Chemical analysis of the human body shows that it is composed of the following elements: Oxygen, Carb-m, Hydrogen, Nitrogen, Calcium, Phosphorus, Potassium Bulphur, Sodium Chloride, Maguesium, Iron, Iodine, Fluorine, Eilicon, Zinc, Manganese.

You supply your body with those chemical elements through the food you cast, the air you breathe and the water you drink. BUILDING LOT TO TRADE FOR FORD

eat, the air you breathe and the water you drink.
Good health depends much upon the chemistry of the body, as thus supplied and maintained. Many refined foods in common use today are lacking to an alarming extent in these vital and health promoting properties, and this deficiency is responsible for many chrynic ailments. Pacific Health-Ore rich in the majority of these element
