April 14, 1928 Then released he Barabas unto them: and when he had scourged Jesus, he delivered Him to be crucified.

THE BIGGEST NEWS ITEM

The biggest news item of the day is the one telling of the opening of negotiations for a world wide treaty solemnly renouncing war in favor of the pacific settlement of international controversies—

SECOND BIGGEST NEWS ITEM

The second biggest news item of the day is the one carrying the announcement of the safe landing of the German flyers—

BIGGEST LOCAL NEWS ITEM

The biggest local news item of the day is the success of the first of the series of talent contests by the community clubs of Marion county.

The first news in the United States of the landing of the German flyers was caught by Stewart Davis, an 18 year old boy at Manchester, New Hampshire, an amateur radio operator with a small experimental station—intercepting the messages sent by the Canadian government by radio.

Ask any one who was there if the community talent contest at the Elsinore last night was not worth while.

The president of the company operating the air lines up and down the coast says \$10,000 worth of business has been declined on account of lack of equipment.

Henry Ford, visiting in London, announces that he and Thomas A. Edison are working hard on plans for a vast rubber growing project on the Amazon river, in South America.

Winter Hits Western Sections of Canada

WINNIPEG, Man., April 13.—(AP)—Winty conditions ruled the western Canada prairies today, bringing to a halt early operations on farm lands.

Alberta and Saskatchewan bore the brunt of the cold wave, when snow fall was general. Five inches of snow fell in the Red Deer district in central Alberta; Calgary reported a fall of more than one inch, while it was snowing this morning in southern Alberta.

Saskatoon, Prince Albert and other portions of northern Saskatchewan were recovering Tuesday

JUDGE FLAYS KLAN IN MAKING RULING

Injunction Suit Brought Against Five Former Members Dismissed

PITTSBURGH, April 13.—(AP)—A stern indictment of the Ku Klux Klan, in which it was held to be responsible for riots, bloodshed and the burning of men alive, was made here late today by Federal Judge W. H. S. Thomson, in an opinion dismissing an injunction suit brought by the order against five former members.

The court, after hearing sensational testimony for five days, including a general denial by Imperial Wizard Hiram W. Evans, of charges made against the Klan, held that the organization came into the court of equity with "dirty hands" and that it could not gain any relief from him.

In dismissing the Klan petition for an injunction to restrain the former members from using its name, and asking for \$500,000 damages, Judge Thomson placed the costs upon the Klan.

The court upheld practically every bit of testimony offered by the defendants against the Klan, including allegations that Klansmen had burned a negro alive in Texas; that they had flogged other citizens; that they had maintained a secret terrorist organization known as the "Knight Riders" and "black robe" gang and that they had fostered riots; that they had caused bombs to be set off in an effort to increase Klan memberships; that they had kidnapped a child in Pittsburgh, and that they had stirred up racial and religious feeling throughout the country.

Judge Thomson held that the Klan, with the sanction of Evans and other leading officers, had not only violated its own constitution and laws, but had invaded the rights of citizens who were not members of the organization.

After entering his order of dismissal, the court noted that the plaintiff took exception. Klan attorneys said they probably would confer on the question of carrying the case to a higher court.

MR. MILLS ATTACKS TAX CUT MOVEMENT

Chamber of Commerce of United States Flayed by Acting Secretary

WASHINGTON, April 13.—(AP)—Presenting again its demand for a \$400,000,000 tax cut—double the amount proposed by the administration—the chamber of commerce of the United States encountered a violent attack from Acting Secretary Mills of the treasury today at one of the liveliest sessions of the senate finance committee in recent years.

For three hours, Mr. Mills and the chamber's tax experts battled across the committee tables, with committee members throwing occasional wallops for each side, the republicans standing by the administration and democrats generally supporting the chamber.

Even on the basis of treasury estimates that a surplus of only \$212,000,000 was in prospect for next year, the chamber argued that the \$400,000,000 cut could be made by applying about \$160,000,000 to be collected in interest from foreign governments on account of war debts to tax reduction rather than debt retirement and by carrying over some of this year's prospective \$400,000,000 surplus to next year.

Mr. Mills countered that this not only would retard the regular program for retirement of the \$18,000,000,000 public debt but would necessitate the government terminating its life time policy of closing its books at the end of each fiscal year and he insisted this was "unsound."

Much of the argument, which grew quite heated at times, revolved about the treasury's estimates of income and outgo for next year.

CONDITION OF ISLE TOLD BY CANADIAN

Bremen Must Have Landed On Ice Beside Land, Opinion Expressed

OTTAWA, Ont., April 13.—(AP)—Harrison F. Lewis, of the national park bureau of the Canadian department of the interior said tonight he believed the monoplane Bremen must have landed on the ice beside Greenly Island.

"It would not be possible to land on the island itself," he said. "The plane must have come on the ice beside the island and if the plane is not damaged it would be possible to take off from the ice. Even as late as this an auto truck makes trips from the mainland to the island on the ice."

Mr. Lewis who visits the island every year on his annual inspection of bird sanctuaries and parks, said the island is about half a mile long, quite narrow and rises to a height of about twenty feet. There are no trees or bushes he said but the rocks and earth are overgrown with moss.

He said the island is about two miles from the Quebec shore and three miles inside the boundary line between Quebec and the Newfoundland Labrador.

NEGRO GETS NOD

SAN DIEGO, Cal., Apr.—(AP)—Long Tom Hawkins, San Diego negro heavyweight, scored a hardy 10 round decision over Jack Rnault, Canadian heavyweight champion, here tonight.

ROBERT WITTY DEFEATED

Pacific University Man Wins First Place in Contest

ALBANY, Ore., Apr. 13.—(AP) J. M. Ladd of Pacific University, Forest Grove, won first place in the Oregon intercollegiate peace oratorical contest here today. His oration was based on "Peace by national honor." His victory was by the slightest margin over Robert Witty of Willamette university.

The judges, forensic coaches of the ten educational institutions represented, ranked the other contestants in the following order: Daniel Bryant, Oregon State college; Herbert Sociolofsky, University of Oregon; Leon Stark, Lufeld college; J. M. Shelly, Eugene Bible university; Helen Oglesby, Albany college; Lyle Thomas, Oregon Normal school; Charles Beals, Pacific college; Newberg; J. Tucker, Southern Oregon normal.

In the extemporaneous division, Errol Sloan of Eugene Bible university won first prize and \$50. Margaret Pro. Willamette university, and James Adamson, Oregon Normal, tied for third place.

RICHARD DIX VERY SICK

Only Even Chance Allowed For Recovery, Announcement

LOS ANGELES, Apr. 13.—(AP)—As a result of serious lung and kidney conditions following an operation for appendicitis, Richard Dix, the film actor, was given only an even chance of recovery tonight by his physicians.

The actor spent a restless night and today his doctors held a hurried consultation.

WILLIS HAWLEY MERITS RELECTION, DECLARED

(Continued from page 1)

lution of city and village deliveries, the establishment and extension of rural routes, and the funds for the improvement of roads. He has rendered innumerable services to individuals and communities, arising out of such visits.

Roads. He was one of the originators of the policy of federal aid for road construction, under which Oregon has received large sums of money. The designation of Roosevelt highway as a primary road, with consequent allocation of funds for its construction, was largely due to his efforts. He has aided in securing increased funds for forest roads, believes the federal government should construct these connecting roads, and is confident that federal aid for roads will be continued.

Public Buildings. Prior to 1913, he had public buildings for Albany, Roseburg and Medford, and an increase for Eugene. Had the former policy been continued, he would have had eight other cities provided for. He was an active factor in enacting the new policy, under which the cities of the district will receive public buildings.

Other Improvements. He had large appropriations made for the improvement of Crater Lake national park. He is working for the development of the Oregon Caves, Silver Creek Falls national park, and a federal memorial at Champeog. Other betterments are receiving his diligent attention.

Moneys for counties. During the 69th congress, his bill, which the official records show as the only bill to pass either house, was enacted by congress, giving 17 counties already about \$5,000,000.00, and which will yet receive over \$11,000,000.00 more. He is making progress in the relief proposed for Lincoln county.

Farm relief. He has labored constantly in the interests of agriculture. He was selected as a member of the joint committee that framed the federal farm loan act. He believes the real solution of the present farm problem is to afford the producer a remunerative price for his products, with reasonable stability in prices from year to year, and is supporting the legislation for this purpose.

Relief for veterans. In addition to supporting legislation increasing pensions, he has, by special acts and services, secured pensions for thousands of veterans and their dependents, so that the monthly payments made to them from the federal treasury constitutes one of the largest, if not the largest, pay-roll in the district.

He had a leading part in the adjusted compensation legislation, and later as chairman of the subcommittee prepared and reported several important amendments, greatly increasing its value to the veterans.

Other activities. He has had provision made for protecting the water supply of several cities. He gives prompt and effective attention to all requests for assistance or services, made by communities or individuals. Our district has many needs and requires federal appropriations in large amounts. Because of this our representative should render national as well as local service. But he allows nothing to interfere with his work for the district. His high position in our government has proven of extreme importance and benefit to us.

As a national legislator. He has had an unusually important part, because of his acknowledged leadership, in the initiation and enactment of legislation of the greatest importance, including the emergency tariff and the tariff of

THE MORNING ARGUMENT

AUNT HET By Robert Quillen

"Amy has got one o' them nasty sex minds that can't look at a fly I pretend it sometimes because it's the only way I can get her to let up on me."

POOR PA By Claude Callan

"Ma thinks I'm easier to get my feelin's hurt than I really am. I pretend it sometimes because it's the only way I can get her to let up on me."

1922, which gave agriculture greater protection than preceding acts; the revenue acts of 1921, 1924, and 1926, which reduced taxation more than \$2,000,000,000 annually, causing a revival of business and industry. He was especially appointed a member of the committee that framed the budget system; and a large number of other acts of great benefit to the country.

Vote for him. Space permits only a brief and inadequate summary of his accomplishments, but his record in support of legislation for social betterment, and in general, all legislation upbuilding the state and nation and for the public good and well-being of the people, his faithful adherence to the interests of the people, his sound judgment, wide information, untiring industry, long experience, recognized leadership and high standing, assure continued successful work, profitable to all our people.
