Fishing Season Opens Sunday April 15

 You'll want to be at your favorite hole early. Don't let tire trouble spoil your trip. Drive in and let us look over your tires before you leave. Better take a Miller spare along.

follow the
"Caterpillar"
 "Caterpillars" replace all other power for orchard and vineyard... slicing off big chunks of former costs that make its purchase price seem small.
 Minimum upkeep... reduced manpower... no barns or pastures needed or chores to take up time. MOUNT YOUR "CATERPILLAR" and be at work... riding steep... side hills surely... or mushy lowlands firmly... reach across ditches, gullies, furrows on "Caterpillar's" long, gripping tracks... "whirl on your heel" in narrow headlands... go close to trees and under branches... whip dry seasons with sub-soilers or chisels... turn a cover crop with ease... pull trees or level land... dig ditches or boulders... haul prunings or fruit on soft ground.
 Work when work is needed, sure of footing rain or shine... yet time for custom work for neighbors, county or state... while fruit grows sweeter on the trees from proper, timely cultivation.
