

PUPILS RUN STORE AS CLASS PROJECT

"Money" Obtained by Scholastic Achievement; Citizenship Learned

There are stores and more stores, but to the third A and B pupils at the McKinley school, there is one store that stands by itself, incomparably ahead of the neighborhood grocery, or even the downtown establishment.

It is the store that occupies the full cupboard in front of their school room; a store where the "best sellers" are sample products, though none the less real; a store where cardboard money is better than gold and where to merchandise is not of honor.

For three successive class generations of students now, Mrs. W. A. Davenport, the teacher, has used the "store" as a basis to teach her young pupils a number of things that it is not so easy to inculcate with "do's" and "don't's."

The cardboard money is awarded to the students for perfect scholarship and with it the students are entitled to purchase a tin bag of flour, a small box of breakfast food, miniature boxes of cold cream or powder, little cans of baking powder, candy samples or other commodities that may be in store.

A star in spelling nets the pupil a penny as does also a perfect arithmetic lesson; extra work is usually worth a dime in most any class. When every child in the room has a perfect lesson, there is ten cents apiece awaiting them.

Under the expert directorship of Emory W. Hobson, head of the vice department at Willamette, the glee club opened the evening's program which was brimming from beginning to end with the most beautiful and melodious in high class music.

The audience was vastly pleased with every solo, ensemble, and duet number which they heard and clamored without stint for more. The club was most gracious and even on so extensive a program a number of encores were granted.

The ensemble singing of the club, as in previous years, was characterized by a freshness, clarity, and great youthful exuberance seldom found in clubs of older members.

The ensemble singing of the club, as in previous years, was characterized by a freshness, clarity, and great youthful exuberance seldom found in clubs of older members.

Other soloists for the evening were Willis Hathaway, basso; and William Wright, tenor. Mr. Hathaway is the possessor of an amazing bass voice of unusual depth and power, and Mr. Wright's tenor is of a very pleasing and graceful quality.

When a reporter appeared at this room several days ago, the third graders were beginning the study of Holland in the geography class, and to make a distant land more interesting, from the Room of a number of things depicting the country and habits of the windmill people.

At one end of the room stood a sand table containing miniature houses, windmills, tulip beds, canals, cows, and even the Hollanders themselves. There were bridges of gray construction paper; windmills of stiff cardboard, bright with their colors of gray, blue and yellow and containing the huge fans, windmills of wood, carefully painted in similar colors and complete with tiny windows and big grey fans.
