DAIRYMEN WILLING TO AID INSPECTOR

Milk has High Butterfat Content and no Adulteration Attempted

Dairymen and the proprietors of milk pasteurizing and distributing plants in Salem and vicinity are giving thorough cooperation in the program of inspection and improvement of milk supplies which is now being started, it was declared by John E. Blinckhorn, Salem and Marion county milk inspector working under the direction of the county child health demonstration, in his address at the Lions club luncheon Friday noon.

Another encouraging factor found by the inspector is that not a single case of adulteration has been encountered, he said. Approximately 100 cows are now being kept in Salem, the speaker informed his audience. There are also ten milk distributing plants, four of them using the pasteurizing process.

Five tests are used for bacteria, for sediment, for deficiencies in flavor and odor, the Babcock test for butterfat, and for adulteration.

One cubic centimeter of pasteurized milk contains normally about 5000 bacteria, said Mr. Blinckhorn; good raw milk contains 10,000 to 15,000; milk with a sour taste 395 million, and curdled milk nearly three and one-half billion bacteria. A cubic centimeter is about a thimble full, he explained, but in spite of that, 5000 bacteria do not take up any appreciable share of the space.

As to flavor and odor, he explained that good milk will not sour in 24 hours under ordinary conditions, and that for this test, milk is heated to a lukewarm temperature and kept for several hours to determine how rapidly it sours.

The Babcock tests show that milk distributed here has for the most part a 4 per cent butterfat content, which is higher than average, and a good record.

Arbor Day Observed— An "Arbor day" assembly was held at the Leslie junior high school Tuesday, with appropriate songs and speeches on the program. Mrs. LaMoine R. Clark, principal, told the history of Arbor day and H. C. Bateham, Salem florist, gave an address on the value of trees. The school planted six trees, four Japanese laurels and two which were presented by clubs. An ampeopais vitchii was given by the club bearing that name. Mr. Bateham is leader of the club. The Shamrock club gave a weeping willow.

Discuss Budget— Dean Roy R. Hewitt of the Willamette university law school met with the junior business girls at their regular meeting at the YWCA Thursday evening to lead a discussion upon a budget project he has devised for different groups. The dean had previously given the girls a problem of budgeting a \$100 a month salary so it would suffice for two. A similar problem had been presented to a group of junior business boys and an interesting item of the discussion was the comparison of the manner in which each group handled the \$100, as well as how each girl allotted it. Two wide variations were noted in the boys and girls budget; the amounts upon which the boys thought a wife could be clothed and the divergence in sums allowed for an education.

INTERSTATE TRUCK SCHEDULE PLANNED

Commissioner Ostrander Will Meet with Idaho Officials at Boise

A reciprocal agreement affecting the operation of busses and trucks interstate will be discussed at a conference to be held at Boise April 24 between Edward Ostrander, chairman of the Oregon public service commission, and the secretary of state of Idaho.

H. H. Corey, another member of the commission, already has left for Boise where he will attend a conference of the public service commissions of Washington, Idaho and Oregon. This conference was called to discuss the proposed east and west line railroad across the state of Oregon.

On April 26, Commissioner Ostrander will go to LaGrande where he will conduct a hearing in connection with the application of the Big creek and Telocaset Railroad company for a certificate of public convenience and necessity. It is proposed to extend this railroad from Telocaset to Beagle Junction a distance of 12 miles.

The commission Friday dismissed the complaint of the Braymill White Pine Lumber company against the California & Eastern Railroad company. The complaint had to do with logging rates. The commission has suspended the new additional service schedules of the Pacific Stages, Inc., and the Southern Pacific Motor Transport company pending an investigation. The two companies operate between Portland and Forest Grove.

SMITH CARRIES IOWA

DELEGATES INSTRUCTED IN FAVOR OF GOVERNOR

DES MOINES, Iowa, April 20.—(AP)—All of Iowa's twenty-six delegates to the democratic national convention to Houston, Texas, late today were instructed by the party's state convention to vote under the unit rule for Governor Smith of New York for the presidential nomination. The vote was by acclamation. Eight delegates at large with one-half vote each were also named to the national convention. The Smith delegates were in complete control of the convention.

Under the instructions the delegates are to vote for Governor Smith "as long as there is reasonable opportunity to secure his nomination, the majority to determine when, if ever, the delegates shall be released from this vote of instruction."

Survey Shows Hoover Desired for President

SAN FRANCISCO, April 20.—(AP)—William H. Crocker, San Francisco banker and republican national committeeman from California, returned Friday from a survey of the Hoover for president situation in the east and pronounced it highly satisfactory.

The only people who do not want Hoover, Crocker said, in a statement, are the politicians. "The politicians do not want Hoover because they can't fit him into their own program," said Crocker. "They are hard put to it because they haven't anybody to pit against him and they realize that the people are keenly on the lookout to see that no back-room nomination is put over at Kansas City. They are also an excellent because so many of their subordinate organizations are for Hoover and they cannot handle their delegates as a unit."

Crocker visited Kansas City where the republican convention will be held starting June 12. "From Kansas City I visited New York and Washington," Crocker said. "I had an interesting talk with President Coolidge and Secretary Hoover. The candidacy of Mr. Hoover, I think is unique in American politics. On the one hand he is generally recognized to be ideally fitted for the position from every point of view and on the other hand it is doubtful if any candidate ever had such an enthusiastic volunteer organization all over the country supporting him, not in the hope of getting political advantage but from patriotic motives. It is all very inspiring."

"You hear talk of 'Wall Street' and 'big business' fighting Hoover, but these are popular terms that haven't much meaning," the committeeman said. "I talked with

many of the leaders of finance and industry, and I found a number who do not really know Hoover and were somewhat prejudiced against him. I also found many who admired him greatly and thought he would make a splendid president."

Crocker said an attempt had been made to spread the belief that the farmers were against Mr. Hoover, but that this was not true and that the attempt had failed.

Lace On Underwear Aid To Manufacturers, Word

NOTTINGHAM, England (AP)—Nottingham lace manufacturers are much elated over the decision of fashion makers that women's underwear is again to be trimmed with lace, even though the lace be very narrow. Most of the 18,000 lace-makers thrown out of employment by the abandonment of lace for almost everything except curtains have been absorbed in other industries, but are anxious to return to the lace trade.

Truancy Respearing— Mrs. Cora E. Reid, county truant officer, was at Mill City Friday investigating a truancy case. Mrs. Reid reports that truancy cases, though no greater than usual for this time of year, they are appearing here and there. In some instances undue absence from school is at the instigation of parents who want assistance with the spring work, but in others it is just the student's decision to come to a close. At most there are but six weeks more of school this year and in some of the rural schools classes will end in another four weeks, or by the middle of May.
