ONION SKIN Carbon Paper Typewriter Ribbons W. S. Du Fresno 738 E. 6th St. N. Portland, Oregon. Are You All There? Chemical analysis of the human body shows that it is composed of the following elements: Oxygen, Carbon, Hydrogen, Nitrogen, Calcium, Phosphorus, Potassium, Sulphur, Sodium, Chlorine, Magnesium, Iron, Iodine, Fluorine, Silicon, Zinc, Manganese. You supply your body with these chemical elements through the food you eat, the air you breathe and the water you drink. Good health depends much upon the quantity and quality of the food you eat, the air you breathe and the water you drink. Many refined foods in common use today are lacking in an important element—Vitamin. This is a vital promoting property, and this deficiency is responsible for many chronic ailments. Pacific Health-Ore is rich in the majority of these elements and has the accumulating minerals which is lacking in refined foods. Give Nature a chance—you'll be surprised at her response. SEE YOUR DRUGGIST TODAY LOST AND FOUND 41 Lost Diamond Ring Gold setting. On Center street, between Summer and Com. St. Reward. Leave Statesman Office.
