FLYER KILLED JUST BEFORE ROME HOP

Secret Flight to Italian Capital Planned in Week by R. V. Thomas

NEW YORK, May 9.—(AP)—Lieutenant Royal V. Thomas, former army flier who crashed to his death at Teterboro airport in New Jersey today, was killed in the first of two plane tests in preparation for a secret flight to Rome next week, Harry A. Bruno, the airman's representative disclosed tonight.

TETERBORO AIRPORT, Hasbrouck Heights, N. J., May 9.—(AP)—The career of Royal V. Thomas whose efforts in the cause of aviation have blazed his name on the roster of great fliers was ended today in instant death in the crash of his Bellanca monoplane "Reliance." With him died Vaughn Weatherley, mechanic in the employ of the Wright aeronautical corporation.

It was in the Reliance after near tragedy in the take off, that Thomas set a solo endurance record at Roosevelt field, N. Y. last week by staying in the air for 38 hours 24 minutes and 59 seconds. He had attempted single handed to break the record of 53 hours 36 minutes and 41 seconds recently established by Eddie Stinson and George Haldeman, placing a noose around his neck to choke him into wakefulness should he fall asleep while his plane circled the field. A broken gasoline gauge however brought his effort to an end after he had beaten the solo flight record made by Colonel Charles A. Lindbergh on his flight to Paris.

Thomas immediately began to prepare for another attempt the latter part of this week. Exactly what caused the plane to crash was not learned. Some witnesses said one of the wings crumbled as Thomas banked sharply to turn at an altitude of several hundred feet while others believed they heard an explosion before the fall.

The plane struck on the fairway of the Teterboro golf course, crashing into a culvert used to drain water.

Thomas was a resident of Durand, Okla., and Weatherley of Ridgewood, N. J.

Talehiro Araki, of Tokio, a former student of the University of Oregon, is racing around the world. He is one of the two men selected by the newspaper Jijo Shimpo of Tokio, Japan, for the round-the-world dash. The other man is Tatsukichi Matsui, a graduate of Keio University.

The utilization of all modern means of transportation with the least possible expense and greatest speed is the main object of the race. Both men are striving to lower the existing around-the-world record made in 1913, 35 days, 21 hours and 36 minutes.

Anderson and Gunther are at liberty under bail of \$3,000 and \$5,000 respectively. Gunther is expected to plead tomorrow in answer to the charges.

LONG AIR TRIP PLANNED

KINGS BAY, SPITZBERGEN, MAY 9.—(AP)—General Umberto Nobile will take the dirigible Italia into the air Friday if weather conditions are good, on the start of his actual polar expedition. He has received valuable enlightenment from Captain Wilkins who flew from Alaska recently for the navigation of the polar sea.

The Italia has been repaired and Meteorologist Malmgren, who has been watching weather conditions closely, promises that everything will be favorable, at least during the early part of the journey.

PACIFIC COMMERCE HELD ON INCREASE

Edward T. Plummer of U. S. Shipping Views Situation at Portland

PORTLAND, May 9.—(AP)—Ocean borne commerce of the Pacific coast is increasing to the extent that it is challenging Atlantic coast salt water traffic, and prospects are now good for a direct passenger and freight service from Portland and other coast ports to the United Kingdom and the European continent. Such were the declarations made today by Edward T. Plummer, vice chairman of the United States shipping board. He left late today for San Francisco accompanied by Jefferson Myers, Oregon member of the board.

Desires of extending the trade of the United States to every port of the world, and confronted by foreign lines that would cut rates to the disadvantage of this country's commerce, the shipping board, explained its vice chairman, has sought legislation that will remedy the situation and will give American-made goods as low a freight rate as necessary to compete in foreign markets.

This will be done by the Jones-White bill, which is certain of final approval, Plummer said. It provides for low interest loans to shipbuilders, tax exemptions on vessels constructed under its provisions, and mail contracts for companies operating such vessels, all of which would be operated in trade routes approved by the shipping board.

"The only justification for government aid," Plummer explained, "is to build up commerce. We want a fleet big enough to give cheap transportation for American made goods to the markets of the world." That, he said, would mean steady production and employment at home.

Myers, who introduced Plummer at a meeting of Portland advertising clubs, said 100,000,000 tons of cargo was handled on this coast in 1927, against approximately 115,000,000 tons on the Atlantic coast, a lead of about 15,000,000 tons for the older established Atlantic coast ports.

AGGIE YEARLINGS BEAT FROSH 14-8

EUGENE, May 9.—(AP)—The O. A. C. rooks grabbed a 14 to 8 victory from the University of Oregon frosh in the last two innings of a hitting duel staged this evening on the variety diamond here. With the score tied at 3 all here, the seventh inning the rooks started an avalanche of hits that brought in six tallies while holding the freshmen aggregation scoreless.

Score: R H E

ITALY FAVORS TREATIES

Acceptance of Kellogg Plan Voiced by Mussolini

WASHINGTON, May 9.—(AP)—The American proposal for a multi-lateral treaty renouncing war is acceptable to Italy. In addition, the Italian government is willing to cooperate with the United States in obtaining an agreement for such a treaty with Great Britain, Japan, France and Germany. The Berlin government already has expressed its unqualified acceptance.

Italy's attitude was made clear in a note delivered to American Ambassador Fletcher at Rome on May 6 and made public today by the state department.

"I hardly need assure you," Premier Mussolini said, "that Italy, adhering to the policy which she is constantly following, has welcomed with a lively sympathy this

BREMEN TRIO FETED BY PHILADELPHIANS

Air Tour of United States Begun by Famous Transatlantic Flyers

PHILADELPHIA, May 9.—(AP)—The crew of the Bremen came to Philadelphia today to receive honors for their vast achievement in aviation and in turn to do honor to those who achieved in the long ago.

Landing at the Philadelphia navy yard in 57 minutes from Curtis field New York, on their first stop of their air tour of many American cities, the transatlantic fliers were vociferously acclaimed from the moment they stepped on the muddy field until they tucked themselves into bed tonight. As the fliers passed through the skyscraper and other sections of the city they were in a constant cloud of flying bits of paper.

At Independence Hall, the cradle of liberty, the three famous fliers stood handsoed as they gazed on the Liberty bell. Major Fitzmaurice ran his hand along its famous crack and Captain Koehl and Baron Von Huenefeld spoke low in German.

"I will take you to the statue of an Irishman who was the father of the American navy," said Mayor Mackey and then led the aviators into Independence square where stands the bronze figure of Commodore John Barry, born in Wexford, Ireland.

Major Fitzmaurice, given a

MONTANA MAY FAVOR AL

Walsh Withdrawal Presents Unique Situation in State

HELENA, MONT., May 9.—(AP)—Montana's delegation to the national democratic convention at Houston may present the anomaly of Senator T. J. Walsh, an avowed candidate for the democratic presidential candidacy when the campaign started, casting a vote for Governor Alfred E. Smith of New York.

While democratic county delegations elected Tuesday were mostly unstructured, it was generally believed that a state delegation instructed for the New York executive would be selected at the state convention May 15.

Political observers also believed that Senator Walsh, who has abandoned his candidacy for the nomination, would be a member of the state delegation.

FIFTH OF GROUP TAKEN

William O. Ruess Arrested in Arizona, Portland Hears

PORTLAND, May 9.—(AP)—William O. Ruess, fifth member of a group under indictment by the federal grand jury here on charges of using the mails to defraud in promoting the Southwest Silver Lead association, is under arrest in Arizona, according to word received here today by Forrest E. Littlefield, assistant United States attorney, from Phoenix, Ariz.

With A. E. Downing, W. C. Gunther, both of whom were arrested in Portland Tuesday, and E. R. Anderson, arrested in Vancouver, Wash., and Dr. Herbert Porter Collins of Phoenix, who is under arrest there, Ruess was indicted by the federal grand jury May 1.

Downing was committed to the Multnomah county jail today in

HOP ACROSS SEA TODAY

Spanish Flyers Expected to Begin Flight to Havana

SEVILLE, Spain, May 9.—(AP)—All was in readiness tonight for the hop off at dawn tomorrow of Captain Ignacio Jimenez and Francisco Iglesias on what purports to be a trip to India, but which few doubt is to be an attempt to cross the Atlantic to Havana.

Official sanction for the flight—if it is to India—was granted by the crown today, and weather conditions for a take-off were auspicious. Whether, however, when the plane—a giant Breguet christened "Jesus Del Gran Poder"—does take off it is to set out for India or turn to the west over the Atlantic only the aviators themselves know, and they are guarding their secret well.

It is known, however, that friends of the two have entrusted them with letters to other friends in Havana.

U. S. MAY OFFER TO HELP

WASHINGTON, May 9.—(AP)—A resolution to have the American government offer to adjust the differences between Japan and the Chinese nationalist forces was introduced in the house today by Rep. Black, democrat, New York.

The resolution, referred by Speaker Longworth to the foreign affairs committee, was prefaced by a declaration that such a tender should be made in view of the "traditional" friendship for both Japan and China.
