Are You All There? Chemical analysis of the human body shows that it is composed of the following elements: Oxygen, Carbon, Hydrogen, Nitrogen, Calcium, Phospherus, Potasaium Sulphur, Bodium Chlorida, Maguesium, Iron, Iodine, Fluorine, Silicon, Zinc, Manganese.
You supply your body with these chemical elements through the food you eat, the air you breathe and the water

you drink.

Good health depends much upon the

and maintained. Many refined foods in
common use today are lacking to an
alarming extent in these vital and health

is responsible for many chronic allments. Pacific Health-Ore is rich in the majority of these elements and its use has accomplished marvelous results in restoring health. Give Nature
