Continued neglect of the eyes is invariably the cause of nervousness, headaches and often indigestion.
