LIQUOR SCANDAL CHARGES SIFTED

Trial Pushed in Case of County Sheriff From Washington County

PORTLAND, Apr. 25.—(AP)—E. P. Frederickson, sheriff of Washington county, Washington, and Edgar E. Ellis, alleged by federal officers to be a liquor operator of the lower Columbia river country, were ordered held today by the United States commissioner here, pending an order removing them to Tacoma where charges of conspiracy and violation of the national prohibition act have been filed against them.

Sheriff Frederickson resumed the witness stand at today's hearing, after having been questioned yesterday. He was subjected to cross-examination by the assistant United States attorney, and admitted arresting Ellis in January 1927, on a liquor charge. Ellis, he said, was acquitted in superior court. It was after the arrest, Frederickson said, that Ellis expressed a desire to go with the sheriff on some liquor raids, and it was in the light of this request that he was taken to an island in the lower Columbia river early in March, last year.

With Harley J. Slusher, sheriff of Clatsop county, Oregon, Frederickson raided a whiskey still on the island, which was under the jurisdiction of Oregon. About 95 gallons of liquor was left on the island, to be removed later by the officers, but Frederickson and Ellis returned that night and removed the cache. Frederickson said the liquor was later turned over to Slusher after the Oregon officer found it had been taken.

Ill-feeling between Frederickson and J. R. Stott, who was discharged in March, 1927, as chief deputy sheriff, came up several times during the hearing.

Frederickson is charged with having extended protection to Ellis in addition to the general conspiracy charges against the two. Other alleged associations with illicit liquor traffic in Washington county is charged.

The child welfare committee voted against birth control study, 15 to 3.

Racing Driver Killed When Tire Blows Out

DAYTONA BEACH, Fla., April 25.—(AP)—Frank Lockhart, youthful racing driver, was catapulted to his death today when a tire blew out while his automobile was speeding 200 miles an hour in an attempt to set a new record for land travel over the sands of Daytona Beach.

The accident occurred as Lockhart approached the grandstand. His Stutz Blackhawk special swerved back and forth, rolled out of control 350 feet and left the ground.

Two photographers and a newspaperman narrowly missed injury as the car hurtled over their heads 550 feet before taking another 300 foot jump and hurling Lockhart to the sands.

Pitched from the driver's seat, Lockhart was flung 30 feet. Spectators found him stretched out, face downward, bleeding from nose and mouth and breathing heavily. He died before a hospital was reached.

Otis Porter, official timer of the American Automobile association, described how the two photographers and T. R. Gill, Associated Press correspondent, missed death by inches.

Sour Stomach

"Phillips Milk of Magnesia" Better than Soda

Instead of soda hereafter take a little "Phillips Milk of Magnesia" in water any time for indigestion or sour, acid, gassy stomach, and relief will come instantly.

For fifty years genuine "Phillips Milk of Magnesia" has been prescribed by physicians because it overcomes three times as much acid in the stomach as a saturated solution of bicarbonate of soda, leaving the stomach sweet and free from all gases. It neutralizes acid fermentations in the bowels and gently urges the souring waste from the system without purging. Besides, it is more pleasant to take than soda. Insist upon "Phillips." Twenty-five cent and fifty cent bottles, any drugstore. "Milk of Magnesia" has been the U. S. Registered Trade Mark of The Charles H. Phillips Chemical Co. and its predecessor Charles H. Phillips since 1875.—Adv.
